saneux

the space you love

Welcome to Saneux luxury bathroom furniture and accessories. We are proud to create remarkable spaces dedicated to relaxation, comfort and washing. Specialising in providing the best products and services for large housing complexes, hotels, airports and luxury homes, we design our specifications around your personal needs and demands.

Our products are readily available from stock in the UK, from renowned bathroom showrooms and plumbing retailers.

Bienvenue chez Saneux, une entreprise spécialisée dans la fabrication d'accessoires et de mobilier de salle de bains de luxe. Nous sommes fiers de concevoir des espaces remarquables dédiés à la relaxation, au confort et au bien-être. Spécialisés dans la fourniture des meilleurs produits et services à destination des grands complexes résidentiels, hôtels, aéroports et maisons de luxe, nous adaptons chaque cahier des charges à vos demandes et besoins personnels.

Nos produits sont immédiatement disponibles sur stock au Royaume-Uni, auprès de distributeurs en plomberie et de vendeurs de salles de bains de renom.

QUALITY

Made from premium raw materials, our bathroom products promise quality and longevity.

As an eco-conscious company we make sure that our factories are dedicated to recycling a large percentage of our production waste. In this way we manage to reduce costs for you and the environment!

QUALITÉ

Fabriqués à partir de matières premières de haute qualité, nos produits allient qualité et longévité.

En tant qu'entreprise soucieuse de l'environnement, nous veillons à ce que nos usines recyclent une partie importante des déchets de production. Nous parvenons ainsi à réduire les coûts, à la fois pour vous et pour l'environnement !

The WOW! factor

Naturally we have a lot to WOW! about so where you see the WOW! these are some of the clever and quite ingenious features which are designed to make your bathroom that little bit more special.

So don't miss the WOW! in your bathroom

Le facteur « WOW ! »

Il y a naturellement de quoi dire « WOW ! ». Cette expression, qui apparaît sur certaines pages du présent catalogue, est là pour mettre en avant un produit ou une gamme de produits dont les caractéristiques astucieuses ont pour objectif de rendre votre salle de bains un peu plus spéciale.

Ne ratez pas l'effet « WOW ! » dans votre salle de bains.

Pictured: PODIUM 75cm unit with *ICON (available 2017) basin and TEMPUS TE430 wall-mounted mixer. Also featured, ZAHA free-standing bath.

DESIGN SOLUTIONS

Saneux bathroom furniture and accessory ranges are inspired by the natural coalition of stone and water. Using the finest materials and contemporary designs we manage to create sanitaryware that can enhance even the most complex and unusual of spaces.

We are delighted to present you with our latest product collections that promise to captivate and inspire you.

SOLUTIONS DE CONCEPTION SOLUTIONS

Les gammes d'accessoires et de mobilier de salle de bains Saneux s'inspirent du mariage naturel de la pierre et de l'eau. L'utilisation de designs contemporains et des matériaux les plus raffinés qui soient nous permet de concevoir des appareils sanitaires capables de mettre en valeur les espaces les plus complexes et les plus inhabituels.

Nous avons le plaisir de vous présenter nos toutes dernières gammes de produits, qui promettent de vous envoûter et de vous inspirer.

Pictured: X_ACT 60cm washbasin with Austen 500203 alaska 1drawer unit. Also featured PA001 washbasin monoblock mixer.

Our products are designed to have a practical use and to make your lifestyle more convenient. Whilst they provide space for organization and functionality, when it comes to Saneux bathroom furniture, you will never have to compromise on style.

ESSENTIAL STORAGE . . .

Say goodbye to cluttered drawers...

Most of our drawer furniture are simply divided using our ingenious compartments that can easily be modified to suit your family's needs.

WOW!

Dites adieu aux tiroirs encombrés...

La plupart de nos tiroirs sont divisés en compartiments simples et astucieux qu'il est possible de modifier facilement en fonction des besoins de votre famille.

WOW!

UN COMPAGNON DE RANGEMENT INDISPENSABLE...

Nos gammes sophistiquées vous offrent des solutions faciles à utiliser et à entretenir. Nos gammes de tiroirs et de meubles vous proposent un large éventail d'options qui vous permettent de personnaliser les produits en fonction de l'espace dont vous disposez et du style recherché.

Nos produits ont été conçus pour être pratiques et vous faciliter la vie. Le mobilier de salle de bains Saneux offre espace de rangement et fonctionnalité, sans aucun compromis sur le style.

Pictured: A brilliantly practical range, all under basin drawer cabinets have storage which can be divided using the drawer divider sets.

Des vasques plus profondes et améliorées...

Toutes nos gammes sont composées de vasques très profondes spécialement conçues pour celles et ceux qui souhaitent éviter au maximum les éclaboussures.

WOW!

Deeper and better..

All of our current ranges feature specially selected extra deep basins for those that seek to have minimum splash.

WOW!

Pictured: X_ACT 60cm washbasin with Austen 500203 alaska 1drawer unit. Also featured PA001 washbasin monoblock mixer.

SMOOTH SMOOTH CERAMIC . . .

Vitreous china, better known as ceramic, is a beautiful, impervious, shiny, durable surface which maintains its beauty for many years despite constant use. It dates back to ancient Egypt where their crudely-formed rough washbowls, pitchers and toilet bowls (ahem) were cutting edge technology and leaders in world design (strange but true).

Over the many centuries the manufacturing of ceramic has been perfected until now a machine knocks out more than 200 WCs per day. And with 5% tolerance - it's an artform.

Here at Saneux, we produce ceramics and furniture for your bathroom which clean beautifully, sparkle effortlessly and . . . we have introduced the joy of minimalism into the bathrooms of millions, establishing us as a market leader.

OH ! LISSE ET DOUCE CÉRAMIQUE...

La porcelaine vitrifiée, plus connue sous le nom de céramique, est une surface élégante, imperméable, brillante et durable qui, malgré l'épreuve du temps, conserve toute sa beauté pendant de nombreuses années. Ce matériau date de l'Égypte antique. Aussi surprenant que cela puisse paraître, cette civilisation était un leader mondial dans la conception de vasques, pichets et cuvettes de toilettes ; des objets grossièrement façonnés et à la pointe de la technologie.

La fabrication de cuvettes WC en céramique a évolué et s'est améliorée au fil des siècles. Aujourd'hui, une machine est capable d'en produire plus de 200 par jour, et ce, avec une tolérance de 5 %. À ce niveau, il n'est pas exagéré de parler d'art !

Chez Saneux, nous fabriquons du mobilier et des cuvettes WC en céramique qui se nettoient merveilleusement bien et brillent sans effort. En outre, . . . nous avons su insuffler un doux vent de minimalisme dans les salles de bains de millions de personnes et ainsi nous positionner comme l'un des leaders du marché.

ENVIRONMENT we care . . .

Population and climate changes, coupled with modernised lifestyles have put an increased demand on water supplies.

There are three points we need to find solutions for:

- Government legislation
- Environmental consciousness
- Saving money

Water is a right, wasting is a crime!

With the will to preserve one of the most precious resources one has . . .
We transformed two years ago from 9 litres to 6 litres as expected by ECO standards. With further intense research, we present many of our toilets having passed rigorous tests flushing only 4.5 litres of water. WOW!

Look out for our super eco toilets
wherever you see this sign

L'ENVIRONNEMENT COMME RAISON D'ÊTRE...

Les changements démographiques et climatiques, associés aux modes de vie moderne, ont entraîné une hausse de la demande en eau.

Nous nous devons de trouver des solutions en ce qui concerne :

- les textes législatifs ;
- la conscience environnementale ;
- les économies d'argent

L'eau est un droit, son gaspillage est un crime !

Soucieux de préserver l'une de nos ressources les plus précieuses . . . et conformément aux normes écologiques, nous avons réduit il y a deux ans le volume consommé par chasse d'eau, et ce, de 9 à 6 litres. Grâce à d'intenses recherches, nombre de nos cuvettes WC ne consomment que 4,5 litres d'eau par chasse d'eau. Ces cuvettes ont d'ailleurs passé avec succès différents tests rigoureux. WOW !

Découvrez nos cuvettes WC super écologiques,
matérialisées par ce symbole.

Pictured: MATTEO close-coupled WC with soft-close seat.

CONTRACTS SUPPORT

Saneux emphasizes on the importance of solid partnerships with Designers, Architects and Builders that are an essential part of our work. We have formed a specialist department that focuses entirely on the ever-growing building and commercial sector. Our DAB Team is exclusively dedicated to building new collaborations and nurturing existing relationships with our valued contracts as well as ensuring our clients receive a consistently high level of service.

At Saneux, we create the right atmosphere required to work together with Designers and to help them in their task to create exceptional homes. Apart from helping out in the selection process, designers are welcome to give us their plans on any stage of construction and we are equipped to also help stylistically with new product ranges as well as providing them with high quality CG renders of their installations.

However, our job doesn't end there. Our team is keen to assist Architects with the intricate and lengthy undertaking of product specification. We act as trusted advisors providing organized instruction and use our expertise to enable them achieve the desired results. We also built a dedicated support portal for troubleshooting and instructions and our Technical & Spares Department is always happy to provide long-term support for projects of any scale.

We always follow through our projects, from the design stages to the product selection process as well as the building stage. Working closely with Quantity Surveyors, we suggest alternatives to existing specifications, offering advice and recommendations on technical issues such as space saving and maintenance. It is our responsibility and interest to make certain that the projects are maintained in exceptional standards and therefore perform inspection visits for the purposes of project evaluation and support, years after completion.

Saneux souligne l'importance d'établir des collaborations fortes avec les designers, les architectes et les constructeurs, qui constituent des éléments essentiels de notre travail. Nous avons mis en place un département dédié entièrement tourné vers les secteurs commercial et du bâtiment, en croissance constante. Notre équipe de designers, architectes et constructeurs a pour mission d'établir de nouvelles relations, d'entretenir les relations existantes et de s'assurer que nos clients sont satisfaits à tous les niveaux.

Chez Saneux, nous créons un environnement propice à une collaboration avec les designers, afin de leur permettre de réaliser des espaces remarquables. Outre le fait de participer au processus de sélection des produits, les designers peuvent nous transmettre leurs plans à n'importe quelle étape de la construction. Nous sommes capables d'offrir une aide sur le plan stylistique grâce à des gammes innovantes et de leur fournir un rendu numérique haute qualité de leurs installations.

Toutefois, notre travail ne s'arrête pas là. Notre équipe est soucieuse d'aider les architectes dans la réalisation du cahier des charges, une tâche complexe et chronophage. Nous agissons à titre de conseillers de confiance en leur fournissant des instructions détaillées. En outre, nous nous appuyons sur notre expérience pour les aider à obtenir les résultats escomptés. Nous disposons également d'un portail de support dédié destiné à la résolution des problèmes et aux instructions. De plus, notre département technique et de pièces de rechange est toujours soucieux de fournir un soutien à long terme, et ce, dans le cadre de projets de toute taille.

Nous effectuons toujours un suivi complet de nos projets, et ce, de la conception au processus de sélection des produits, en passant par la phase de construction. En étroite collaboration avec des économistes en construction, nous proposons des alternatives aux cahiers des charges existants, fournissant ainsi des conseils et des recommandations quant aux problèmes techniques tels que l'économie d'espace et la maintenance. Il est de notre responsabilité de nous assurer que les résultats obtenus sont les meilleurs possible. C'est la raison pour laquelle nous réalisons des visites de contrôle dans le cadre de l'évaluation et de l'appui aux projets, et ce, plusieurs années après leur achèvement.

