SANCTUARY**

At the heart of Roman is the desire to be the best. It is Roman's vision to lead and innovate in the Showering industry. To design and manufacture top quality inspirational showering solutions, which offers choice for all markets. To expertly manufacture our products in Britain, so they are designed and built to last and offer a lifetime of effortless showering for all. It is our aim to give all our customers exceptional value and service; this ethos runs throughout the culture of the business and cannot be imitated.

Who we are

Roman has been designing and manufacturing showering solutions for over 31 years, and is home to the UK's largest shower manufacturing plant. All Roman products are designed and created in Britain, offering the ultimate in quality, precision and craftsmanship. Roman's diverse and versatile collection of products encompasses something for every style and shape bathroom - no matter what the budget.

Products Designed for All

Innovation and exceptional product design differentiates Roman from the competition. Our products are carefully designed for all. We consider different users' needs to give totally effortless entry to the entire family. Whether you would like door-less entry, level access, handles that can be used with a flat hand, or a wider aperture, we have something that will work with your space all finished with a stylish designer look.

Glass

All our enclosures feature toughened safety glass. This is a heat treatment to increase the glass strength to make it around 5 times stronger than normal glass. If the glass were to break due to impact, it would shatter into lots of small pieces which are much less dangerous and will help you avoid any cuts or injury. All glass is strictly tested in accordance with EN14428.

Highest Quality Materials

Roman only use the finest quality of materials to guarantee unsurpassed quality and certainty in our manufacturing process, ensuring all of our products reach exceptional levels of style and performance. We carefully fabricate and anodise all our aluminium profiles. We use aluminium because it is; light, strong and requires minimal maintenance. The anodising process increases corrosion resistance, product durability and further enhances the material properties. Our specialist anodising offers a bright chrome like finish which is significantly in excess of standard aluminium finishing.

Branding

Roman is a reputable and well established UK Brand, now supplying showering products all over the World. Our foundations are strongly rooted in; innovative design, manufacture, quality and customer service. Roman has achieved the leading position in the Market place by consistent and creative product innovation and has produced growth across all UK Market sectors and strong growth in International Markets. Our products are used in some of the finest hotels Worldwide.

Customer Service

Roman has an in-house customer support network, who are there to offer advice and support for each purchase at every stage; from initial enquiry through to after sales care advice. Roman employs over 20 full time members of staff in our Customer Support Centre and over 40 Technical Service Representatives nationwide who all receive comprehensive training on the manufacture and installation of Roman's collection of products.

Award Winning Product Design & Innovation

Innovation and exceptional product design differentiates Roman from the competition. Our products and ranges have won multiple awards. We have been identified as one of London Stock Exchange's 1000 Companies to Inspire Britain. We are extremely proud to be recognised as one of the UK's fastest growing and most dynamic small and medium sized businesses.

Buy with confidence

All Roman products are designed and created specifically for the UK showering market, offering the ultimate in quality, precision and craftsmanship. All Roman's manufacturing processes are carried out at our UK Manufacturing Plant and Headquarters and meet and exceed approved UK and European testing standards.

For complete peace of mind, all Roman Shower Enclosures and Bath Screens are accompanied by a fully service backed Truelife Lifetime Guarantee.

For project applications Roman products are available as a BIM file download from:
www.roman-showers/available-downloads.com

We work with a wide range of Pod manufacturers on four continents.

Glass Protection

All Roman's enclosures and bath screens are pre-coated with Roman Ultra Care, our own unique glass protection system. (For full details see page 147)

Introduction to door styles

Quadrant

The Quadrant shaped enclosure will sit beautifully in the corner of your bathroom, making it an ideal solution for the smaller bathroom. It incorporates unobtrusive sliding doors.

Sliding Door

The sliding door action offers wide and easy access, with no protrusion into the bathroom or showering area.

Neo-Angle

This flexible design allows for inward or outward opening door entry. It presents a unique footprint, to work around existing fixtures and fittings.

Bi-Fold Door

Inward opening door presents a flexible space saving solution. Avoids existing fixtures and fittings in the bathroom area.

Pivot and In-Swing Doors

Outward opening door, takes up minimal external space due to the positioning of the hinge point, meaning it protrudes less into the bathroom space.

Hinged Door

Smooth outward opening door, featuring soft self-close hinges for a superior finish.

For Wetroom Panel styles see pages 30-38 and 102-112

Decem^x

Frameless Collection

Latin for 10, the Decem 10mm thick glass range is the ultimate in showering design. We have combined everything we have learnt about showering over the last 31 years to create this unparalleled range, which for the first time presents a series of design options for selected products.

The Decem range has been meticulously designed and engineered by our Roman Design experts. Components of the highest quality have been brought together. With 10mm thick toughened glass. Chromed Brass Hardware. Minimalist framing for a design perspective. Standing majestically at a height of 2000mm. Hardware and handle options available so you can create your desired effect. Ultra-Care Glass Protection Pre-coating included as standard. All combined to create a stunningly visual range with is guaranteed for life.

- Sliding Door Enclosures
- Hinged Door Enclosures
- Neo-Angle Enclosures
- Walk-ins
 - Expressions – Open Plan Showering
 - Hinged Bath Screen

10mm Decem^x

Decem^x

Bracing

An optional chromed brass bracing arm is supplied as standard with many of our products, to give additional support if required. The bracing arm has been intricately designed to sit discreetly on the product, offering a minimalist finish, whilst providing maximum support. Total height including bracing is 2030mm.

Water Safe System

Our unique Water Safe System has been engineered to offer the maximum water integrity available for a minimalist designed enclosure. The system will guide the water back into your showering area, to enhance performance. It creates a water barrier to eliminate this as a traditional weak spot.

Hinges and Handle

Self-closing hinges offer a superior action and create a positive seal for the door. Made from chromed brass components to give a quality finish and long lasting performance. Choose between curved or square hardware to suit your taste.

Our chromed brass handle is available in a curved or square finish to suit your taste. The feature handle looks stylish, whilst being suitable for all users. It can be operated with a flat hand for easy opening.

Printed Glass Technology

Introducing our digitally printed glass wetroom panels, featuring three design options: Distressed Brick; Glass Block; and a Rainforest image. This is a technology breakthrough, which has been achieved by collaboration of technologies with digital print specialists Dimax.

Detailing

To ensure the Decem^x range is sublime, our Design team focussed in on the detail. From the enhanced product adjustment, to our Water Safe System. From the chromed brass branding badge, to the 10mm thick toughened glass. From the pre-coated glass protection, to the increased glass height of 2000mm. We have selected the best materials to craft exceptional components, to offer a superior showering experience.

