## CERAMICS

There are four eras of history reflected in our designs; Classic, Edwardian, Victorian and Contemporary. Within each of these designs there are sizes to suit your bathroom, shower room or cloakroom. A selection of WCs and bidets are available to match your washbasin selection.

Introduction	4
Classic	10
Edwardian	20

# Introducing

## *burlington bathrooms*

From the late 1800's into the 1900's Britain led the way in bathroom design and performance. Burlington Bathrooms brings a complete collection of traditional bathroom products for you to create a classical British bathroom from these eras of great design.

By offering genuine past designs with modern functionality, the designs within the product portfolio reflect the traditional eras ranging from Edwardian, Victorian, Classic and Contemporary. The Burlington product portfolio is designed and made to suit the requirement of any bathroom design; residential or projects.

The latest technology can also be found throughout the Burlington products including but not limited to Digital showering, thermostatic showering and Nano Glaze.

Our range is extensive and allows you to create your own look and feel to suit your personal choice, safe in the knowledge that these are designed to co-ordinate together perfectly.

# Ceramics

There are a great variety of options within the Burlington collection. Choose from the simply styled Classic collection in either a round or square design, the Edwardian basin with its subtle angular appearance, again in a round or square design, Victorian with a refined look or Contemporary for a minimal and pared back form.

Basins are available in one, two or three tap hole options and can be used on a variety of styled pedestals; either standard, regal, semi pedestal, washstand or countertop options.

WC's are available as close coupled, low, medium or high level and both wall hung and back to wall options. There are also Regal WC's offering a higher seating position throughout the range and a new addition of a Rimless WC.

# Basins

Our Burlington basins can be paired with a standard or Regal pedestal option. The Regal options are 60mm taller than the standard and are available throughout the range of full pedestals in Classic, Victorian, Edwardian and Contemporary.

Within the washstand collection, we also offer the taller option, meaning that all basins can be used at a more comfortable height for those who wish.

## PEDESTAL OPTIONS

Available with the Classic & Classic Round basins

Burlington Regal pedestals are 60mm higher than the standard pedestals.

	Standard Height	Regal Height
Classic	860mm	920mm
Victorian	840mm	900mm
Edwardian	840mm	900mm
Contemporary	840mm	900mm

Standard

Regal

## WASHSTAND OPTIONS

Available with the Classic, Edwardian, Victorian and Cloakroom basins

Burlington Regal washstands are 60mm higher than the standard washstand to ensure a more ergonomic use for taller individuals.

Standard

Regal

# Basins

Burlington Bathroom design is governed largely by the washbasin style. Every design is crafted to reflect the specific era in which British sanitaryware rose in fame and was heralded as the best in aesthetic and performance. Burlington's key design themes are represented through Classic, Edwardian, Victorian and Contemporary eras. Every basin is crafted to the highest quality and is full of character and style with various choices in style, size and other options to suit your own individual tastes and requirements.

## CLASSIC

The Classic collection from Burlington is beautifully formed, either as a curvaceous round design or a grand square model. This collection also features the invisible overflow, and innovative waste technology.

PAGES 10-19

## CLOAKROOM

A selection of cloakroom options have been crafted so you can match your chosen style throughout the home. You'll find Edwardian, Victorian and more Classic styled cloakroom basins to achieve a consistent and beautiful look throughout every washroom.

PAGES 36-39

## EDWARDIAN

The Edwardian collection is the ultimate in traditional bathrooms with structured corners and angular designs, the feel is unapologetic and proud.

PAGES 20-23

## CONTEMPORARY

As the name suggests, the Contemporary collection is styled on the elegance of past times but with a modern day twist. Simplistic, structured lines form the basis for this striking ceramic collection. Available as full pedestal, semi-pedestal or with a chrome washstand.

PAGES 28-35

## VICTORIAN

A delicate and refined range, the simplicity of this ceramic basin is stunning. Available in a medium (560mm) or large (610mm) and a range of pedestal and tap hole options, the versatility of this style allows you to continue the style throughout your home and brings an air of luxury to every room.

PAGES 24-27

The Classic basin collection from Burlington is beautifully formed, either as a grand square or round design. This collection also features an innovative waste technology. Choose a Classic basin with invisible overflow allowing you to have seamless ceramic without a plug. All Classic basins are available as one, two or three tap holes on standard or regal pedestals or a range of washstands and furniture.