CASE STUDIES

ST. JAMES'S PLACE

This is a central London apartment refurbished by W9design in 2014. Its magnificent views of Green Park and large living spaces make this apartment a unique property in the UK market.

However, the 25 years of no refurbishment had taken its toll on the property. A fresh and contemporary interior treatment breathed new life into its generous living spaces. Within the timeframe of only 6 months, W9design managed to refurbish the entire property, including installation of new electrics, plumbing, flooring, decorating and furnishings. By incorporating some 1970's vintage pieces to the otherwise restrained style of the refurbished flat, W9design added character and unique charm.

This two storey property boasts 4 bedrooms, a large living room and reception, a kitchen with dining area and a study. The renovation also included a new cloakroom and three new bathrooms. W9design used several items from our beloved MATTEO collection to create bathrooms that accommodate the needs of the occupier and that match the unparalleled design standards of the rest of the property.

Rénové par W9design en 2014, cet appartement se situe en plein cœur de Londres. Les vues incroyables sur Green Park et les grandes pièces à vivre font de cet appartement un bien immobilier unique sur le marché britannique.

Toutefois, l'absence de travaux de remise en état pendant 25 ans n'a pas été des plus bénéfiques pour cet appartement. Des travaux de rénovation contemporains ont ainsi permis de donner un nouveau souffle aux vastes espaces de vie. En seulement 6 mois, W9design est parvenu à rénover l'ensemble de l'appartement, y compris les installations électriques, la plomberie, les sols, la décoration et le mobilier. En associant le caractère vintage de certains objets des années 1970 au style sobre de l'appartement rénové, W9design a su lui conférer un charme unique et lui redonner du caractère.

Cet appartement sur deux étages comprend 4 chambres, un grand séjour, une cuisine avec coin repas et un bureau. Un cabinet de toilette et trois salles de bains ont également été aménagés. W9design a utilisé divers produits de notre gamme MATTEO pour concevoir des salles de bains qui répondent aux besoins de l'utilisateur et correspondent aux normes de conception uniques du reste de l'appartement.

HOVE PARK VILLA

The Hove Park Villa residential project was completed by CDMS Architects and has won the Sussex Heritage Trust Award 2010, Residential Award. The refurbishment of this period style home, first built in the early 1900's, was assigned and carried out in two stages.

The first phase of the renovation included works to the main bedrooms, bathrooms and living spaces while the second phase involved the redesigning of the kitchen and utility areas and full landscaping to the garden. The procedure included the demolition of the garage and the construction of an extension to the kitchen as well as modifications to the original layout. Using quality materials and finishes has created a better sense of connection and flow throughout the property while still maintaining the character and appeal of this Edwardian home.

CDMS Architects, once again chose to use Saneux sanitaryware to ensure that the high standard of the renovation was achieved throughout the bathroom areas as well. Selecting our QUADRO basins and JONES back-to-wall pan, they managed to create bathroom spaces that are both stylish and functional.

Réalisé par la société CDMS Architects, le projet résidentiel Hove Park Villa s'est vu décerner le prix « Residential Award 2010 » par l'association Sussex Heritage Trust. La rénovation de cette maison d'époque, construite au début du 20e siècle, s'est déroulée en deux étapes.

Les travaux de la première phase concernaient les chambres principales, les salles de bains et les pièces à vivre, tandis que la seconde phase visait notamment à repenser la cuisine et à aménager le jardin. Ainsi, le garage a été détruit, tandis que la cuisine a été agrandie et repensée. L'utilisation de matériaux et de finitions de qualité a permis de garantir une meilleure continuité entre les pièces, tout en conservant le caractère et le charme de cette maison de style édouardien.

CDMS Architects a fait le choix des appareils sanitaires Saneux, et ce, dans l'objectif de respecter également un très haut niveau d'exigence au sein des salles de bains. Le fait d'opter pour nos vasques QUADRO et nos cuvettes classiques JONES a permis à cette société de concevoir des espaces à la fois élégants et fonctionnels.

Case Studies

FIELDING ROAD

The Fielding Road project is a residential property located in West London. This Victorian terrace house spreads into four floors and following initial architectural and extension works, interior design work remained to be done.

Diego Correa, interior designer, took over phase two which included works to the staircase area, living and reading areas as well as remodeling two bathrooms. The challenge was to maintain the Victorian details around the house whilst giving a new and sophisticated look to resonate within the house and provide the sense of continuation between the different rooms.

One of the bathrooms to be renovated was to be for the family's three children's use. The client requested for yellow to be incorporated into the design. Diego Correa managed to combine a hue of yellow with the rest of the room in a gray palette that would connect the bathroom with the other rooms and staircase space. The design is one that will last and work even when the children become teenagers.

The second bathroom was a guest bathroom. In this room, Diego opted for a soberer look yet with an informal elegance that would give it a welcoming appearance. He achieved that feel, using brown and walnut shades and matt tiles and finishes.

In both bathrooms, Diego used products from our Austen and Elluminate ranges. To view the entire Diego Correa portfolio visit their website here. Credit for the beautiful pictures goes to talented photographer Enzo Mercedes.

Le projet Fielding Road est un bien résidentiel situé à l'ouest de Londres. Cette maison mitoyenne de style victorien s'étend sur quatre étages. Une fois les travaux architecturaux et d'extension terminés, il restait encore à faire l'aménagement intérieur.

Diego Correa, architecte d'intérieur, fut chargé de la mise en œuvre de la phase deux du projet ; phase qui comprenait les travaux au niveau des escaliers et des espaces de vie et de lecture, ainsi que la rénovation des deux salles de bains. Le défi fut non seulement d'assurer une certaine continuité entre les différentes pièces, mais également de conserver les détails de l'époque victorienne tout en donnant une nouvelle apparence, plus raffinée, à l'intérieur de la maison.

L'une des salles de bains à rénover était destinée aux trois enfants de la famille. Le client souhaitait que la couleur jaune soit intégrée au design de cette salle de bains. Diego Correa est parvenu à associer une teinte de jaune avec le reste de la pièce grâce à une palette de gris, permettant ainsi de relier la salle de bains aux autres pièces et aux escaliers. Le design de cette pièce conservera son charme au fil des années, et ce, à mesure que les enfants grandissent et deviennent des adolescents.

L'autre salle de bains était destinée aux invités. Dans cette pièce d'une élégance informelle, l'architecte d'intérieur a opté pour une apparence plus sobre, mais non moins chaleureuse. Pour ce faire, il a eu recours à des nuances de marron et de noyer, ainsi qu'à des finitions et du carrelage de couleur mate.

Diego Correa s'est appuyé sur nos gammes Austen et Elluminate pour aménager ces deux salles de bains. Pour découvrir le portfolio de Diego Correa, rendez-vous sur son site Web en cliquant ici. Nous tenons à remercier le photographe Enzo Mercedes pour ces magnifiques photos.

PORTOBELLO TERRACE

The Barnes Villas are located near the river Thames providing the atmosphere and serenity of the countryside, whilst being situated only 30 minutes away from central London. Perfect for a family living but not lacking the comforts and entertainment of city life, it combines the best of both worlds.

The Portobello Terrace Project demanded sophisticated bathrooms that would correspond to the luxury standards and necessities of a stylish lifestyle. We were pleased to collaborate with Nicolas King Homes and offer consultation in the selection of Saneux sanitarywear that would implement the character of these homes.

In order to provide a different personality to each bathroom, Nicolas King Homes selected products from a variety of ranges including our MATTEO basins and units and ICE cabinets promising exceptional quality and bathroom indulgence for years to come.

Situées à proximité de la Tamise, les villas de Barnes offrent l'atmosphère et la sérénité de la campagne tout en se trouvant à 30 minutes seulement du centre de Londres. Idéales pour les familles tout en offrant le confort et les distractions de la vie en ville, ces villas combinent le meilleur des deux mondes.

Le projet Portobello Terrace exigeait des salles de bains sophistiquées qui correspondraient aux standards et besoins luxueux d'un mode de vie raffiné. Nous avons eu le plaisir de collaborer avec Nicholas King Homes et de proposer des conseils lors de la sélection d'appareils sanitaires intégrant le caractère de ces maisons.

Dans l'objectif d'offrir une personnalité différente à chaque salle de bains, le promoteur immobilier Nicholas King Homes a sélectionné des produits parmi un éventail de gammes, y compris nos lavabos et meubles MATTEO et armoires avec miroir ; la promesse d'une qualité exceptionnelle et d'un plaisir pendant plusieurs années.

Pictured: MATTEO 39003 washbasin with handleless drawer units.
Also featured, MERCURY 3-hole basin mixers and INSIDE recessed mirror cabinets.

MATTEO

. . . a refined living experience

Featuring bathroom furniture in five exciting colours and three sizes, MATTEO is designed and focused to deliver a refined bathroom experience - every day.

MATTEO . . . une expérience raffinée

Vous n'entendrez rien... puisque nous utilisons les meilleures coulisses du marché afin de nous assurer que nos tiroirs se ferment en douceur et sans aucun bruit !

Des armoires minimalistes avec fermeture en douceur, aux finitions blanc satiné, noir satiné, wengé, gris satiné et chêne doré, aux lignes épurées et disponibles dans quatre tailles différentes.

Pictured: MATTEO tall side unit in gloss white.

Matteo: a luxury collection with distinctive design and generous dimensions. Minimalist square washbasins with or without furniture.

Matteo : une gamme de luxe au design distinctif et aux dimensions généreuses. Des lavabos carrés minimalistes avec ou sans mobilier.

Now that's luxury...
 Matteo has amazing distinctive design with generous dimensions, coupled with the perfect new handleless furniture... bathrooms don't get much better than this

Ça, c'est le luxe !...
 La gamme Matteo se caractérise par son design distinctif et ses dimensions généreuses, mais également par son nouveau mobilier sans poignée. En termes de salles de bains, vous ne trouverez pas mieux.

'Matteo is perfect for larger housing projects including commercial specification because of its classic design'

Architect

The PODIUM range of handleless furniture is the ultimate statement of style, quality and minimalism.

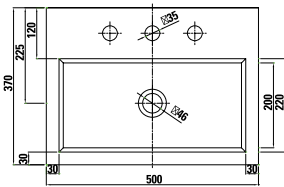

The furniture gets coated with 5 layers of lacquer and undergoes strict QC. The drawers are fitted with premium runners and hinges.

It's all in the detail..

La gamme PODIUM de mobilier sans poignée est l'ultime symbole du style, de la qualité et du minimalisme.

Le mobilier est recouvert de 5 couches de laque et soumis à un contrôle qualité rigoureux. Les tiroirs sont dotés de coulisses et de charnières de haute qualité.

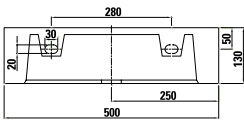

Tout est dans le détail !

Are you serious?...

Yep... I-line back to wall pan with only 49cm projection, cutting edge design and a price tag to match the size

WOW!

Vous êtes sérieux...

Tout à fait... La cuvette classique I-line se caractérise par sa projection de seulement 49 cm, son design dernier cri et son prix abordable.

WOW!