1200 Alcove Fitting

- Door DXT12AL (left hand)
- Grey Shimmer Infinity Shower Tray IAG129G

Decem^x Expressions

Contemporary open plan showering

10mm

Expressions encompasses a collection of opulent open plan showering options, which stand at 2000mm high with luxury 10mm thick glass. The glass panels offer the option of either a minimalist concealed fix wall profile or a contemporary exposed fix wall profile. They can be accompanied with a fixed deflector panel to increase water integrity and can be installed onto a low level shower tray or straight to floor.

Printed glass technology

In the collection there are also different glass options available including clear or printed glass, using a printed glass technology exclusive to Roman. These panels are supplied with the exposed wall profile and optional brace bar.

A significant innovation in digital glass printing on glass panels – it is an exclusive technology to Roman.

This breakthrough has been achieved due to a collaboration of technologies with digital print specialists Dimax.

Unlike all current printed glass this new technology allows any images to be printed directly on to the glass, whilst all other areas of the glass remain transparent and crystal clear. The colours are directly printed on to the glass; this is done with a specific thermo-procedure.

This unique digital printing process also provides the option of a Satinato finish, which was not digitally possible before. Roman can control the colour and level of opaqueness desired on the glass design.

Importantly this exclusive digital glass printing is both water resistant and protected against abrasion, which makes it ideal to use in the bathroom.

Decem Expressions with three glass design options – Distressed Brick; Glass Block; and a Rainforest image which all carry a lifetime guarantee.

1200 Corner Panel with with Return Panel

Project Applications

Roman has initially launched Decem^x Expressions printed panels with three glass design options - Glass Block; Rainforest and Distressed Brick. Whilst these three are on 'trend' and designated for the higher end of the interior design led retail bathroom market, the process lends itself perfectly for the Project market. Designers can now easily link up other design themes through a Project directly onto a larger and visible position within the bathroom via the glass and there are no restrictions on colour or resolution.

Liber8

Frameless Hinged Collection

The Liber8 Collection is freed from the shackles of traditional bathroom design, with its ultra-modern and minimalist focus.

This exceptional selection of frameless hinged door products presents an array of sizes and configurations to fit in with most bathroom layouts.

The striking minimalist look is captured with options such as door hinged straight from wall with clear seals.

The hinged door or in-line panel can be tailored to suit your specific bathroom layout. It can be installed to open outwards into the bathroom or inwards into the enclosure itself.

This modern collection features a unique wall profile sealing tape system technology, to increase water integrity, whilst also keeping with the minimalist design.

This leading collection of design led shower enclosures is perfectly completed with frame finish options of bright silver chrome, brushed nickel or matt black finish on all components.

New launch in 2017

Innov8

Frameless Pivoting Collection

The Innov8 Collection encompasses elegantly minimalist frameless Pivot Door Enclosures. These frameless enclosures lead the way in minimal, inclusive and stylish design trends, presenting a distinctively modern collection.

Innov8's outstanding differential is the low threshold (reduced height of the bottom rail), allowing level entry access into the shower enclosure.

The elimination of the top rail and profiles (when configured with a side or in-line panel) and the low threshold, encapsulates the minimalist styling, whilst still retaining the water integrity and adjustments of a 'standard' shower enclosure.

Inclusive design is a leading feature in this collection with its level access, elimination of the top rail, which offers flexibility with no height restrictions and a contemporary ergonomic handle.

Different configurations and sizes can be achieved with this collection and the pivot door can be installed to open inwards or outwards.

Innov8

8mm

Pivot Door

A minimalist design with its frameless look presenting inclusivity for all users with its low threshold. Various sizes and configurations are available and the pivot door can be installed to open inwards or outwards, depending on the bathroom space and existing furniture. There is no top rail on the Innov8 Enclosures, which offers the flexibility of no height restriction. Finishing touches include the subtle bright silver frame and stylish handle.

Pivot Door with In-Line Panel

This frameless Pivot Door with In-Line Panel introduces a distinctive minimalist look, inclusive design and supreme functionality. The contemporary enclosure incorporates a low threshold for effortless level access, providing inclusivity for all users. There are no height restrictions for the user with this enclosure as the top rail has been eliminated. Depending on your preference and bathroom layout, the hinged door can be installed to open inwards or outwards.

Lumin8

Semi-Frameless Collection

This compelling and contemporary collection of showering solutions meets all your requirements, whilst bringing an inviting touch of luxury into your bathroom and helping to illuminate your showering experience.

Meticulously designed to solve a variety of space restrictions in the bathroom, whilst providing an effortless showering experience for the whole family. A collection of intricately designed power shower approved bath screens and walk-in enclosures. The diversity of designs and sizes available provides something for every bathroom.

Detail is fundamental with the Lumin8 range to create a unique style with the highest quality. From the individual 'wrap around' chromed top caps, to the robust 8mm thick glass. From the pre-coated glass protection, to the elegant height of 1950mm. From the clear, low profile seals, to the bright silver profiles for a modern finish. Smooth running 'quick release' roller bearings provide easy access cleaning.

We have handpicked the finest materials to craft exceptional products, to provide an exclusive showering experience.

- 1950mm high
- Chromed brass handle
- Bright silver frame
- 'Minimal' low profile seals
- Smooth running 'quick release' roller bearings
- 25mm vertical adjustment in each profile
- Chrome top caps
- Tray Compatibility: Suitable for dedicated tray or straight to floor using Roman Shield Wetroom System

Bow Fronted Quadrant

The cleverly shaped Lumin8 Bow Fronted Quadrant will make the most out of your available bathroom space. The sliding door avoids obstruction into the bathroom space and into the showering space, making it ideal for smaller bathrooms. The clever sizing of the DQT3 tray takes up minimal wall space but delivers a showering area of 1200mm x 1000mm.

Inswing Door

This cleverly designed Inswing door features a large opening without significant protrusion into the bathroom space. The unique opening mechanism allows for existing bathroom fixtures and fittings. The stylish look is completed with a bright silver frame, chromed brass machined components (including soft close mechanism) and an elegant feature handle. The 1200mm option eliminates the need for a separate in-line panel as an integrated frameless panel is included.

- 25mm vertical adjustment
- Chrome top caps
- Tray Compatibility: Suitable for dedicated tray or straight to floor using Roman Shield Wetroom System

1700mm Colossus

The Lumin8 Colossus presents a bath replacement enclosure, which occupies the same wall dimensions as a standard UK bath. Its curvaceous nature bows out to create a spacious and indulgent showering space. It imitates a wetroom in its styling, whilst providing more enclosed showering which is preferred in the UK bathroom.

1700mm Colossus with 1 Side Panel V8CG13S. Shower Tray FC1R. Shower Basket RSB01.

Colossus with Return Panel V8CGM13S.