WC's

Regal

Standard

At Burlington we've created a range that's taller than average sanitaryware. Regal WC pans are 60mm higher than the standard option. At 480mm high the taller WC pan ensures the knee angle remains at approximately 90 degrees whilst in use, which is the correct seating position. At 480mm high the Regal WC's enable this. The taller WC provides a more comfortable use for taller people and the elderly whilst ensuring your WC is functional as well as beautiful too.

All Burlington WC fittings are factory set at 3L and 6L flush. They can be adjusted on site to flush at 2 1/2L and 4 1/2L.

All Burlington close coupled WC's are supplied with dual flush WRAS fittings.

CLOSE COUPLED & LOW LEVEL WCS

Standard close coupled WC

Regal close coupled WC

BACK TO WALL WCS

Standard back to wall WC

Regal back to wall WC

# WC's

Burlington WC's come in a range of options, from the more contemporary wall-hung or back-to-wall options, to traditional close-coupled or the impressive low, medium or high-level WC's. All options feature water saving technology, only flushing 6L for a full flush or 3L for a half. These factory settings can be adjusted to 4 ½ L for a full flush or 2 ½L for a half flush. Pair your WC with a real wood seat to accentuate the classic styling. Unlike many other traditional brands, Burlington offer soft-close options on white, oak and mahogany seats, as well as sand and dark olive to pair with your furniture. For a premium look, select the throne seat with intricate and ornate brackets, which provide a focal point in your stunning traditional bathroom.

Wall hung    Back to wall    Close coupled    Low level    Medium level    High level

**nanoGLAZE**  
ceramic that stays cleaner

A CLEANER TOILET, BY DESIGN AND WITH NANO GLAZE

We believe that the toilet bowl should still remain as clean as possible even with reduced flushing water and therefore engineer our toilet bowls to maintain the correct water area as previous British Standards and by coating the toilet bowl with NANO Glaze to make them exceptionally easy to keep clean.

# chrome cisterns

### DESIGN A BATHROOM TO SUIT YOUR SPECIFIC NEEDS

The angled high-level WC is a great option for those wanting to achieve the wow factor achieved with this type of WC, but needing to work around windows or within awkwardly shaped bathrooms. All high-level WC's are also supplied with a rigid pull rod to enable water saving; pull down for a full flush of 6 litres, or push up for a half flush of 3 litres. This can also be adjusted to 4.5 litres and 2.5 litres if required. Also available is a single flush chain and ceramic pull.

# Furniture

Introducing Burlington furniture, a range of beautifully traditional solutions to add classic style and sophisticated British elegance to your bathroom.

Choose from freestanding in either a square or curved design, wall hung or fully-fitted options to tailor make the most functional use of space to suit your individual needs. A new range of baths each with panels or surrounds in corresponding colours, transform your entire bathroom into a space of peace and tranquillity with a subtle, traditionally British feel.

Each piece is packed full of innovative detailing such as soft close doors and drawers, internal lighting and wide opening spaces for maximum storage capacity.

## NEW GREY FURNITURE

Available late Spring 2018.

**HDP** • The plinths of the freestanding furniture are crafted from HDP Polymer - a waterproof base providing extra protection and giving peace of mind that wet floors will not lead to damage.

**DIMENSIONS & TECHNICAL DRAWINGS** • Dimensional drawings and technical details are shown at [burlingtonbathrooms.com/furniture](http://burlingtonbathrooms.com/furniture)

**TAP HOLES** • Minerva® worktops are supplied with an integrated bowl with overflow, and no tap holes. Tap holes are drilled by the installer in the required position and configuration. A template is provided with the Minerva® tops indicating tap hole positions and sizes.

**STAINING** • Minerva®, unlike marble and granite, is not porous and will resist most household chemicals including alcohol and cosmetics, however, some chemicals and strong dyes can cause damage and discolouration. If spillage occurs, wipe off immediately and rinse the area thoroughly.

**MINERVA® CARE KIT** • To restore your Minerva® work top to its original best use the Care Kit to buff out all tiny scratches and scuffs. The kit contains all the sanding / buffing materials and liquids required.