« La projection de la cuvette WC I-line est la plus courte que je connaisse... et des plus appréciées. N'importe qui peut non seulement intégrer cette cuvette WC dans son espace, mais également se permettre de l'acheter ! »

Le directeur d'un magasin de salles de bains, Tavistock (comté du Somerset)

I-LINE

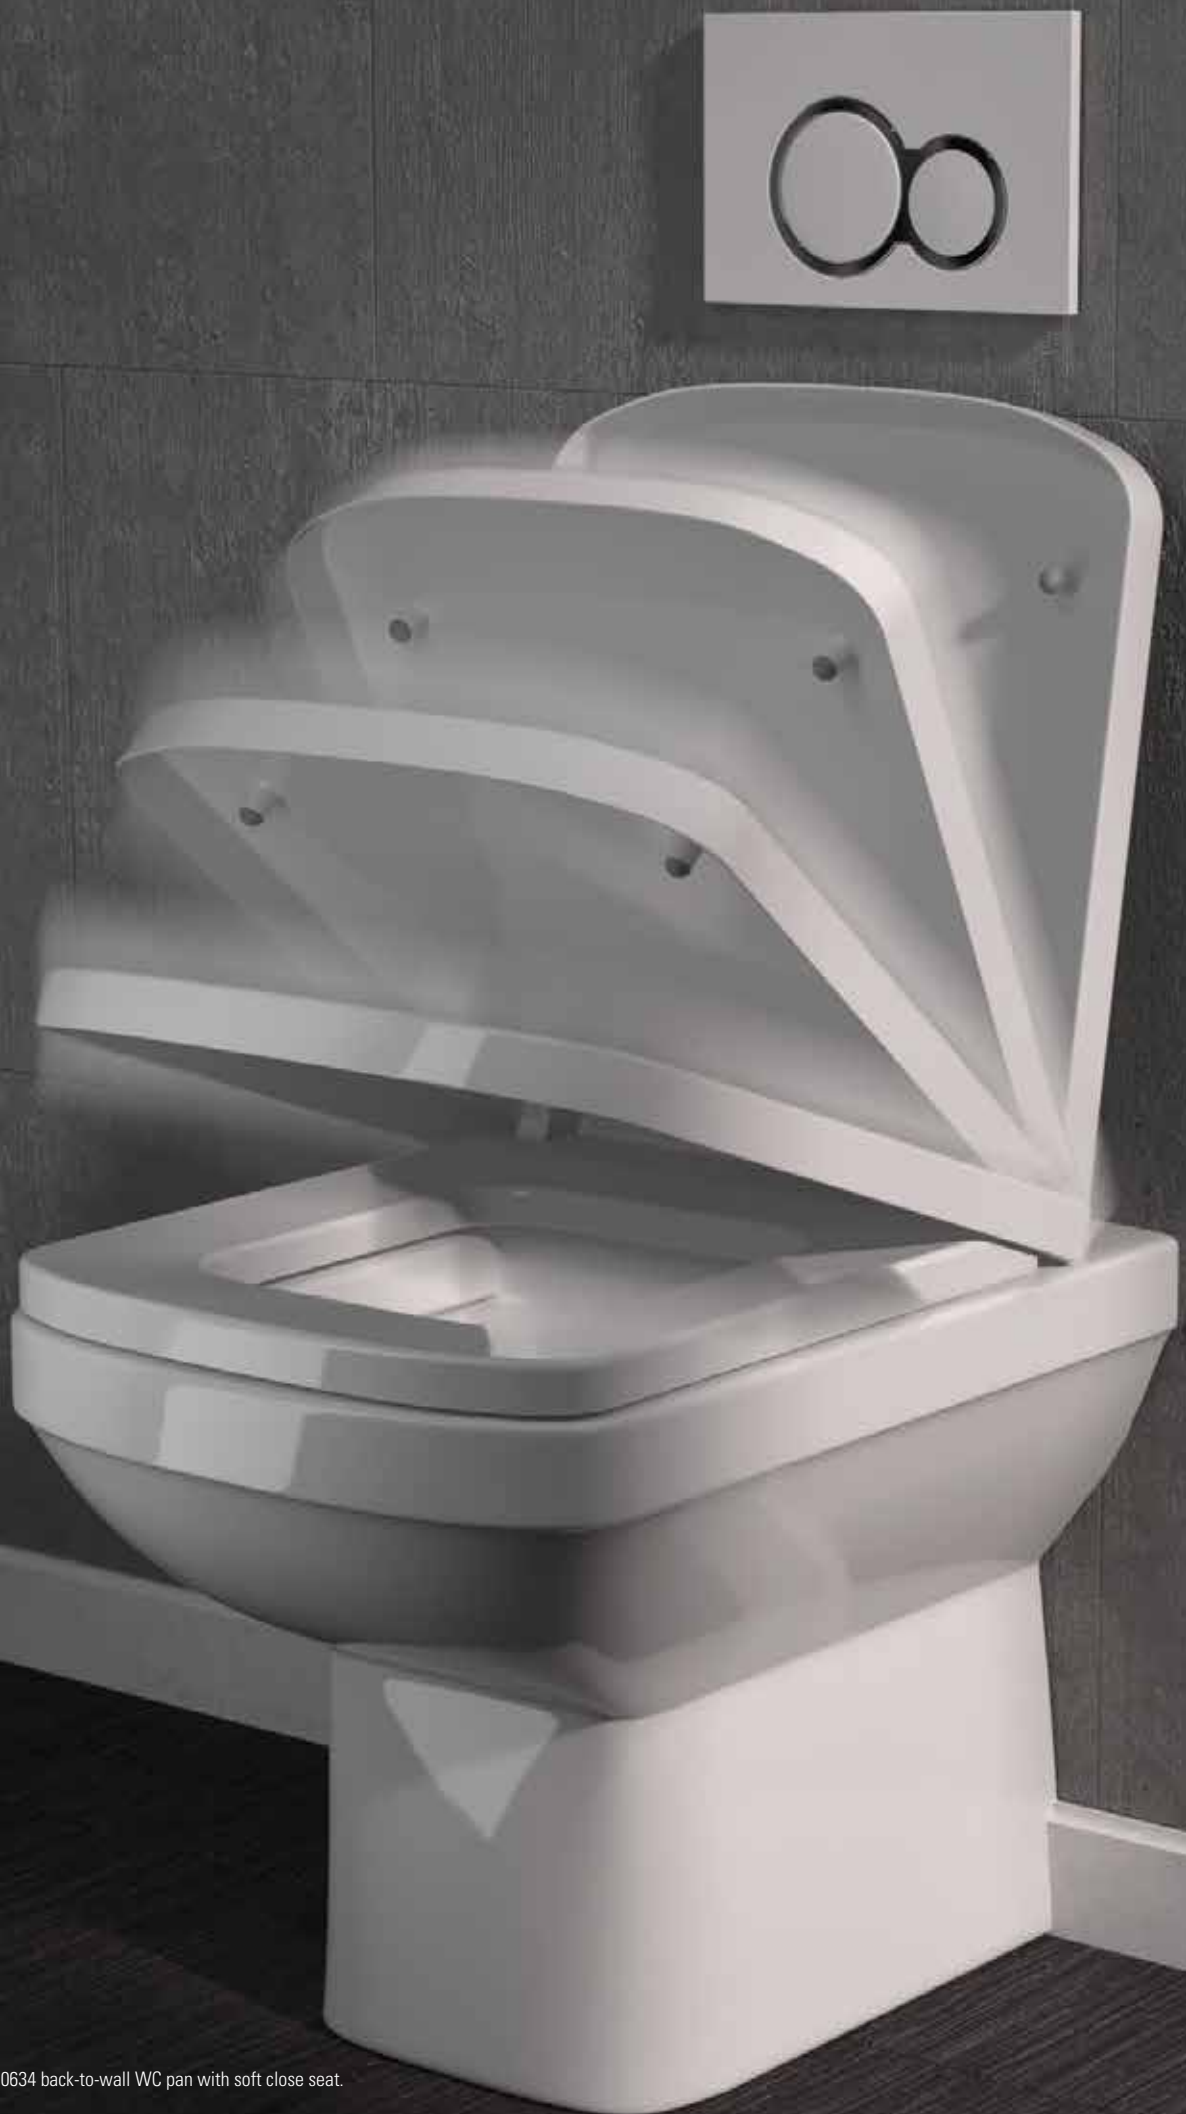

I-LINE

'the projection of the I-line toilet is the smallest I have heard of . . . great value too. Not only can anyone fit it in — anyone can afford it!'

Bathroom showroom manager
Tavistock, Somerset

Pictured: I-line 60634 back to wall WC and matching 60622 basin with 1-drawer unit*. Also featured, STEEL slider shower enclosure and TOOGA T0035 thermostatic rigid riser.

Gentle action...
 Our Austen seats come with soft closing action and quick release for easier cleaning. We also offer slim seats for that extra touch of style.

WOW!

Tout en douceur...
 Nos cuvettes WC Austen sont dotées d'un abattant à frein de chute et à ouverture rapide, pour un nettoyage plus facile. Nous proposons également des abattants élancés qui sortent de l'ordinaire.

WOW!

X_ACT

Our new mineral marble basins encompass the contemporary bathroom concept and vision. As a product of a truly unique idea and design, the X_ACT range of washbasins is one of a kind. Its refined composition and even material make from an exceptionally smooth and glossy finish.

As mineral marble is molded into an extra- smooth surface, it has the ability to be shaped in precise measurements that are not achievable with regular ceramic materials. The basins can be matched with our reputable units from our AUSTEN range in gloss white, alaska and pacific walnut colours.

Boasting a lighter and more durable material as well as easy installation and competitive prices, the X_ACT basins are a great choice for any bathroom.

Nos nouveaux lavabos en marbre minéral embrassent le concept et la vision des salles de bains contemporaines. La gamme de lavabos X_ACT, dont le concept et le design sont véritablement uniques, n'est pas une gamme comme les autres. Elle se caractérise par sa composition raffinée, ses matériaux uniformes et sa finition exceptionnellement lisse et brillante.

Le marbre minéral est moulé de sorte à obtenir une surface extra-lisse. Il peut ainsi être façonné avec précision, ce qui n'est pas possible avec des matériaux en céramique ordinaires. Il est possible d'allier ces lavabos avec les célèbres meubles de notre gamme AUSTEN aux finitions blanc satiné, alaska et noisette pacifique.

Fabriqués à partir d'un matériau plus léger et plus durable, faciles à installer et vendus à des prix compétitifs, les lavabos X_ACT constituent un choix idéal pour n'importe quelle salle de bains.

PLAZA

Cutting edge design makes Plaza a bathroom classic.

Plaza is the new 'old'. Plaza is accentuated in design by the beautiful marriage of traditional ceramic looks with cutting-edge technology of the wall-mounted WC.

PLAZA – a tradition in innovation.

La conception dernier cri de la gamme Plaza en fait un classique des salles de bains.

La gamme Plaza est le nouveau « vieux ». Le design de cette gamme est accentué par la merveilleuse alliance de l'aspect céramique traditionnel et de la technologie de pointe des cuvettes WC classiques.

PLAZA - La tradition dans l'innovation

'the lines of Project are superb . . . love the practical thin edge of the basin, such a good use of wash space'

Consumer

Keston Park, Bromley, BR2

« Les lignes de la gamme Project sont sublimes . . . j'adore les bords fins du lavabo et l'utilisation qui est faite de l'espace. »

Un client de Keston Park, Bromley (district de Bromley)

Project range includes a fully back to wall toilet with 7 basins in the range, you have impressive selection. In creating Project, we combine the finer elements of design, with a wonderfully softened square edge.