Wave Walk-in

Create a true style statement in your bathroom with our beautiful Lumin8 Curved Walk-in. The curvaceous nature of the Walk-in presents a luxuriously large showering area – and the curved glass which helps to create improved water integrity cleverly stows inside its own curve when not in use. A frameless wetroom panel option is available if used in a corner situation.

- Magnetic door closing
- PVC vertical seals
- Reversible for left or right hand fixing
- Reduced opening into room due to hinge position
- Outward opening doors must be hinged from the wall
- Tray compatibility: Tray or straight to floor using Roman Shield Wetroom System

Pivot Door

The Embrace Pivot Door is a stunning addition to any bathroom, and takes up less external space when opened. It is an ideal space saving solution as it allows for the close positioning of other bathroom furniture, due to the positioning of the hinge point, meaning it protrudes less into the bathroom.

* For use with Bi-Fold and Pivot Doors. N.B. Additional bracing maybe required for certain installations.

9mm

Trapezium

This ultimate space saving enclosure has been designed to overcome the most common UK bathroom problem; restrictions presented by a window, door position, or other bathroom furniture. The angled design and unique footprint uses the space economically to work around existing fittings, whilst only taking up space on a single wall. It also incorporates an inward opening Bi-Fold Door.

Features and Benefits:

- 6mm glass door 8mm glass Side Panels
- Height: 1900mm
- Frame: Silver
- Vertical adjustment: 25mm each profile
- Adjustment: 17mm in each profile:
- Tray compatibility: LAT1 left or right handing
- Enclosure reversible for left or right hand fixing
- Dimensions: 1180 x 780mm:
760mm Door
900mm Angled Panel

Collage

Affordable showering with uncompromised quality

Framed Collection

Our Collage collection delivers a sense of subtle luxury to your bathroom, encompassing a shower concept to meet all your requirements - without compromising on quality. Innovative and affordable product designs meet contemporary and minimal styling, but with the lifetime guarantee you would expect from Roman. This incredibly versatile collection comprises functional and practical wetroom panels, inward opening bi-fold and sliding doors, outward opening hinged and pivot doors, and over the bath showering solutions.

Specifications:

- All enclosures in the range are fully approved for use with power showers - for bath screens please see each product specification.
- Models that feature handle entry, present an elegant ergonomic bolt through handle which can be operated from inside and outside the unit.
- All Collage enclosures and bath screens are supplied pre-coated with Roman Ultra Care - to aid glass protection from day one.

Sliding Door & Corner Entry

The Collage Sliding Door and Corner Entry are ideal for any style bathroom. The sliding doors are perfect for confined or awkward spaces as they do not protrude out into the bathroom. Cushioned magnetic seals eliminate noise when closing the door(s). Available with polished silver or white frame.

Features and Benefits:

- 4mm glass
- Height: 1830mm
- Sliding Door frame: Silver or white
- Corner Entry frame: Silver
- Reversible for left or right hand fixing
- Fully framed door(s), with cushioned magnetic seal
- Full length handle on inside and outside of enclosures
- Tray compatibility: Tray or straight to floor using Roman Shield Wetroom System

Collage

Roman Shield Wetroom System

Installing a Wetroom

Wetroom shower panels are a more open alternative to a shower enclosure, which usually consist of just one glass panel. This can either be positioned in a corner or on a straight wall. Wetroom panels can be installed onto a shower tray, or installed straight down to floor. When wetroom panels are installed on to a low level shower tray it simulates a wetroom look, it removes the traditional step up into the showering area and offers level access entry. When installing straight to floor, your floor and walls must be waterproof (tanked). You can use a system such as our Roman Shield to tank your space, which includes everything you need to tank a room, including complete wetroom kits to make the process easy.

The Roman Wetroom Collection offers a variety of heights, shapes, glass thicknesses and price points – with a multitude of design options to choose from.