**ROUTINE CLEANING** • Minerva® does not require any specialist cleaning regimes, most dirt and light residue will easily wipe off with a damp cloth and soapy water. The work surface should then be rinsed with clean water and wiped dry. Persistent marks can be removed by using a mild abrasive cleaner, but harsh scouring powders should be avoided.

**MINOR SCRATCHING** • Scratches to the work surface will be more evident on darker colours. Any minor scratches can be removed using a woven abrasive pad and other items in the care kit.

# cloakroom

A unique and stylish corner unit from Burlington, for use with the 430mm Quattrocast basin and available as one tap hole only. Choose from in dark olive, matt white, sand or classic grey, team this with a Chelsea straight basin mixer for a truly classic look, perfect for any cloakroom or bathroom space.

· ALL · Burlington 430mm by 430mm Quattrocast corner basin 1TH, shown with 430mm corner unit in matt white and Chelsea straight basin mixer without waste. With nickel handles.

# 1300 freestanding

Why not select the double basin option for a traditionally British feel. Choose from three exclusive Minerva® worktop colours available in either pristine white, opulent black granite, or luxurious Carrara white, each with a generous sized double basin bowl of 380x310mm. Each of the Burlington furniture pieces are equipped with soft-close door hinges and drawer runners for that extra feeling of indulgence in your bathroom. Select either the four drawer or double doors option to match your storage requirements.

· LEFT · Sand 1300 Freestanding Vanity unit with drawers, 1300mm x 550mm Minerva black granite with two integrated basins with one taphole, Chelsea straight basin mixers with pop up (two required) each, 900mm sand mirror without LED. · TOP · Matt white 1300 Freestanding Vanity unit with doors, 1300mm x 550mm Minerva Carrara white with two integrated basins with one taphole, Kensington basin mixer with click clack waste (two required) each.

White 1300 freestanding vanity unit with doors, shown with Minerva® Carrara white double basin worktop and basin mono's

All Burlington furniture pieces are made using a dowel and KD screw joining system for exceptional strength. And you can guarantee we've thought of everything for simple installation and sublime style. Cut out drawers allow for under-counter basin pipework without compromising on space. While spacious work surfaces, glass shelves and soft-close features add luxurious finishes that elevate your bathroom to one of superior quality.

 CARRARA WHITE MVCA £59

# paint your own

Should you wish, our matt white furniture is supplied ready for you to paint, so you can transform your entire bathroom to your individual colour scheme. We've chosen some Farrow & Ball colours as suggestions displayed below. We recommend cleaning the unit to ensure you have a clean and grease free surface before painting with an egg shell paint for the best effect.

# Baths

The Burlington range of free-standing baths offers beautifully crafted exclusivity in a variety of styles to suit both modern and traditional spaces. Choose from soaking tubs, exclusive traditional baths with a range of feet in six styles and three colours to personalise your bath to your individual tastes and bathroom décor. All the baths are made using the highest quality techniques and processes to ensure the finished product will provide many years of blissful bathing. There are three exceptional Natural Stone baths for that extra piece of luxury in your bathroom. Whichever bath from our extensive range you choose, you are assured of the finest quality.

Baths

**TSFR** • The baths are made from Twinned Skinned Fused Reinforced acrylic. This material is both strong and hard wearing whilst being lightweight making the Burlington bath the perfect option for your bathroom.

**WEIGHT** • The weight of the bath when stood empty.

**WEIGHT CAPACITY** • Capacity available for the bath when empty.

**WEIGHT CAPACITY WITH PERSON IN IT** • Capacity of the bath when person is sitting in the bath.

The Bateau bath is a beautiful example of a classic roll top with a stylish presence.

Provided in white, this bath was primed and painted a deep sea blue to match its surroundings. The Chrome feet provide an eye-catching focal point in the bathroom.

· ALL · Bateau bath with Chrome Arc feet. Burlington Claremont floor-standing bath shower mixer plug and chain waste, P-trap and P-trap connection pipe.

Note: The Bateau bath comes in a white finish. The exterior can be primed and painted. The photograph shows the bath in Fired Earth Carbon Blue. If you wish to paint yours then please note this is only possible on TSFR baths. You should seek advice from the paint manufacturer for suitable primers and processes.

arundel

The Arundel is available in two size options and can be fitted as part of a showering bath or in a more central position in the bathroom, as shown (left) or tiled in to fit with your bathroom design. The Arundel is versatile and can be incorporated in to any bathroom scheme including those with fitted or free-standing furniture in each of the four Burlington colourways.