Any Project - anywhere - for anyone

We save you space...

Our Project range is specifically design to make the most out of your space while giving you the freedom to express your personal style.

WOW!

Nous vous faisons économiser de l'espace

... Notre gamme Project est spécialement conçue pour vous permettre d'exploiter au mieux votre espace tout en vous offrant la liberté d'exprimer votre propre style.

WOW!

La gamme Project comprend une cuvette WC classique et 7 lavabos. En créant cette gamme, nous sommes parvenus à associer les éléments les plus fins du design aux bords droits merveilleusement lisses des produits.

N'importe quel projet, n'importe où, quelle que soit la personne.

your shower valve?...
Call free 0800 1973 800

WOW!

SIMPLICITY THAT RULES WATER

This is your chance to personalise your bathroom with Saneux brassware, which combines the best in engineering and technology with real creativity.

Much of our brassware featured uses the revolutionary Ceramix system, which improves performance of traditional ceramic discs, offering smoothness of movement.

Water pressures

Most of our brassware is to be installed with high pressure water systems. This would mean operating pressures should be a minimum of 1 bar (33ft head). Look for description shown below if selecting your taps with a low pressure system. Ask your plumber to explain this further if you are unsure what water system you have.

LA SIMPLICITÉ RÈGNE SUR L'EAU

C'est l'occasion rêvée de personnaliser votre salle de bains grâce à la robinetterie Saneux, qui associe créativité et le meilleur de l'ingénierie et de la technologie.

Nombre de nos éléments de robinetterie utilisent le système révolutionnaire Ceramix, qui améliore les performances des disques en céramique traditionnels et assure ainsi un mouvement tout en douceur.

Pression de l'eau La plupart de nos éléments de robinetterie doivent être installés avec des systèmes à haute pression. En d'autres termes, la pression de fonctionnement doit être au minimum de 1 bar (charge hydraulique de 10 mètres). Lisez le descriptif ci-dessous si vous optez pour des robinets avec un système à basse pression. En cas de doute quant à votre système d'eau et pour plus de détails, veuillez contacter votre plombier.

Vous ne savez pas quel
mitigeur de douche
choisir ?...

Appelez gratuitement le
0800 1973 800.

WOW!

'It's so satisfying installing Saneux taps, they are simple to use and smooth to operate'

Bathroom installer
Romford, Essex RM7

« C'est tellement plaisant d'installer des robinets Saneux, dont l'utilisation et le fonctionnement sont on ne peut plus simples. »

Un installateur de salles de bains, Romford, Essex RM7

Featured: AUSTEN 60cm basin with matching
1-drawer gloss white unit.

WATER SYSTEMS

To help you select the optimum brassware for your project we have marked our products with the pressure requirement. This is represented as follows:

LP – minimum 0.2 bar

MP – minimum 0.5 bar

HP – minimum 1.0 bar

Fig.1

Cold water is stored in a header tank which feeds the hot water tank, and usually the cold water to the bathroom. This means the water is delivered at low pressure and therefore only taps with LP or minimum 0.2Bar (2 metre Head) can be used. If the header tank is in the loft space and the taps are on the ground floor the pressure may be higher so taps marked MP 0.5 bar (5 meter head) may be able to be used. You will need to check your requirements with your plumber as, if a power shower is required a pump will need to be fitted.

Figure 1
Standard Low Pressure System

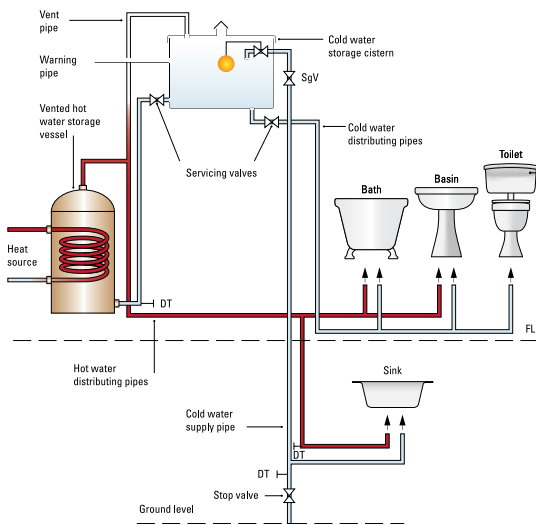

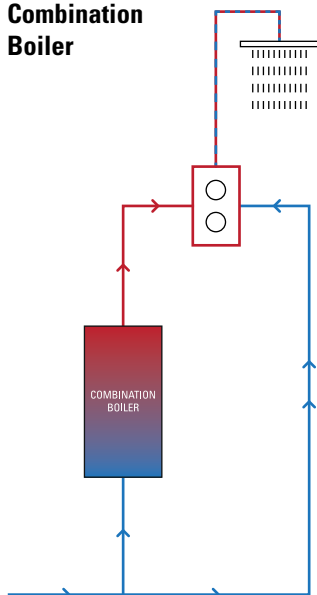

Figure 3
Combination Boiler

A combination Boiler heats water on demand, and although it is fed by mains pressure this is regulated to the speed which the boiler can heat the water.

All LP and MP taps and fittings may be used.

These are given as a guide only and to ensure optimum compatibility please refer to a qualified plumber and full product specifications.

Fig.2

The unvented cylinder stores hot water at mains pressure, usually between 2 and 3 bar. This means hot and cold water is delivered at the same pressure. This means a power shower can be achieved without the need for a pump. All LP, MP and HP taps and fittings may be used.

Figure 2
Unvented Pressure System

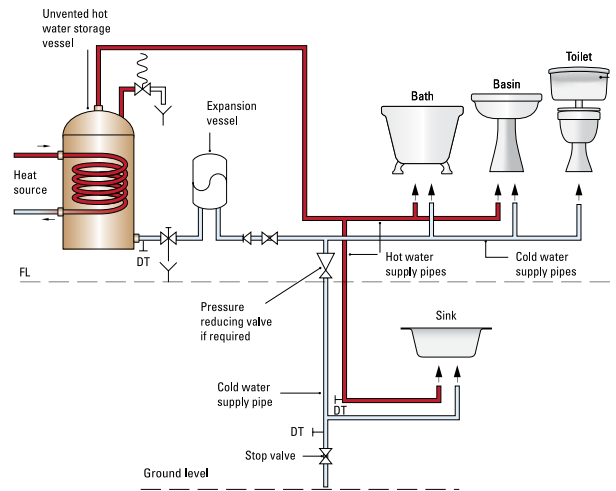

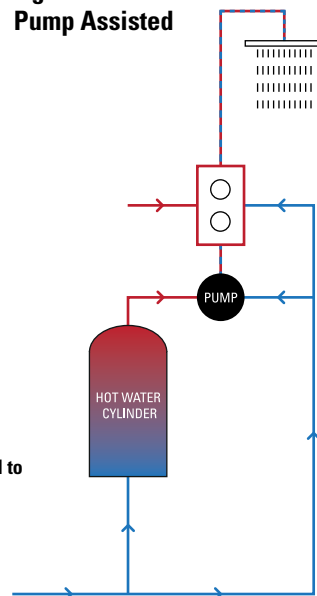

Figure 4
Pump Assisted

A pump assisted system will deliver water at high pressure and depending on the specifications of the pump fitted LP, MP and HP taps and fittings may be used.

SHOWER VALVE COMBINATIONS

To make your life easier we have four simple reference diagrams which make choosing a shower/bath/hand spray combination nice and easy

SYSTÈMES D'EAU

Pour vous aider à choisir la robinetterie la mieux adaptée à votre projet, la valeur de pression requise est indiquée sur nos produits, et ce, comme suit :

LP (faible pression) : pression minimale de 0,2 bar
 MP (moyenne pression) : pression minimale de 0,5 bar
 HP (haute pression) : pression minimale de 1,0 bar

Fig.1

L'eau froide est stockée dans une nourrice qui alimente le chauffe-eau, mais également la salle de bains en eau froide. L'eau est alimentée à faible pression. C'est la raison pour laquelle seuls des robinets LP 0,2 bar (charge hydraulique de 2 mètres) peuvent être utilisés. Si la nourrice se trouve dans les combles et que les robinets se situent au rez-de-chaussée, la pression peut être plus élevée. Il est alors possible d'utiliser des robinets MP 0,5 bar (charge hydraulique de 5 mètres). Il convient de vérifier tout cela avec votre plombier, car si vous souhaitez installer une douche à hydromassage, une pompe devra également être installée.

Figure 1
Système à basse pression standard

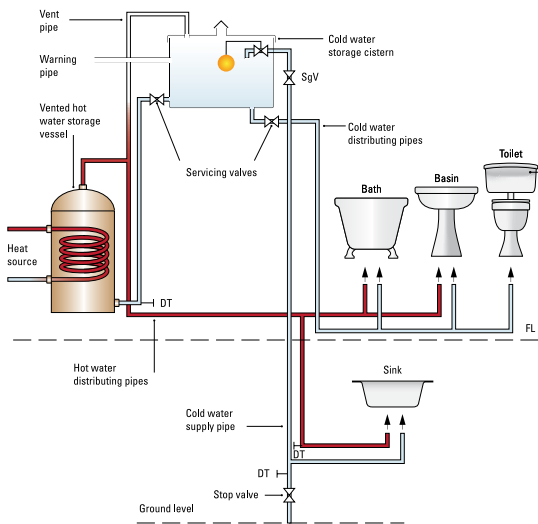

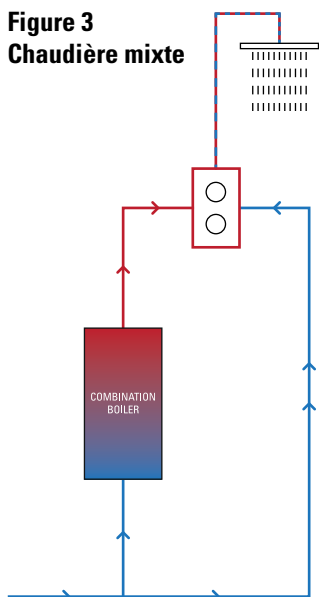

Figure 3
Chaudière mixte

Une chaudière mixte chauffe l'eau sur demande. Bien qu'elle soit alimentée par la pression du réseau, elle se règle en fonction de la vitesse à laquelle la chaudière peut chauffer l'eau.

Il est possible d'utiliser l'ensemble des raccords et robinets LP et MP.

Ces informations sont fournies à titre indicatif uniquement. Pour garantir la meilleure compatibilité possible, veuillez vous adresser à un plombier qualifié et consulter les caractéristiques des produits.

Fig.2

Le ballon non ventilé stocke l'eau chaude à la pression du réseau, généralement entre 2 et 3 bar. Cela signifie que l'eau (chaude et froide) est alimentée à la même pression. Ainsi, l'installation d'une douche à hydromassage ne requiert aucune pompe. Il est possible d'utiliser l'ensemble des raccords et robinets LP, MP et HP.