10 & 8 mm Wetrooms

Select Wetroom Solutions

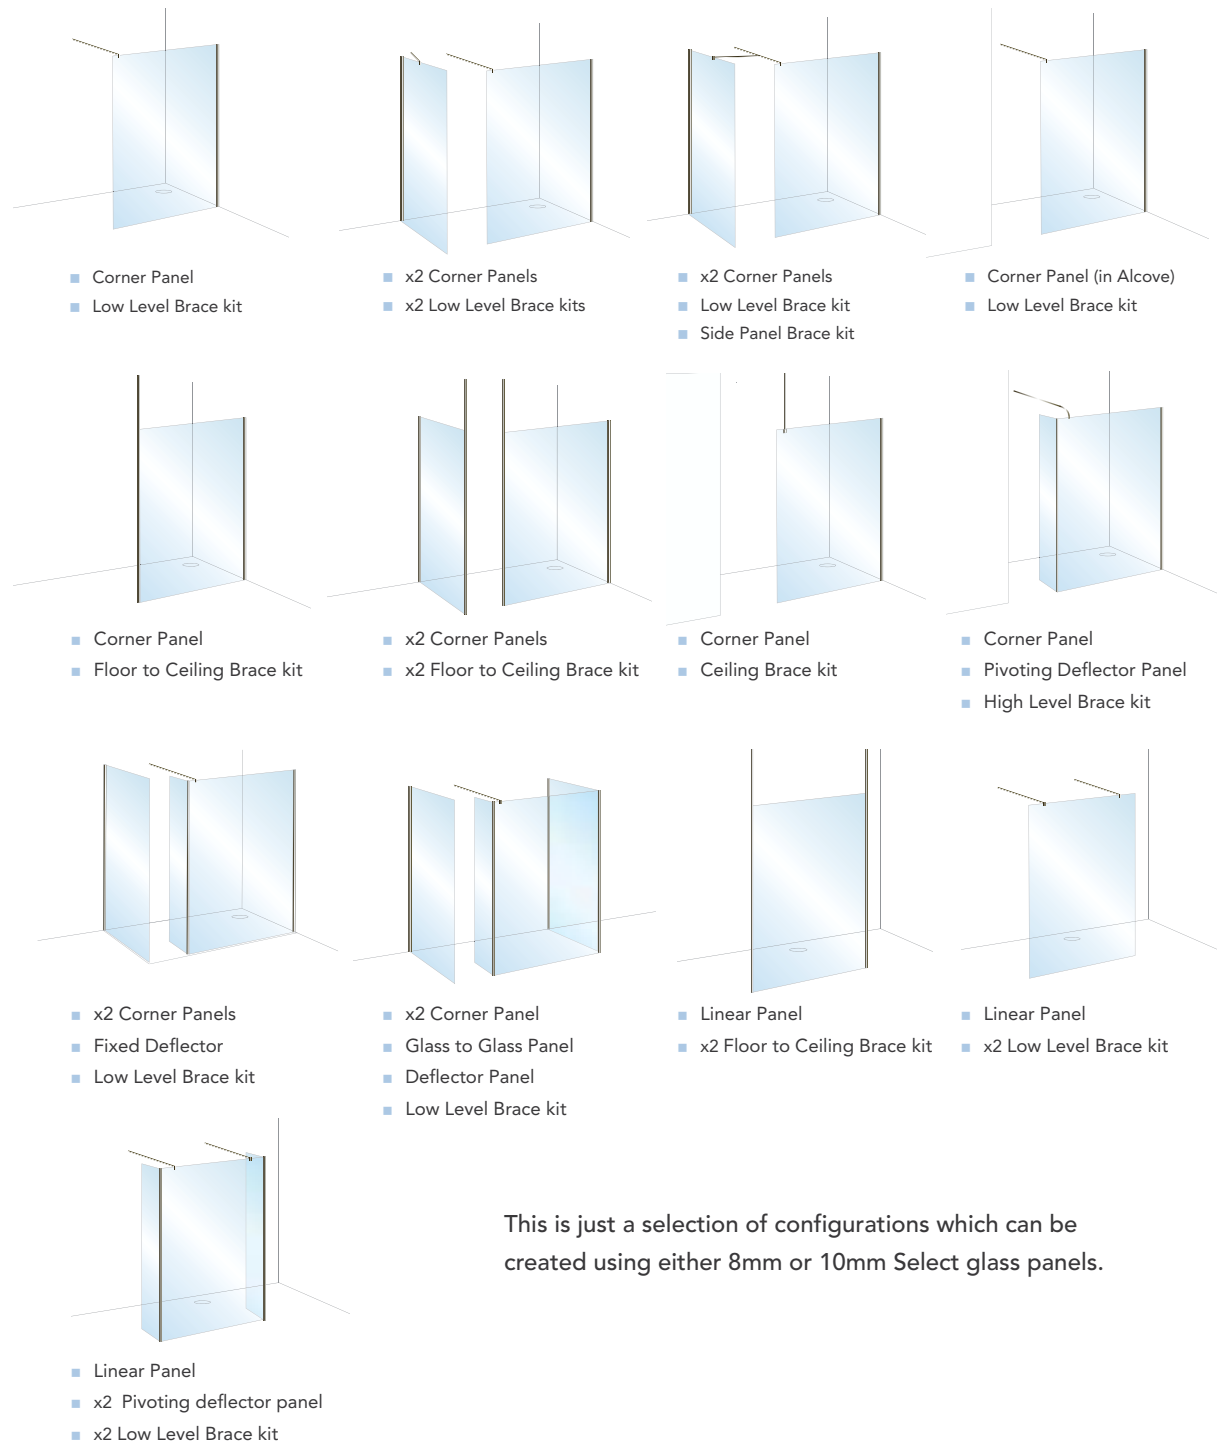

The perfect way to create a wetroom -
tailored to your own style

Roman's Select Collection features our Wetroom Panel options, which can be fitted to our low level shower trays or straight to floor to create a true wetroom. We present a number of panel sizes and options, to help you create your perfect bathroom sanctuary. Included are the various configurations that are available to suit you and your bathroom. All Panels are 2000mm high and available in either 8mm glass thickness or 10mm glass thickness.

Selecting your configuration

Select the size of panel you require in either 8 or 10mm glass thickness; select your configuration; select between a fixed or pivoting deflector panel; and select your desired bracing bars.

please see pages 104 - 106 for more information

This is just a selection of configurations which can be created using either 8mm or 10mm Select glass panels.

Brace Bars

Roman provides a number of different styles of bracing bars, which can be used with 8mm and 10mm glass thicknesses. We offer all configurations that may be required and they can be cut and trimmed to the size required during installation to allow maximum flexibility and use of space. Bracing kits are used to provide added support for the glass and ensure that it is securely fitted in place.

Our bracing bars range from Ceiling Bracing Kits to 45 Degree Angle Bracing Kits and from Curved Bracing Kits to Floor to Ceiling Bracing Kits. We have something to suit the enclosure style, your bathroom area and your preference, to present the highest level of stability.

Key:

1. Low Level Brace Kit *
2. Side Panel Brace Kit (for use with LBBK4590*)
3. Ceiling Brace Kit
4. Floor to Ceiling Brace Kit
5. High Level Brace Kit

Description	Code	Size (mm) Max	Adjustments (mm) Min	For use with Glass Thickness	£ ex vat	£ inc vat
Low Level Brace Kit*	LBBK4590	1030	Cut to suit	6mm / 8mm / 10mm	£82.87	£99.44

ROMAN SHIELD

Pre-formed Shower Floor

Easy to install

European Technical Approval ETA - 0910200

Constructing a Wetroom

Roman presents the all in one wetroom solution with Roman Shield. The Roman Shield Wetroom System includes everything you need to tank a room, including complete wetroom kits to make the process easy. We have a range of kits to choose from including those which contain our Pre-formed Shower Floor. The Solid Surface Shower Floor is designed to be installed onto your joist and then tanked and tiled over – it creates a natural fall towards the waste so you don't need to use a levelling compound, and it also gives the added reassurance of a tray beneath the tanking system, for total water integrity. To view our guide on how to install a wetroom visit: www.roman-showers.com and watch our step-by-step video installation guide.

Wetroom Installation

Features and Benefits:

- Designed with 22mm thick edge work to be compatible with WBP board
- Can be trimmed by 50mm around the edges to miss joists if necessary
- Self-supporting - Installation directly to joists with no additional support
- Nonporous
- Off-centre waste to avoid joists
- 17mm of fall to waste
- Available in 2 sizes: 1000 x 1000mm and 1350 x 850mm
- Suitable for installation to: timber floors, floating floors and concrete floors
- Available with a choice of 2 waste assemblies:
 - a. Tile (RSHSFWT) - supplied with a fast flow waste and stainless steel cover - height adjustable to be compatible with a wide range of tiles
 - b. Vinyl (RSHSFWV) - supplied with a fast flow waste and pressed stainless steel cover which is screw fixed to the waste body - height adjustable to be compatible with 2 - 4mm vinyl
- 10 year Guarantee
- Manufactured from Roman Stone, Solid Surface Technology

The Roman Shield Wetroom System - winner of the KBB Readers' Design Award 2009

Winner of the Homebuilding and Renovating Magazine Best Bathroom Product 2011

Choosing the right Wetroom System

To calculate the Roman Shield tanking coverage:

Total area to be tanked = a + b + c. a & b = showering area (floor to ceiling coverage.)