Figure 2
Système de pression non ventilé

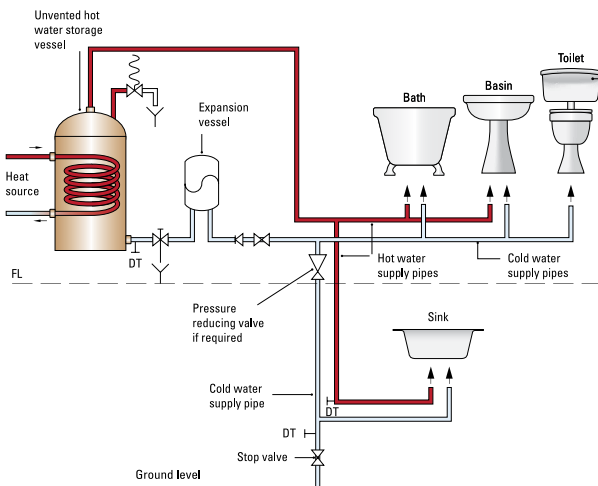

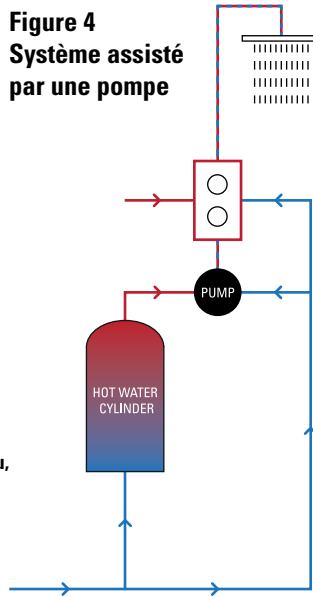

Figure 4
Système assisté par une pompe

Un système assisté par une pompe alimente l'eau à haute pression et en fonction des caractéristiques de la pompe installée, il est possible d'utiliser les raccords et robinets LP, MP et HP.

COMBINAISONS DE MITIGEURS DE DOUCHE

Dans l'objectif de vous simplifier la vie et de vous permettre de choisir facilement une combinaison pomme de douche/douchette de baignoire/douchette à main, nous avons élaboré quatre schémas de référence.

ICE MIRROR CABINETS

Stunning sleek bathroom cabinets constructed from aluminium giving any bathroom the real cutting edge. The doors are mirrored both sides and the glass shelves inside can be adjusted to suit yourself.

Des armoires aux lignes épurées, fabriquées à partir d'aluminium et qui placent la salle de bains à la pointe de l'innovation. Les portes sont dotées d'un miroir de chaque côté et les étagères intérieures en verre peuvent être réglées en fonction de vos besoins.

'we knew Ice would do well for us because of the small space it takes above basin! Plus the low running cost of LEDs are perfect for closing the sale'

Bathroom showroom
Coventry, West Mids

< Nous savions que le miroir nous conviendrait, et ce, en raison du peu de place qu'il prend au-dessus du lavabo ! En outre, le faible coût de fonctionnement de l'éclairage LED ne pouvait que valider notre choix. >

Dans un magasin de salles de bains, Coventry (West Midlands)

With a flick of a hand...
Our practical aluminium bathroom cabinets boast a sensor switch that is activated just with a wave of your hand. It also contains a shaver socket inside for your convenience.

D'un simple geste de la main...
Nos armoires en aluminium sont dotées d'un interrupteur à effleurement qui s'active d'un simple geste. Elles sont également équipées d'une prise rasoir.

AGUA MAISON

the search is over . . .

La recherche est terminée . . .

Very cool, very now.

With an automatic showering area created because of the Stetson steep sides – any 1 of these 8 baths will be a joy to use, a pleasure to clean and stunning to look at for a long time.

Très cool, très actuel.

Espace douche /// Grâce à leur système de vidage automatique, spécialement créé en raison des des baignoires Stetson, vous prendrez plaisir à utiliser, nettoyer et admirer ces baignoires, et ce, pendant des années.

Breathtaking stuff...

Agua Maison freestanding baths are an improvement on the vintage freestanding baths. With double skinned acrylic structure, our baths are a stunning piece for a real sensational bathroom

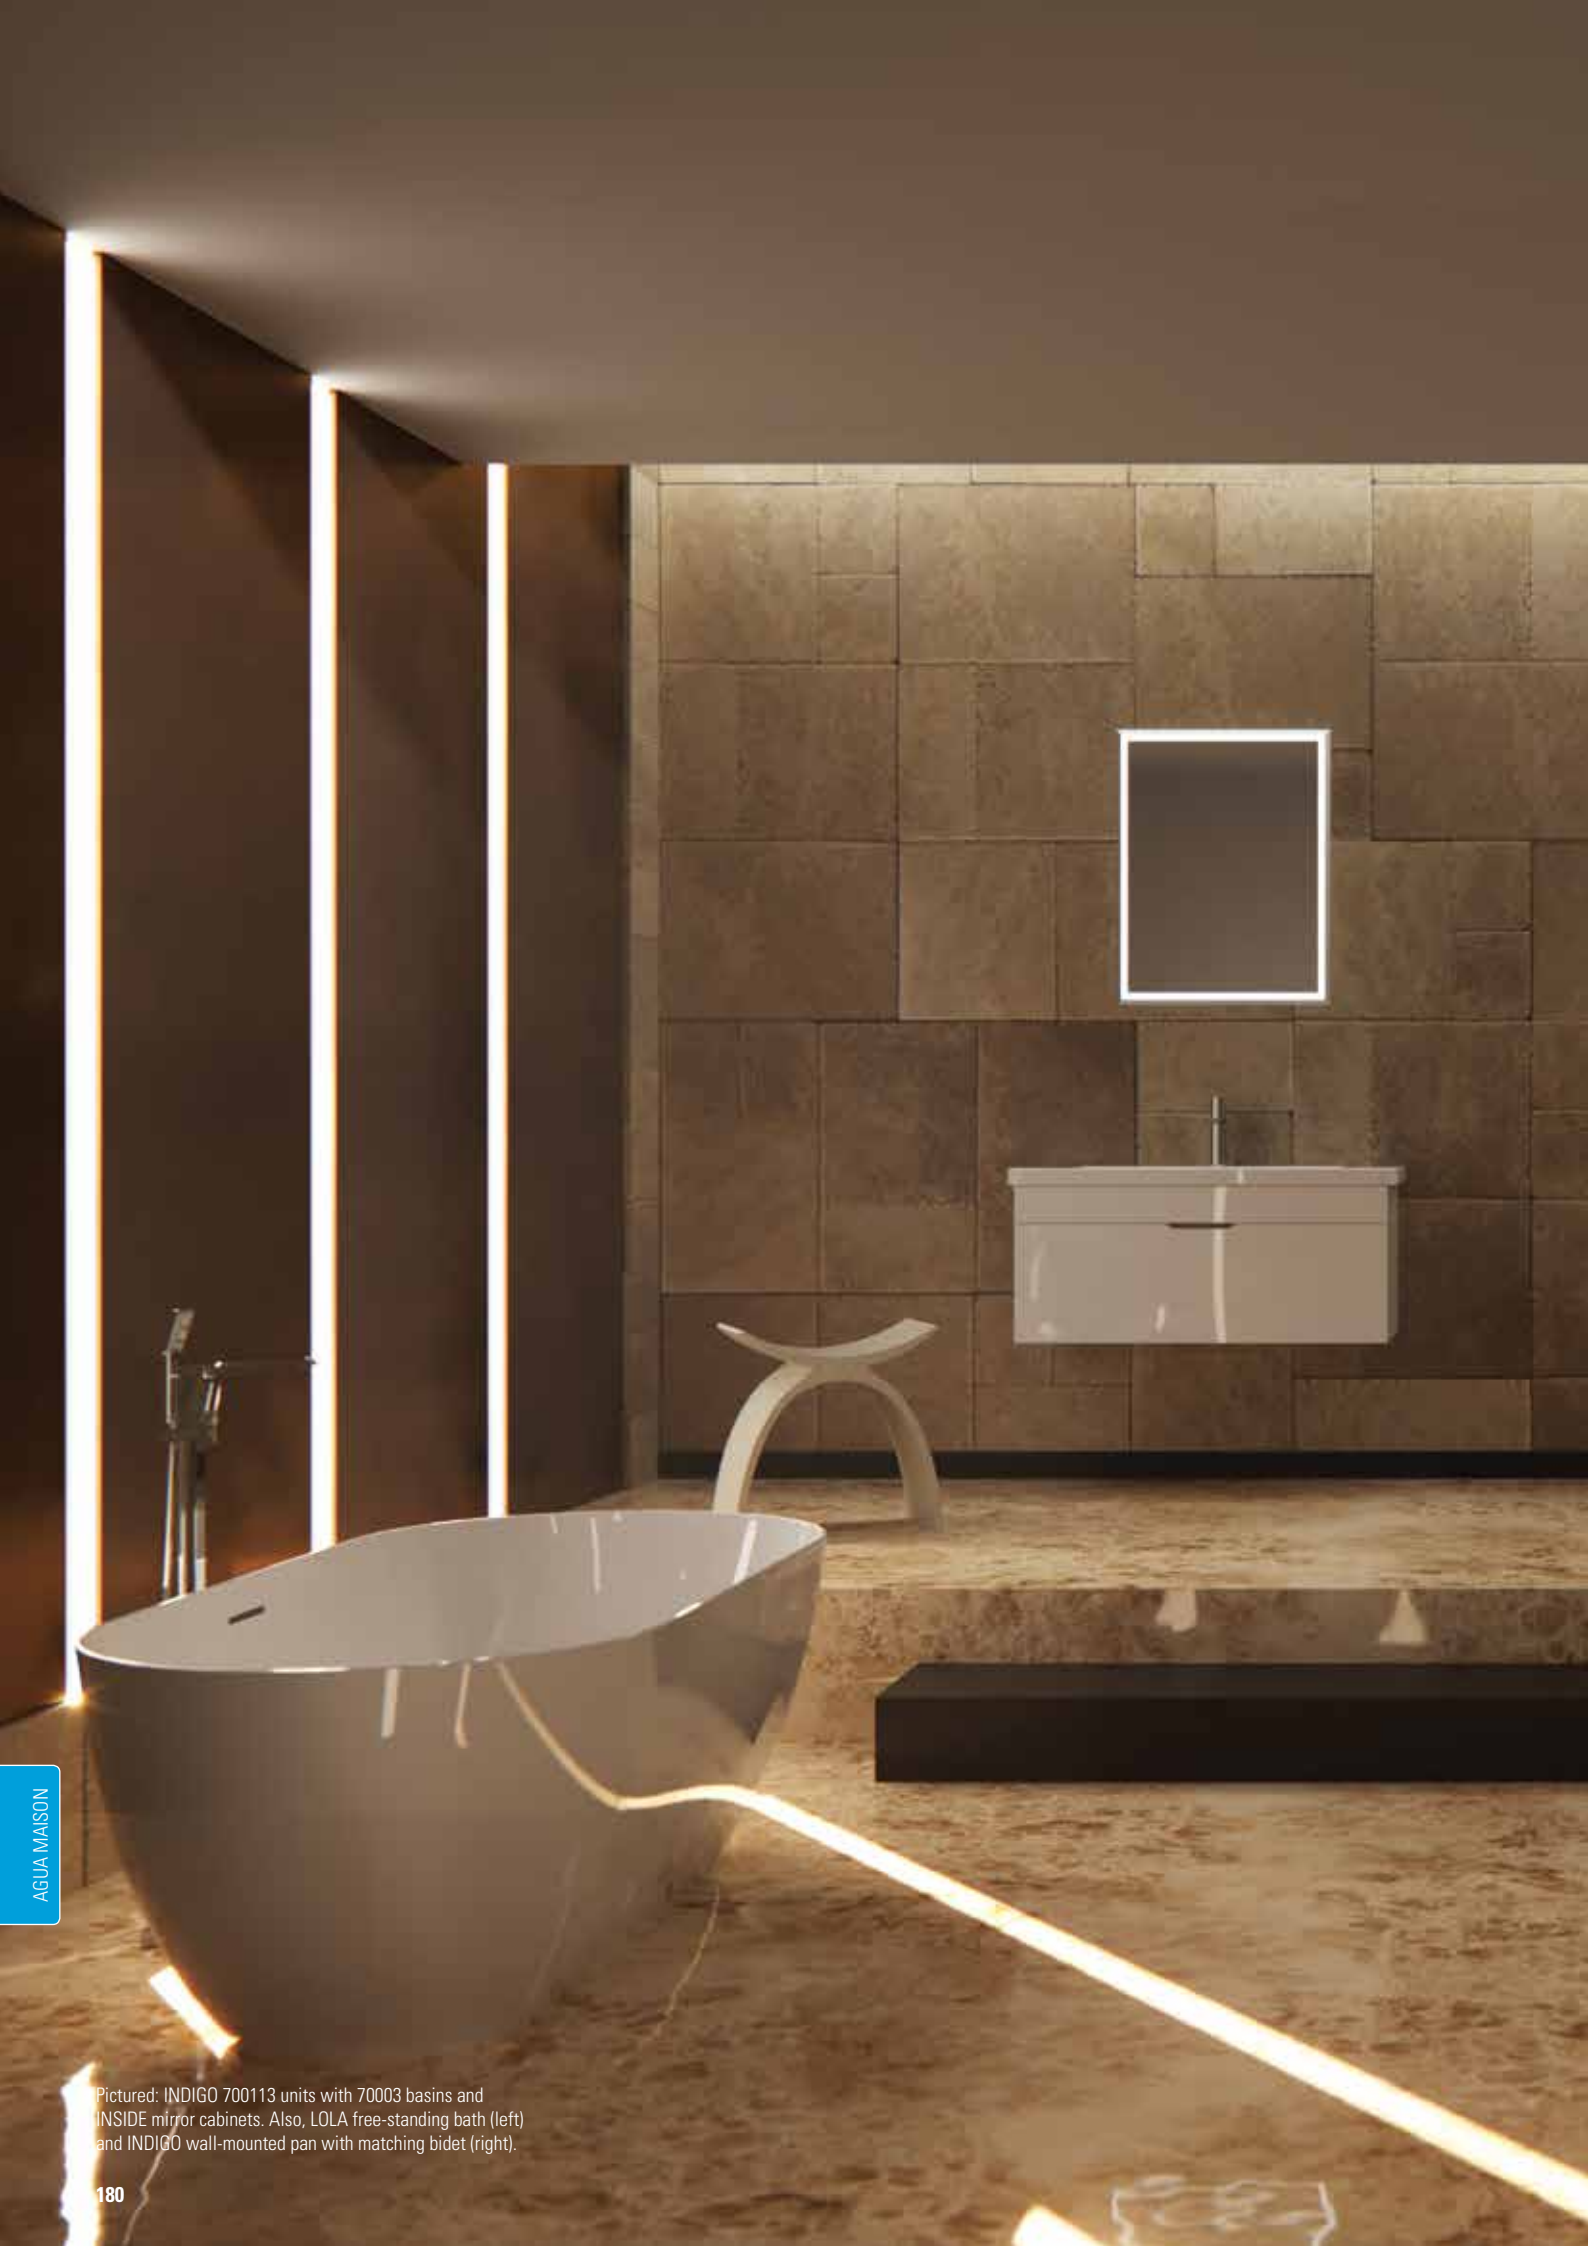

WOW!

Des produits à couper le souffle...

Les baignoires îlots Agua Maison représentent un progrès par rapport aux anciens modèles. Grâce à leur structure en acrylique renforcé, nos magnifiques baignoires sont conçues pour donner un effet sensationnel à votre salle de bains.

WOW!

Pictured: INDIGO 700113 units with 70003 basins and INSIDE mirror cabinets. Also, LOLA free-standing bath (left) and INDIGO wall-mounted pan with matching bidet (right).

CLEARSEAL . . .
the protective coating
that effectively cleans
your shower for you . . .

ENDUIT TRANSPARENT

L'enduit de protection qui nettoie efficacement votre douche pour vous . . .

CLEARSEAL COMES AS STANDARD ON EVERY SHOWER ENCLOSURE IN OUR COLLECTION

To help keep your shower enclosure looking like new, every design we offer features Clearseal technology at no extra cost.

UN ENDUIT TRANSPARENT EST APPLIQUÉ DE SÉRIE SUR TOUTES NOS PAROIS DE DOUCHE

Dans l'objectif de permettre aux parois de votre douche de conserver l'aspect du neuf, un enduit transparent est appliqué sur chacune de ces parois, et ce, sans aucun coût supplémentaire.

How does it work?

Clearseal is a micro-thin invisible coating that we apply as standard to the glass in all our shower enclosures. This innovative technology creates a surface that water and grime are unable to stick to, creating a lasting mark-free finish.

Comment cela fonctionne-t-il ?

Il s'agit d'un enduit invisible ultra-fin que nous appliquons de série sur le verre de toutes nos parois de douche. Cette technologie innovante entraîne la formation d'une surface à laquelle l'eau et la crasse ne peuvent adhérer. Les parois de douche sont ainsi exemptes de traces.

Keeps cleaner for longer

Over time, the glass panels in shower enclosures can become tarnished by a build up of limescale and soap residue from shower gels and shampoos. By preventing the adherence of these products, Clearseal's protective coating keeps glass looking cleaner for longer.

Maintient les parois plus propres, plus longtemps

Au fil du temps, le verre des parois de douche peut se ternir en raison d'une accumulation de calcaire et de résidus de savon. En empêchant ces produits d'adhérer au verre, l'enduit transparent maintient les parois plus propres, plus longtemps.

Warranty

Clearseal has been developed to be effective and durable, offering long lasting protection on every enclosure we supply. To give you added peace of mind, every Clearseal coated design is fully guaranteed for 2 years.

Garantie

L'enduit transparent a été développé dans l'objectif d'être efficace et durable, offrant ainsi une protection longue durée à chaque paroi que nous fabriquons. Chaque produit sur lequel est appliqué cet enduit transparent est garanti 2 ans. Ainsi, vous aurez l'esprit tranquille.

Environmentally friendly

Because Clearseal makes your shower enclosure effectively self-cleaning, you don't have to use chemical-based sprays and other products, making it a more environmentally friendly choice.

Écologique

Vous n'avez pas à utiliser de produits chimiques ou autres, puisque l'enduit transparent nettoie efficacement les parois de votre douche pour vous. Une caractéristique qui fait de cette solution un choix écologique.

Clearseal repels water and grime. . . L'enduit transparent éloigne l'eau et la crasse. . .

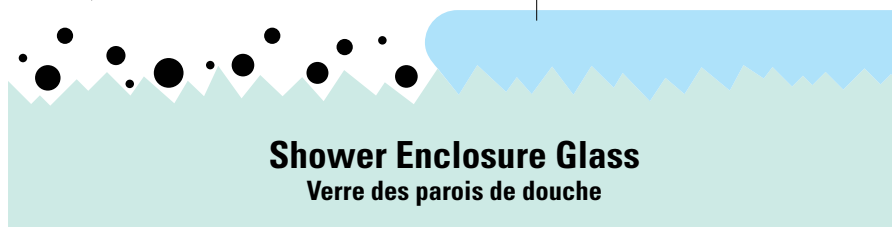

Water and grime particles cling to untreated glass

Les particules d'eau et de crasse adhèrent aux surfaces non traitées

Clearseal coating means your shower stays cleaner for longer

L'enduit transparent maintient les parois de votre douche plus propres, plus longtemps

S4404	8mm quadrant	1000	970 – 995	2000	430	£1045.41	1400.84€

Configurations

Steel Quadrants are creations of classic design - with bold frames and absolutely flawless operation. Finally, complete the look by choosing one of our H25 shower trays on page 229

A modern glass shower enclosure is shown in a bathroom with grey tiled walls and a light wood floor. The shower has a curved glass door and a fixed glass panel. A showerhead and a handheld shower wand are mounted on the wall. A towel rack with a white towel is visible on the right side of the image.

Easy peasy... a pucker shower is down to the details. That's why shower tray, screen, shower valve and shower head has to be of supreme quality. Our enclosures are made easy to install [with picture instructions] and even easier to use

WOW!

C'est simple comme bonjour... Lorsqu'il s'agit d'installer une douche d'angle (/// corner shower ?), le moindre détail a son importance. C'est la raison pour laquelle le receveur, la paroi, le mitigeur et la pomme de douche doivent être d'une qualité irréprochable. Nos parois sont faciles à installer (avec instructions illustrées) et encore plus faciles à utiliser.

WOW!

Trayed Secret – shower tray fixing kit

Trayed Secret - Kit de fixation pour receveurs de douche

Trayed Secret is a revolutionary universal fixing kit for all types of stone resin shower trays. Suitable for all our Resin shower trays. The quick and easy plumbing solution for any professional or DIY fitting application.

Le système Trayed Secret est un kit de fixation universel et révolutionnaire destiné à tous les types de receveurs de douche en résine de pierre. Ce kit est adapté à tous nos receveurs de douche en résine. Il s'agit d'une solution simple et rapide destinée à n'importe quel professionnel ou toute personne souhaitant installer un receveur.

1. Complete plumbing work area.
1. Procédez aux travaux de plomberie.

2. Fit legs to Trayed Secret system.
2. Fixez les pieds au système Trayed Secret.

3. Place the Trayed Secret system into position.
3. Placez correctement le système Trayed Secret.

4. Finish tiling and use the Trayed Secret system as a working platform.

4. Terminez de poser le carrelage et utilisez le système Trayed Secret comme plate-forme de travail.

5. Mix bedding sand and cement (included in kit) on the Trayed Secret base.

5. Mélangez le sable et le ciment (inclus dans le kit) sur la base du système Trayed Secret.

6. Fit tiling upstand kit, shower tray and removable side panel(s).

6. Installez le /// kit de rehausse, le receveur de douche et la/les paroi(s) latérale(s) amovible(s).

- Assembles in minutes, saving hours of fitting time. No need to plumb waste pipes under the floor.
- Un assemblage en quelques minutes, permettant ainsi d'économiser des heures de travail. Il n'est pas nécessaire d'installer des tuyaux d'évacuation sous le sol
- Acts as a convenient work platform and prevents damage to the tray prior to installation.
- Un système qui fait office de plate-forme de travail et évite d'endommager le receveur avant son installation.
- High quality, strong and durable. Suitable for heavy loads.
- Un système de haute qualité, solide et durable. Adapté aux charges lourdes

- Suitable for all floor surfaces.
- Un système adapté à tous les revêtements de sol.
- Provides quick and easy access to waste and plumbing after installation.
- Un système qui offre un accès simple et rapide aux tuyaux d'évacuation et à la plomberie une fois l'installation terminée
- Enables pre-plumbing of the bathroom prior to fitting the shower tray.
- Un système qui permet de pré-installer la plomberie de la salle de bains avant d'installer le receveur de douche
- Raise tray 90mm – 120mm from the floor surface.
- Un système qui permet de placer le receveur à 90-120 mm du sol.