Note: Tanking for the showering area should be applied 100mm past the showering area walls into the splash zone. (E.g. 0.9 x 0.9m showering area = tanking wall to ceiling: 1 x 1m).

c = floor coverage * the entire floor should be tanked with a turn up of 0.1m onto the walls.

Example (showering area 0.9 x 0.9m, room height of 2m and floor size 2m x 2m):

$$a = 1 \times 2 = 2\text{m}^2 \quad b = 1 \times 2 = 2\text{m}^2 \quad c = 2 \times 2 = 4\text{m}^2$$

Total area to be tanked = 8.0m²*

* The entire floor area should be tanked with a turn up of 0.1m onto the walls - you will need to allow extra in your calculation for this.

Roman Shield requirement:

Based on the above calculation one RSH01 – Roman tanking kit will be required covering 10m².

Note: The Roman Shield tape is supplied in a 15m roll and is used to seal all wall to wall and wall to floor joints as well as screw heads. Calculate how much you will need based on your room size and number of joints to cover.

If you wish to use any optional extras such as the internal corners (RSH02) or external corners (RSH04) please calculate based on your site requirements.

The above calculation is for guidance only, coverage of the tanking kit will vary depending on application technique used (roller/brush) and site conditions.

For our **9 Easy Steps Guide** to installing a wetroom please see next page. You can also view a short video podcast guide at www.roman-showers.com or scan the QR code to view video directly on your smart phone

9 Easy Steps

to constructing a wetroom

There are several different ways of constructing a wetroom but there are some basic principles that must be observed - these are:

The floor may be screeded, constructed from heavy duty wooden sheets such as plywood, or created using a pre-formed shower floor. In all cases there must be a gradual slope to fall towards an appropriate shower outlet. The structure must be solid, without flexing and any joints in the construction material must be firm and well fitting. The body of the shower outlet must be recessed or cast into the floor in such a way that the top of the flange is on a level, or fractionally lower than the floor surrounding it. There can be no upwards step into the shower outlet.

Roman Shield can not be used directly over conventional narrow wooden floorboards, such boards must be replaced or covered with a sheet material such as plywood.

To view a short video podcast guide visit www.roman-showers.com or scan the QR code to view video directly on your smart phone

1

Supporting the Pre-formed Shower Floor

The Roman Shield Pre-formed Shower Floor can be installed directly to joists without additional support, or to a concrete floor.

2

Installing the Pre-formed Shower Floor

The Pre-formed Shower Floor can be trimmed if necessary and is screw fixed to the joists. WBP/Plywood can then be used to complete the level shower room.

3

Preparation

Ensure all surfaces in the construction area are dry, solid, supportive and level, as well as free from oil, grease, dust and other separating layers.

4

Applying the Primer

The entire floor area of the room should be primed with a turn up of 100mm onto the walls. The walls should also be primed floor to ceiling in the showering area and in the splash zone of the shower, normally 100mm past the showering area. (E.g. If your showering area is 1000 x 1000mm prime floor to ceiling 1100 x 1100mm). The primer can be applied using a small fur roller, brush or suitable spray gun. The curing time of the primer is a minimum of 2 hours.

5

Apply the Roman Outlet Sleeve

Apply the self adhesive Roman Outlet Sleeve ensuring it is flat with no raised edges, creases or bubbles. The centre of the outlet sleeve is then removed and the waste trap clamping ring is fixed into position.

6

Apply Roman Shield Tape, Pipe Sleeves and Corners

The Roman Shield Tape, Pipe Sleeves and Corners are bedded down using Roman Tanking Compound. All wall to wall and wall to floor junctions as well as butt joints and nail or screw heads must be reinforced with the tanking tape. The compound is applied using a medium size paint brush.

7

Pre-Checks

Ensure the Roman Shield Tape, Pipe Sleeves, Corners and Outlet Sleeve have been fitted to the appropriate areas and wait until the tanking compound is dry. (The curing time for the compound is between 2 - 4 hours).

8

Apply the Roman Tanking Compound

The entire floor area of the room should be tanked with a turn up of 100mm onto the walls. The walls should also be tanked floor to ceiling in the showering area and in the splash zone of the shower, normally 100mm past the showering area. (E.g. If your showering area is 1000 x 1000mm tank floor to ceiling 1100 x 1100mm). The recommended finished thickness of the tanking compound is a minimum of 1mm, this is usually achieved in 2-3 coats. The tanking compound can be applied using a fur roller and/or a large paint brush. The curing time of the tanking compound is between 2 - 4 hours per coat.

9

Installation Complete

You are now ready to start tiling and grouting as normal.

Trays

Our diverse range of trays and wetroom solutions offer the user a choice of installations depending on the desired finish. Our range of level access shower trays is manufactured from solid surface material, and cleverly create a simulated wetroom look. These solid surface trays are available in a range of sizes, and incorporates our Infinity Tray range which has a single angle flow to waste with a stylish load bearing solid surface waste cover. Our Infinity Tray collection also presents true originality with our low level Shimmer Trays, featuring a stunning shimmer finish. These unique designs include radiant black, glittering grey and twinkling white shimmer finishes. The standard acrylic capped stone shower trays are also available in a selection of heights, shapes and sizes.

Types:

- Infinity Trays
- Shimmer Trays
- Neo Angle Trays
- Lumin8 Trays
- Gloss Trays
- Roman Low Level Trays
- Anti Slip Trays

Trays

Infinity Trays

Level access installation

To create the ultimate modern minimalist look Roman introduce the Infinity Tray range which is available in the choice of a matt or gloss finish. Our Infinity Trays offer a breakthrough in technology as they can be installed straight to joists so that once the floor tiles are laid it creates level entry access into the shower area. Manufactured from Roman Stone, the Infinity Trays are strong and durable. They achieve their level access feature due to them being only 40mm nominal height. This product provides the added reassurance of a tray, with the minimalist design and level access of a wetroom. The flawless styling of the Infinity Trays has been designed with a single angle flow to the waste. The waste is suitable for power shower systems and carries away 25 litres of water per minute. This exclusive chic look is completed with a stylish load bearing solid surface waste cover which still allows access to the waste for cleaning.

Features and Benefits:

- Ultra low profile
- Gloss or Matt* finish available in white
- Shimmer options in gloss only
- Manufactured using Roman Stone Solid Surface Technology
- One angle of slope to waste to maximise flow rating
- Fast flow waste included, fully concealed with solid surface cover piece
- Due to the nature of the product water integrity cannot be guaranteed when fitting with a wetroom panel. Please consult your installer

* Anti Slip Trays

Matt Trays have been tested to:

BS7679-2:2002+A1:2013 - Slip potential - low DIN 51097:1992 Class C

Shimmer Trays

Exclusive additions to our Infinity Tray collection are original low level shower trays, featuring a stunning shimmer finish. These unique additions include a radiant black, glittering grey and twinkling white shimmer finishes.