The kit contains

Contenu du kit :

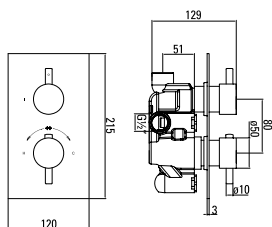

- High quality, heavy duty pre-cut plinth, incorporating all fittings.
- une plinthe prédécoupée de haute qualité et ultra-résistante, intégrant tous les raccords ;
- Fully adjustable rugged steel leg system.
- des pieds en acier robuste et réglables ;
- 50mm and 90mm waste templates.
- des /// de 50 et 90 mm ;
- Pre-formed white acrylic capped ABS panels.
- des parois ABS en acrylique de couleur blanche pré-formées ;
- Panel clip kit.
- un kit de fixation des parois ;
- Tiling 'Upstand Kit' for watertight fit around shower tray.
- un /// kit de rehausse garantissant une étanchéité autour du receveur ;
- Shower tray bedding adhesive.
- de la colle pour fixer le receveur.

All installations must comply with guidelines based on the zonal requirements.

Toutes les installations doivent être conformes aux directives définies en fonction des différentes zones de la salle de bains.

These regulations apply to domestic installations only.

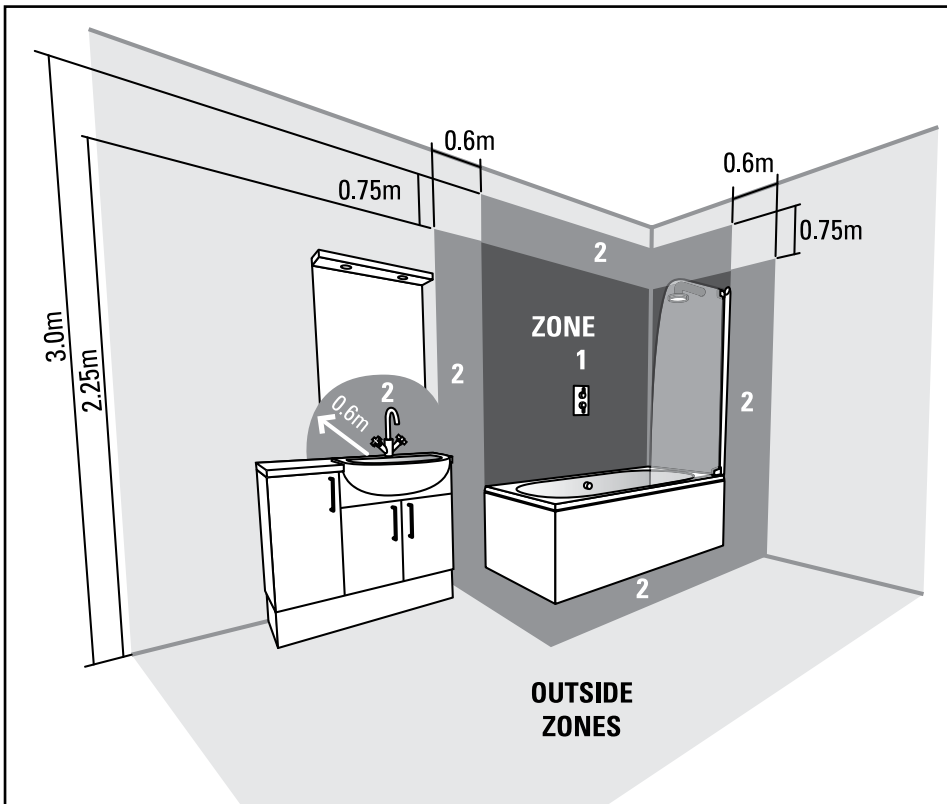

Les présentes réglementations s'appliquent uniquement aux installations domestiques.

We recommend that all electrical work carried out is done by a suitably qualified electrician with the current IEE wiring regulations (17th Edition).

Il est recommandé que les travaux électriques soient réalisés par un électricien dûment qualifié et conformément aux réglementations en matière de câblage de l'IEE (17e édition).

Bathroom lights are classified using an IP (Ingress Protection) rating. The IP characters are followed by 2 numbers which refer to the level of protection against the ingress of foreign bodies (1st number) and protection against the ingress of liquids (2nd number).

Les éclairages de salle de bains sont classés selon leur indice de protection (IP). Les lettres IP sont suivies de deux chiffres qui font référence au niveau de protection contre les intrusions de corps solides (1er chiffre) et de corps liquides (2nd chiffre).

ZONE 0 – is inside the bath or shower. Any fitting used in this zone must be low voltage (max 12v) and be rated at least voltage (max 12v) and be rated at least IP67 (immersion proof)

ZONE 0 – intérieur de la baignoire ou de la douche. Tout appareil utilisé dans cette zone doit être à basse tension (12 V maximum) et classé IP67 minimum (protection contre l'immersion).

ZONE 1 – is an area above the bath to a height of 2.25m from the floor. In this zone a minimum rating of IPX4 is required.

ZONE 1 – correspond à la zone allant jusqu'à 2,25 mètres au-dessus du fond de la baignoire ou de la douche. Dans cette zone, une classification IPX4 minimum est requise.

ZONE 2 – is an area stretching 0.6m outside the perimeter of the bath to a height of 2.25m from the floor. In this zone a minimum of IPX4 is required. Around a wash basin, a radius within 60cm is considered as zone 2.

ZONE 2 – zone qui s'étend jusqu'à 60 cm autour de la baignoire ou de la douche, jusqu'à 2,25 mètres au-dessus du fond. Dans cette zone, une classification IPX4 minimum est requise. Elle correspond également à la zone autour du lavabo, dans un rayon de 60 cm.

OUTSIDE ZONES – has no specific requirements unless water jets are likely to be used for cleaning purposes.

ZONES EXTÉRIEURES – aucune exigence spécifique, sauf s'il est prévu d'utiliser des jets d'eau dans le cadre d'un nettoyage.

ALL ZONES – any electrical circuits in a bathroom must be protected by a 30mA Residual Current Device (RCD). Electrical equipment exposed to water jets such as a shower must be at least IPX5.

ENSEMBLE DES ZONES – tout circuit électrique présent dans la salle de bains doit être protégé à l'aide d'un dispositif différentiel résiduel (DDR) de 30 mA. Les équipements électriques exposés aux jets d'eau (douche, par ex.) requièrent une classification IPX5 minimum.

REFERENCE IP RATINGS FIRST NUMBER – PROTECTION AGAINST SOLIDS

Example	0	1	2	3	4	5	6
Protection against solid foreign objects	No protection	Full Penetration of 50mm diameter sphere allowed. Contact with hazardous parts not permitted	Full Penetration of 12.5mm diameter sphere not allowed. The test finger will have ample clearance from hazardous parts	A 2.5mm diameter probe shall not penetrate	A 2.5mm diameter probe shall not penetrate	Limited ingress of dust permitted (no harmful deposit)	Totally protected against dust
Effective protection from:	Non protection	Back of hand	Finger	Tool	Cable	Cable	Cable

REFERENCE IP RATINGS SECOND NUMBER – PROTECTION AGAINST LIQUIDS

Limited ingress acceptable	Protected against strong jets of water (for use on shipdecks). Limited ingress acceptable	Protected against immersion between 15cm and 1m	Protected against long periods of immersion under pressure
Effective protection from:	Non protection	Vertical dripping	Driving rain	Limited spraying	Splashing from all directions	Hosing jets from all directions	Strong jets from all directions	Temporary immersion	Cable

TEMPUS HEATED TOWEL RAILS

SÈCHE-SERVIETTES TEMPUS

HEATED T RAILS

Very classic, very practical. The clean lines of the attractive Tempus heated towel rail look equally at home in bathrooms, kitchens, cloakrooms, and gyms. An essential addition to your requirements, your towels will be softer and drier than ever . . . The highly polished stainless steel will give long life and yield a far superior BTU output in comparison to chromed rails

Très classique et très pratique. Les lignes épurées du séduisant sèche-serviettes Tempus sont très agréables à regarder, que ce soit dans les salles de bains, les cuisines, les toilettes ou les salles de sport. Vos serviettes n'auront jamais été aussi douces et aussi sèches. . . Sa finition en acier inoxydable poli lui confère une longue durée de vie et permet d'obtenir une valeur BTU (British Thermal Unit) bien supérieure à celle des sèche-serviettes en chrome.

TEMPUS HEATED TOWEL RAILS DUAL FUEL

SÈCHE-SERVIETTES MIXTES

'I really like the fact that whatever water system I install I am safe with Tempus towel warmers – besides stainless steel has to be the best lasting material in the bathroom'

Bathroom installer
London

« J'apprécie particulièrement le fait de me sentir en sécurité avec les sèche-serviettes Tempus, et ce, quel que soit le système d'eau que j'installe. De plus, l'acier inoxydable est sans aucun doute le matériau le plus durable de la salle de bains. »

Un installateur de salles de bains, Londres London

Design for maximum efficiency, Tempus towel rails are beautifully constructed from high grade stainless steel. 10 year guarantee on all models against corrosion or leakage.

Built to last a life time.

Conçus pour une efficacité maximale, les sèche-serviettes Tempus sont fabriqués en acier inoxydable de haute qualité. L'ensemble des modèles sont garantis 10 ans contre la corrosion et les fuites.

Nos sèche-serviettes sont conçus pour durer toute une vie.

Pictured: Tempus towel rail.

Tempus Heated Towel Rails

Radiating quality for a lifetime... Tempus towel warmers are all constructed of Stainless Steel providing greater efficiency and free of corrosion over time

Un rayonnement destiné à durer toute une vie... Les sèche-serviettes Tempus sont tous fabriqués en acier inoxydable, garantissant ainsi une meilleure efficacité et empêchant toute corrosion au fil du temps.

TERMS IN BRIEF | 270

CONTACT US | 274

TERMS & CONDITIONS

CONDITIONS OF SALE

1. General

These conditions set out the legal basis upon which we will supply goods. No variation or representation will be valid unless confirmed in writing by a partner.

2. Application of Terms

2.1.1 By placing an order or accepting a quotation the Buyer shall be deemed to be making an offer to buy the goods subject to these conditions.

2.1.2 No order shall be accepted by the Company until written confirmation is issued or (if earlier) the Company delivers the goods.

2.1.3 Any quotation is given on the basis that there is no contract until the Company has accepted an order.

2.2 Quotations unless agreed in writing will be valid for 30 days provided that the Company has not previously withdrawn it.

3. Description

3.1 The quantity and description of goods shall be set out in the Company's quotation or acknowledgment of order.

3.2 All brochures, advertisements and samples are for illustrative purposes only. Dimensions are given as a guide only. Dimensions should not be used for surrounding furniture, fixtures and fittings until the product is on site.

4. Delivery

4.1.1 Delivery shall take place at the Buyer's place of business unless agreed otherwise in writing by the Company.

4.1.2 Dates for delivery are an estimate and time for delivery shall not be made of the essence unless expressly agreed in writing by the Company. If no dates are specified delivery shall be within a reasonable time.