*** Anti Slip Trays**

Matt Trays have been tested to:

BS7679-2:2002+A1:2013 -Slip potential - low DIN 51097:1992 Class C

Anti-Slip Trays

Our collection of Solid Surface Shower Trays offers a stylish finish, with a domed aluminium waste cover. The low profile trays are self-reinforcing so can be laid directly down to joists and then tiled up to, achieving a level access wetroom look. They are available in matt white or grey which has been approved for Anti-Slip properties. For volume orders we can accommodate a variety of colour finishes and sizes to your specification, including stone effect finishes to coordinate your bathroom design.

Grey Anti-Slip Tray

* Anti Slip Trays

Matt Trays have been tested to:

BS7679-2:2002+A1:2013 -Slip potential - low DIN 51097:1992 Class C

Waste Dimensions

Neo Angle Trays

An angled design to fit flawlessly with the dedicated enclosures. It is manufactured from Roman Stone using Solid Surface Technology and incorporates a stylish chrome waste – presenting a sublime finish. When installed it offers a small step into the showering area. The dedicated Neo Angle Tray is suitable for use with power shower systems and carries away 25 litres of water per minute.

Lumin8 Trays

Roman's Lumin8 range of enclosures feature product specific low level trays manufactured from Roman Stone. These level access trays incorporate a 50mm nominal profile which when installed create a simulated wetroom look. The Lumin8 Tray range is suitable for use with power shower systems and carries away 25 litres of water per minute.

*** Anti Slip Trays**

Roman Anti Slip Kit

Roman Anti Slip Coating now available in a pack.

This kit allows for an anti-slip coating to be applied only on Acrylic Capped Roman Stone shower trays which will aid the prevention of slips and falls in wet & dry conditions.

This product conforms to BS7976-2:2002 achieving a low slip potential within wet conditions and conforms to DIN 51097 with a class C slip rating. Independently UK tested and approved.

Anti Slip Advantages:

- Added reassurance in wet showers
- Easy to apply
- Hygienic and low maintenance
- Resilient and durable
- Solvent free
- Colourless

Possible Areas of Use:

- Shower trays
- Retirement homes and nursing homes
- Clinics and rehabilitation facilities
- Only for use with Roman Acrylic Capped Stone Trays

■ Lumin8 Inward Folding Bath Screen V8BV13S

See page 134 for more details

Bath Screens

Bath Screens continue to be a very popular choice as around 65% of UK bathrooms have showering facilities over the bath, due to the shrinking size of UK bathroom and the growing popularity of multiple bathrooms in the family home.

Many homes in the UK now have two or three bathrooms, which tend to be smaller and more compact as opposed to a spacious family bathroom. Due to this Bath Screens have increased in popularity as they are often specified for the main family bathroom to give an additional showering facility, which helps to overcome the morning rush to the shower. Combi-boilers and higher pressure plumbing systems have now created a demand for power shower approved bath screens.

Roman's extensive range of Bath Screens offers something to suit everyone's requirements and style of bathroom. We offer a range of sizes, shapes, glass thicknesses and styles designed to fit around any existing bathroom fixtures and fittings. Our range includes power shower approved bath screens for a superior showering experience, which incorporate a unique seal system for added water integrity.

Bath Screens

10mm

Decem^x Hinged Bath Screen

Indulgent over bath design. Power Shower approved for uncompromised showering. Outward opening for easy access. Self-closing Hinges. Choose from curved or straight hinges. Water Safe System for maximum water integrity.

Lumin8 Concealed Fix Bath Screens

The OBV3 Bath Screen presents a truly minimalist design with its concealed profile, whilst also providing water integrity with its reliable integrated 'bath top' seal. The outward folding Bath Screen incorporates one fixed panel and one opening panel to offer easy access cleaning. The clever opening panel stops at 90° to avoid bathroom fixtures and fittings.

The OBV4 power shower approved Bath Screen provides an exceptional over the bath showering experience. The inward folding Bath Screen incorporates toughened 8mm thick glass and a concealed fix profile system to present a minimalist designer look. The Bath Screen includes one fixed panel and one inward pivoting panel to allow easy entry into the bath and easy access cleaning.

Features and Benefits:

- 8mm glass
- Height: 1500mm
- Concealed fix profile system
- Fixed panel and hinge screen
- Horizontal PVC seal and vertical magnetic seals
- OBV3 - Outward opening (hinges stop at 90° to avoid contact with basins and furniture)
- OBV4 - Inward opening only
- Optional Bracing Bar included with OBV3
- Bath top aluminium seal for added water integrity
- Suitable for use with power showers

Collage Curved Bath Screen

The elegant Collage curved Bath Screen presents a stylish over the bath showering solution with its curved design. It pivots through 180°, which allows for easy access and cleaning. It provides complete water integrity with its colourless PVC strip for a watertight seal.

5mm

■ Collage Curved Bath Screen CB13S
■ Shower Basket RSB02

Lumin8 Mini Fixed Bath Screen

Provides greater water integrity when using a shower curtain. The screen provides protection at the showering end of your shower curtain. It directs the water back into the showering area to improve this traditionally weak spot. The curved rail cleverly bows out to move the curtain away from the showering area to give a more comfortable and spacious showering experience.

Features and Benefits:

- 8mm glass
- Height: 1500mm
- Frame: Silver
- Suitable for all standard bath mixer and electric showers (non-pumped)
- Reversible for left or right hand fixing
- To be used in conjunction with shower curtains (no hooks or curtain supplied)
- Curved rail to increase showering comfort with a curtain

V8CC113S - The Mini-Fixed Screen complements an existing curtain rail installation and reduces splashing around the back of the curtain and water seepage along the top end of the bath.

V8CC213S - The Mini-Fixed Screen complete with curtain rail (no curtain included) and wall attachments ensures a watertight shield to retain water in the bath. The curtain is held in place at the top and is less likely to allow water leakage out of the bath area. Rail length to suit 1700mm bath maximum.

Code	Adjustment (mm)	£ ex vat	£ inc vat
V8CC113S	243 - 257	£125.00	£150.00

Bespoke Service

Roman offers a Bespoke Service on many of our products. So if you are looking to install a shower enclosure into an awkward or unusual space, we have the perfect solution. Roman's Bespoke Service allows you to tailor the height and width of your product, we have the option of clear, frosted or printed glass. Glass can be cut at an angle or shaped, for example angled glass can allow for a sloping roof, to make adding a showering facility to a loft conversion or under your stairs, easy.

Roman's Bespoke Service allows you to build a made to measure shower enclosure, wetroom panel or bath screen, to perfectly suit your available space.