4.2 The Company will not accept liability for any losses caused by delay in delivery.

4.3 If the Buyer fails to take delivery or the Company is unable to deliver the goods because of the fault or failure of the Buyer then:-

- (a) Any risk in the goods shall pass to the Buyer
- (b) The goods shall be deemed to have been delivered; and
- (c) The Company may store the goods at the Buyer's expense.

4.4 The Company reserves the right to deliver the goods by separate instalments.

5. Risk and Ownership

5.1 Ownership in the goods shall not pass to the Buyer until payment in full has been made. The Buyer grants to the Company an irrevocable licence to enter any premises where the goods are or may be stored in order to impact them or to recover them in the event of failure to make payment in full.

5.2 The risk in the goods for nuisance purposes shall pass to the Buyer on delivery.

6. Price

6.1 Unless agreed in writing by the Company the price shall be the price excluding V.A.T set out in the Company's price list on the date of delivery or deemed delivery.

7. Payment

7.1 Payment in cleared funds or cash shall be made on or before delivery (unless credit terms have been agreed in writing by the Company). On occasions the Company will require a Director's guarantee.

7.2 The Company reserves the right to claim interest under the late payment of commercial debts (interest Act 1998).

7.3 In the event of a customer with a credit account going into arrears, if legal action is taken to recover the debt, all amounts owing to the Company shall be deemed as payable, including any current amount.

8. Quality

8.1 The Company will not accept claims for stoppages or damaged goods unless notified within forty-eight hours of delivery. All goods should be physically checked and defects reported to the Company.

8.2 The Company shall not be liable for the cost of installing faulty goods.

8.3 The Company reserves the right to alter the specifications and product range without prior notice.

8.4 The Company will in the event that it supplies faulty goods at its own option repair, replace the goods or refund the price of the goods. If the Company elects to refund the price of the goods the goods shall be returned to the Company at the Company's request and at the Company's expense.

8.5 The Company accepts no liability in relation to goods damaged as a result of failure to follow published instructions or damage caused to the goods after delivery.

8.6 The Company's total liability in contract or tort shall be limited to the contract price. This limitation shall not apply to liability for personal injury or death, fraud or any other matter which it will be illegal for the Company to exclude or attempt to exclude.

9. Returns

Returns will be accepted within three months of delivery provided the goods (exclusions apply - see below) are returned undamaged and with full packaging. It will be subject to a handling charge dependant on condition of goods and packaging and will in any event be a minimum of 20%.

9.1 Returns for the following products will not be accepted under any circumstances:

- All shower enclosures
- All shower trays
- All baths (free-standing & non)
- WC pans with LH/RH cut-outs
- Washbasins with extra tap holes

9.2 Returns may submitted directly to returns@saneux.com providing the following is mentioned:

- Saneux Delivery Reference
- Date of Purchase
- No. of products to return
- Product codes
- Reason for Return
- Image of box in perfect condition

10. Assignment

10.1 The Company shall be entitled to assign the benefit of the contract.

10.2 The Buyer shall not be entitled to assign the benefit of contract.

PRODUCT GUARANTEE

Please refer to each product section for guarantees.

The terms of our guarantee are as follows:-

1. The guarantee only applies to products which:
 - 1.1 are installed in accordance with the fitting instructions supplied, with the products for use in a bathroom with suitable ventilation or a suitable extractor fan; and
 - 1.2 Where the product is a cistern or a tap, it is fitted in accordance with current local and national water regulations; and
 - 1.3 Where the product is a **Saneux** solid surface, it has been stored flat at normal room temperature prior to installation.
2. In the unlikely event that a product supplied by **Saneux** - to which this guarantee applies - fails within the guarantee period from the date of purchase, **Saneux** will supply the customer with a free replacement for the part of the product that has failed, if such failure arises in **Saneux's** reasonable opinion from defects in manufacture or quality of materials and notice in writing giving details of the defects about which there is a complaint given to **Saneux**. The replacement part supplied will be the nearest equivalent to the failed part available in **Saneux's** range at the date the replacement is supplied. Liability is limited to individual products and does not cover consequential loss or damage. The customer will be required to pay the cost of installation of the replacement part. Your statutory rights remain unaffected.
3. The provisions of this guarantee do not affect the customer's statutory rights.
4. The **Saneux** guarantee is limited to the original purchaser and cannot be transferred; this includes the purchasing of ex-display items.
5. To obtain replacement parts in accordance with the provisions of this guarantee please contact the retailer who originally supplied the products.
6. The guarantee only applies to products which are cared for and cleaned in accordance with **Saneux** care and maintenance instructions.

SANITARYWARE

It is the responsibility of the individual installer to ensure the products are fitted correctly and in line with the instructions provided. Failure to comply with the recommended fitting instructions will invalidate the guarantee. When installing **Saneux** wall hung sanitaryware, please ensure the appropriate fixings are used or alternatively a suitable framework.

Sanitaryware dimensions stated should be given a 5% tolerance.

There is a lifetime Guarantee on all sanitaryware products supplied by **Saneux** against manufacturing defects.

BATHROOM FURNITURE

Although designed for bathroom use, bathroom furniture will deteriorate through excessive water spillage, splashing or condensation. Claims cannot be accepted if we regard the furniture to have had improper use. It is advised that all bathrooms are well ventilated using a suitable extraction fan. Furniture must be wiped dry after contact with water.

There is a five year Guarantee on bathroom furniture subject to our furniture care and maintenance guidelines.

CABINET FINISHES AND VENEERED FURNITURE

We cannot guarantee an exact colour match for cabinet finishes due to colour variations incurred as a result from print process. All cabinet finishes reproduced in this brochure should be used as a guide only.

When installing **Saneux** bathroom furniture into a new property or extension we strongly advise the building is dry, well ventilated and adequately heated.

In the production of **Saneux** bathroom furniture, great care is taken in the selection of material. However, due to the manufacturing process, it is not possible, nor do we feel desirable, to strive for total uniformity of shading and grain pattern. Our aim is at all times to operate with controlled parameters which recognize that some variation is both acceptable and aesthetically pleasing. There is a 5 year guarantee on all **Saneux** bathroom furniture against manufacturing defects.

ELECTRICAL PRODUCTS

Please refer to our bathroom regulations for electrical products.

If in any doubt, please consult a qualified electrician for more details.

BATHS

All baths are supplied undrilled.

All baths are manufactured from high quality 5mm cell cast acrylic and are fully reinforced.

There is a five year guarantee on all baths supplied by **Saneux** against manufacturing defects. Any defects must be reported prior to installation commencing.

SHOWER SCREENS

There is a five year guarantee on shower screens supplied by **Saneux** against manufacturing defects.

CONCEALED CISTERNS

There is a two year guarantee on concealed cisterns supplied by **Saneux** against manufacturing defects. It is the responsibility of the individual installer to ensure that these products are fitted correctly and in line with the instructions provided. Failure to comply with the recommended fitting instructions will invalidate the guarantee.

BRASSWARE AND ACCESSORIES

All **Saneux** products, unless otherwise stated carry a 15 year guarantee, which covers all manufacturing defaults.

This guarantee does not cover damage during fitting, misuse or inappropriate cleaning, shower hoses, or cartridges as these are guaranteed for 1 year. Care should be taken in hard water areas to ensure the cartridge is regularly cleaned.

*All products carry a 15 year guarantee (with exception of shower hoses and cartridges which carry a 12 month guarantee).

WORKING PARTS AND COMPONENTS

There is a two year guarantee on all working parts and components supplied with any **Saneux** product, as long as installation has been carried out correctly.

Working parts of all toilet seats are limited to a 12 month warranty period.

SAFETY INSTRUCTIONS FOR CERAMIC SANITARYWARE

To ensure a safe and correct installation, please read the instructions carefully:

- Installation and fixing of the ceramic sanitary ware and accessories to be done by a skilled and trained professional.
- Before installation kindly check the sanitary ware for any damages. If found damaged the product can:
 - Cause injury to the user
 - Result in water leakage
 - Affect the product feature
- Ceramic sanitary ware is fragile. Handling and installation should be done very carefully.
- Avoid jerks and bumps during installation.
- Check the location of mounting and fitting holes before installation. Kindly refer to the instructions specified in the installation manual.
- Installation of sanitary ware should be in horizontal position. Kindly verify with spirit level before use.
- During installation and before connecting to the water supply kindly flush and clean all the outlet and inlet pipes for sand, rubble and trash particles.
- After installation we strongly recommend that the sanitary ware should be securely covered to prevent contamination or damage by any form of building materials such as paint, plaster, tile adhesive, grout or sealants until all building and finishing work is completed.
- After installation kindly check for the grip of the ceramic sanitary ware on the mounted surface to prevent injuries. If the fittings are found loose the product can:
 - Fall down and cause injury to user.
 - Result in water leakage.
- Maximum weight resistance and stability for:
 - Wash Basins – NOT MORE THAN 150 KILOGRAMS
 - Water Closets – NOT MORE THAN 400 KILOGRAMS
 - Bidets – NOT MORE THAN 400 KILOGRAMS

GUIDELINES FOR USE OF CERAMIC SANITARYWARE

To ensure the longevity of the product, kindly follow the instructions carefully:

- Flush the piping with plenty of water prior to installation. It is recommended to use filter taps
- We recommend the use of soft water for all products. If necessary install a water softener
- Do not clean the products with concentrated acids (HCL, HFA, H₂SO₄).
- Do not use sharp edges/iron brush for cleaning.
- After use all products should be maintained by wiping with a soft, damp clean cloth
- Do not expose the ceramic to fire
- Avoid physical and thermal shock during use

We have a policy of continuous improvement and reserve the right to change the specification without notice.

CARE INSTRUCTIONS

Limescale cleaner can be used if necessary, however it should not be used for everyday cleaning and it should not come into contact with metal parts.

Sanitaryware

All ceramic surfaces – washbasin (not unit), WC Pan and seat should be washed with a mild household detergent and warm water. Limescale and other deposits should not be treated with an abrasive remover.

Brassware / Chrome surfaces

Tap, bath waste, shower rail, shower valve and flush plate. Again, these should be washed with a mild household detergent. These can be polished using a non-abrasive buffing cloth. Do not leave the detergent on the products for any period of time.

In order to preserve the original look of your mixers, it is necessary to observe the following instructions for care:

To remove dirt and lime scale stains clean the mixers with water and soap or specific products for chrome-plated surfaces and rinse with clean water and dry with a soft cloth.

Avoid using detergents or acids, rough sponges or steel wool on chrome-plated, coloured, gold-plated or burnished surfaces.

For the plastic or rubber parts do not clean with alcoholic, disinfectant detergents or any solvents, but follow the same procedure as for the mixer body.

Under basin furniture

This should be wiped clean with a soft clean cloth. After use and contact with water, please remove water deposits.

Usage:

Please note; our furniture cannot be used in wet rooms or rooms with minimal ventilation. Our furniture should only be used in clean dry environments at room temperature. It should also be situated away from sources of heat and sunlight. Exposure to these sources will cause the vinyl to crack and peel. Therefore this is not covered in our product guarantee.

Cleaning:

Do not use abrasive cleaners, solvents, polishes, waxes or steam cleaning tools. As a precaution to test the suitability of a cleaning product, apply to an inconspicuous area, minimising the time of exposure and the amount of cleaning agent (diluting as recommended by the supplier) in order to prevent any damage to the surface.

Baths

These should be washed with a mild household detergent and warm water. Limescale and other deposits should not be treated with an abrasive remover.