- Made to measure items which fit almost anywhere
- All products made in accordance with your own measurements
- We endeavour to provide fast and efficient answers to all your questions
- Cost effective solutions
- Many designs to suit all tastes
- Measure and fit service available

Bespoke Services available:

- Reduced height
- Reduced width
- Clear, frosted or printed glass
- Angled/Shaped glass

To order a Bespoke Service all you have to do is simply choose which product you would like, then follow these six easy steps:

1. Take your drawings to your nearest retailer who will fax them to Roman. For your nearest retailer contact Roman Customer Relations on 01325 328033 or visit www.roman-showers.com
2. Roman will then send a quotation to your retailer for them to discuss with you
3. If you are happy with this quotation Roman will produce a drawing to illustrate what your final product will look like. **Note:** Roman will make all drawings in accordance to your measurements and unless otherwise requested, an adjustment allowance will be included. Please specify your adjustment allowance prior to ordering.
4. Roman will then fax the drawing to your retailer who will pass this on to you. This drawing will be in the form of a fax back agreement for you to sign*.
5. Once Roman receives the agreement work will begin on your product.
6. You will receive your product within 5-6 weeks.

*Once this agreement is signed you will be liable for any changes should you cancel your order.

For full pricing details and ordering process please go to:

Glass Protection

The Ultimate Bathroom Protector on glass

All Roman's enclosures and bath screens are pre-coated with Roman Ultra Care, our own unique glass protection system. Pre-coated glass protection systems will always diminish in their effectiveness over time, depending on how often the shower is used and how often it is cleaned. Unlike other systems, Roman Ultra Care in a bottle can be used in tandem with the pre-coat to build up the effectiveness and make it stronger the more you clean. Roman Ultra Care is an award winning bathroom protector and has a 10 year track record for successfully protecting Roman's extensive product range. When applied to the glass of an enclosure or bath screen it creates a chemical barrier which provides protection against the build-up of grime, limescale and stains. The protective barrier means water glides off the glass with ease. This results in the protected surface remaining easy to clean by simply applying a mild detergent and wiping with a damp cloth or using a Roman Shower Blade.

By topping up the glass protection system with Roman Ultra Care in a bottle every time you clean, you can significantly reduce the amount of time required to clean your enclosure and bathroom surfaces. Most importantly, you can considerably prolong the life of your Roman product and at the same time do your bit for the environment by eliminating the use of harsh and damaging cleaning products.

For details of your nearest stockist please contact Roman Customer Relations on 01325 328033 or buy online at www.romanathome.com

Winner of the House Beautiful Best Cleaning Product Award 2009

Simulation of glass surface magnified

All glass surfaces have a non smooth finish which can attract the build-up of particles. Roman Ultra Care provides an invisible protective film which seamlessly seals the surface to ensure this build-up does not bond to the glass and the glass retains its optical clarity for lasting sparkle.

Before coating

After coating

Ongoing After Care

To maintain the long lasting sparkle of your Roman enclosure or bath screen and aid the Ultra Care pre-coated glass protection; Roman Ultra Care can be purchased in a user friendly 750ml sized bottle. This can be purchased for only £14.95 from your local Roman Bathroom Retailer, or alternatively from www.romanathome.com

Roman Ultra Care is not limited to the cleaning and protection of your shower enclosure or bath screen, it can also be used to protect other bathroom surfaces, which are not pre-coated, including glass, tiles, aluminium frames, taps, trays, sinks and baths.

Simply wipe down your bathroom surfaces after use and apply Roman Ultra Care with a soft cloth.

Roman Ultra Care can be used weekly as part of your bathroom cleaning routine.

The more you apply Roman Ultra Care the more protection you create for your enclosure, therefore your enclosure will maintain its high quality finish for longer. Without using Roman Ultra Care, your pre-coated glass protection will diminish over time.

Important information to help you maintain your Roman product:

Ensure you clean your product using a mild detergent diluted in water and then polish off using a soft damp cloth. Apply a coat of Roman Ultra Care after each clean to build-up the protective film on the surface.

If you live in a hard water area, periodically clean your product using a 50/50 solution of white vinegar and water. The solution should be left on the enclosure for approximately 5 minutes then rinsed off using warm water.

1. Do not use acidic based products which are unsuitable for cleaning enamel surfaces.
2. Do not use abrasive cleaners or cleaners containing bleach or solvents, these products will adversely affect the finish of the aluminium profiles.
3. Do not use scouring pads, powder or any sharp instruments when cleaning your Roman enclosure.

3 Step System includes:

Ultra Scrub Surface Stain Cleanser

Designed to effectively and easily clean your bathroom surfaces, including Glass, Porcelain, Ceramics and other hard surfaces. Developed to remove the build-up of minerals, rust, soaps, oils and limescale but without damaging the surface.

Ultra Shield Glass and Surface Stain Cleanser

Formulated to clean and protect. Ultra Shield can be used on your bathroom surfaces to create a water, soil and stain repellent barrier coating which prevents water, soil and grime from sticking for easier cleaning. This barrier is renewed with each use.

Ultra Care Glass and Surface Protector

For a long lasting sparkle on bathroom and shower surfaces. Ultra Care is the ultimate surface protector that repels the build-up. Also available in large bottle for ongoing aftercare.

Protecting the Environment

Roman is committed to caring for the environment and as a reflection of this commitment we became fully accredited with ISO 14001 certification in 2009. We see looking after the environment as an important part of being a UK business and UK manufacturer. As a business we care for the environment in two ways - by improving our systems to reduce our carbon footprint and impact on the environment. We strive for continual improvement in this area. For more information on how we are taking care of the environment visit our website: www.roman-showers.com and view our full list of ecodentials.

All Roman Shower Enclosures and Bath Screens and Trays are manufactured in the UK.

EMS 523823

Roman brochures are printed on stock sourced from sustainable forests.

All waste is segregated into recyclables and non-recyclables. 93% of all waste is recycled - landfill reduced to 7% of total waste generated.

All Roman Shower Enclosures, Bath Screens and Trays are manufactured in the UK. All vehicles with Euro 5 compliance engine vehicles saving 22% on emissions.

Company car policy has been updated so only vehicles with less than 125 grams of CO₂'s per Kilometre can be used in the fleet.

Overall company CO₂ reduction since 2009 is 20%.

As well as considering the environment during the manufacture of our products, we are also mindful of how our products can impact on the environment after they leave us. The addition of our Ultra Care Pre-coated Glass Protection means that dirt, grime and soap scum are washed away during the shower use. This means the use of harsh chemicals during the cleaning process can be eliminated and less water is required during the cleaning process.

Recycling your product

Packaging

As an ISO14001 Registered Company, Roman takes recycling very seriously at all levels. All cardboard is already manufactured from recycled paper, but our packaging itself is designed for recycling. Please ensure that the cardboard packaging is taken to a local cardboard recycling point or to a local recycling depot.

End of Life (EOL)

EOF recycling is taken into account from the initial design stages to ensure all aspects of the Roman products can be recycled for future use. The Aluminium, Brass Alloys, Glass (and Solid Surface Material with Roman Stone Trays) can be easily recycled at your local Licensed Recycling Centre (LRC). If you are unable to access an LRC, then Roman can arrange to coordinate a pick-up of your product for a modest transport charge.

Consumer Guide

Roman shower enclosures have been tested and fully conform to the scope and relevant characteristics of BS EN14428:2008+A1 (Shower Enclosures - Functional requirements and test methods), to meet the requirements of the mandate given under the EU Construction Product Directive (89/106/EEC).

As a result of full compliance to the directive and harmonized standard; Roman shower enclosures carry the 'CE' mark and are accompanied by a declaration of performance. (Available to view on www.roman-showers.com)

The CE marking indicates Roman shower enclosures conform to all essential requirements of European health and safety and environmental protection legislation. The conformity is mandatory, and allows Roman products to be legally placed on the market anywhere in the European Economic Area.

Additionally all Roman trays fully conform to EN14527:2006+A1 2010.

Important Product Details

- Enclosures and screens carry a Lifetime manufacturer's guarantee if products are installed according to the installation instructions - see guarantee criteria to the right.
- Simple and clear installation instructions are included with all Roman Products.
- Roman products are available for Virtual Worlds design service. For more information contact Roman Customer Relations on 01325 328033.
- Any guarantee variations are indicated separately.
- All guarantee forms supplied with installation instructions must be completed and returned to Roman within 60 days to validate the lifetime guarantee otherwise only a statutory 12 month guarantee will apply.
- All Roman Bath Screens and Enclosures are manufactured using toughened safety glass which complies to BSEN12150.
- All Roman Bath Screens and Enclosures are tested in accordance with BSEN14428 - shower enclosures, functional requirements and test methods.
- Roman's toughened glass is completely safe for use in our shower enclosures and bath screens; providing our products are installed according to our guidelines.
- It is important to note, that the glass must not be mounted or 'pinched' in such a way that would cause a stress point to develop in the glass. In addition, it must not be subjected to any sharp impact or severe temperature fluctuation which may also cause a stress point to develop in the glass.
- Roman's toughened glass is physically and thermally significantly stronger than standard glass. However a significant impact (or stress as outlined above) can cause toughened glass to break. In the event of breakage, toughened glass will break safely into small fragments in line with all relevant standards.
- All heights quoted for enclosures and bath screens are from the top of the shower tray or bath.
- All fixings are hidden on Roman products.
- The term "Silver" and "Nickel" describes the colour of the aluminium finish. No silver metal is included in any Roman products.
- All fixings and pivot pins are manufactured from stainless steel - this adds great strength and durability to Roman products.
- All seals and gaskets on Roman products are manufactured from colourless PVC.
- Roman over-bath products are not designed for baths with shaped or stepped fronts or integral soap dishes.
- The design rights of these products are owned by Roman Limited. All rights reserved.
- For compatibility of Roman enclosures with steam generators please contact Roman Customer Relations for advice on 01325 328033.
- Where indicated that products are suitable for use with steam generators, this refers to the performance of the product components. We do not however suggest that the product will have complete steam integrity.
- Due to the nature of wetroom panel products, water integrity cannot be guaranteed. Please consult your installer.

Roman have an ongoing policy of design, development and improvement and thus reserve the right to modify specification, ranges and prices without prior notice. Images are for illustration purposes only - please refer to your retailer as site conditions will vary or contact Roman Customer Relations on 01325 328033 for installation specifications.

Guarantee

Roman Ltd. guarantees all shower enclosures and bath screens against faulty materials or manufacture for LIFE, provided they have been installed, used and maintained in accordance with our instructions.

All Roman product guarantees must be completed and returned within 60 days of purchase to validate the relevant guarantee. Failure to meet this deadline will result in a statutory 1 year guarantee on all products.

Should a claim arise, Roman Ltd. Customer Relations will investigate the issue. As part of this investigation we request that the following conditions be satisfied:

1. Proof of purchase at the time of the claim.
2. The guarantee applies to the original purchaser only and is non transferable.
3. The product has been fitted / installed in accordance with Roman Ltd. fixing instructions, local bylaws and general good plumbing practice
4. The product has been maintained and cared for in accordance with our instructions (including regular and appropriate cleaning).

If in our opinion the product has been modified, misused, neglected, wilfully or accidentally damaged, we can accept no responsibility for failure.

Roman Ltd. or its representatives must be given the opportunity to inspect the product in the installed condition.

Should any products included in the lifetime guarantee be used for commercial use i.e. leisure clubs, schools, hospitals, student accommodation, hotels or residential homes, only a 5 year guarantee will be applicable.

If in our opinion the product fails due to faulty materials or manufacture and that the conditions above have been met, Roman Ltd. will arrange for a specialist Roman Technical Representative to repair or replace that item at our option.

Roman Ltd. believes in continuous improvement. If in our opinion the product has failed under the terms of the guarantee and a replacement is offered but identical goods are no longer available, Roman Ltd. will replace it with our nearest equivalent product. For countries outside of the UK and Republic of Ireland, where a product has failed due to faulty materials or manufacture, a replacement product or product part will be offered only.

Should Roman Ltd. carry out work as a result of a claim but subsequently it is revealed that the product has been abused or improperly installed, we reserve the right to charge the customer for the expense incurred.

The liability of Roman Ltd. is limited to the product supplied by Roman Ltd. and does not extend to consequential loss or damage arising from the defective product.

This guarantee, which is effective for products purchased after February 1st 2006, states our entire liability and is offered to customers acquiring our products as consumers, not in the course of trade or business. Ex displays or products reinstalled from their original position are not covered under this guarantee.

Non glass or metallic parts (e.g. seals) are subject to normal wear and tear through usage and are therefore covered on all products for 1 year from installation.

Roman Ultra Care pre-coat is not covered by this guarantee and it must be maintained by applying Ultra Care from a bottle on an ongoing basis.

Roman products not included in the lifetime guarantee include all Roman Accessories and Roman Shield® tanking products which are covered for 10 years and Roman Shower Trays which are covered for 1 year. All guarantees registered for shower enclosures or bath screens between March 1st 1998 and February 1st 2006 are subject to a 10 year guarantee.

This guarantee does not affect your statutory rights.

This guarantee is wholly applicable in the U.K. and Republic of Ireland – export conditions as indicated.