These are for use with baths where fittings are not rim or wall-mounted (Water runs through the pipes). Can be used with deck-mounted taps.	

Decorative shrouds  
W 70 D 70 H 710

W6	£209
These are for use with baths with rim-mounted fittings and can be used with deck-mounted taps.	

# Brassware

The Brassware is packed full of innovative technology, not seen amongst other traditional competitors. Every Burlington tap is supplied with a flow straightener for areas with low water pressure and an aerator for areas with high water pressure. This, unlike most traditional taps, ensures your water is delivered at 13 litres per minute regardless of incoming water pressure. So you no longer have to cope with water splashing everywhere, the flow from a Burlington tap is perfect every time.

All bath fillers and bath shower mixers have rotating spouts so you can move the brassware out of the way to enjoy a relaxing bathe. Every bath shower mixer also comes with an 'S' Adjuster, allowing you to position the handset over the bath. You can install your bath shower mixer with or without this feature. All are also available as an angled option, so you see the indices when you walk into the room. Bridge basin mixer spouts also swivel to allow you to turn your tap into a drinking fountain.

# Burlington taps

*B*urlington is the first British Traditional designed range available that enables water savings! In the UK some homes have low water pressure and some have high water pressure. We supply every tap with two Neoperl devices: A flow straightener which is for use with low water pressures and an aerator which is for use with high water pressures.

Our taps are designed to deliver the following maximum flows of water, regardless of the incoming water pressure:

Basin taps	13 litres per minute
Bath tap	14 litres per minute
Bath shower mixer	22 litres per minute

## NORMAL SPOUT

The underside of a bath spout of a normal, traditional bath tap.

## BURLINGTON SPOUT

The underside of a Burlington bath tap with a Neoperl aerator.

**NORMAL TAP**  
Water flow in a normal traditional tap

**LOW PRESSURE**  
Low pressure water flow with a Burlington tap using a flow straightener

**HIGH PRESSURE**  
High pressure water flow with a Burlington tap using an aerator

## SWIVELLING SPOUTS

All our Bath Fillers and Bath Shower Mixer spouts swivel - so you don't have the spout in your way when you shower.

## ANGLED MIXERS

All our Bath Fillers and Bath Shower Mixers are available in an "angled" version.

## 'S' ADJUSTERS

The S adjuster allows the telephone handset to be positioned over the bath - when you are done it drips into the bath. The bath shower mixer can be installed with or without the "S Adjuster".

Swivels

## BRIDGE MIXERS

Our Bridge Basin Mixer has a swivelling spout and allows you to have mixed hot & cold water, whilst using a two taphole configuration.

- Straight down
- 90° left or right
- Straight up
- Normal basin mixer
- Off

Traditional screw-down

Quarter turn

## VALVE OPTIONS

All Burlington taps are available with traditional screw-down valves or with quarter-turn valves. The taps work with both low and high pressure. See our technical website [www.bbwhitebook.com](http://www.bbwhitebook.com) for details.

# Burlington taps

## QUARTER TURN

All our taps (except Kensington) come with the traditional screw down valves as standard. For 'Quarter Turn' simply add QT to the product code.

## ORDERING YOUR TAPS

When ordering your taps add the correct code to the start of the tap code

Anglesey add AN  
 Claremont add CL  
 Birkenhead add BI  
 Kensington add KE

## CLAREMONT

A classic favourite from Burlington. This simple range of tap heads suits all basin, bath and bidet taps in the Burlington range. Pair with a deck mounted bath shower mixer for classical styling.

## CLAREMONT REGENT

If looking for a little extra when choosing your brassware, opt for the regent range. A shapely stylish base suitable for all one, two and three tap hole taps excluding Chelsea and Stafford.

## ANGLESEY

Pair the Anglesey tap head range with our Burlington contemporary range of basins.

## ANGLESEY REGENT

The Anglesey is also available with the regent tap base to offer extra height to your tap. Pair with any of the Burlington basins.

## BIRKENHEAD

The Birkenhead taps work well with any of our basins or baths and look particularly beautiful on our range of classic baths.

## BIRKENHEAD REGENT

Also available with the regent option in the Birkenhead tap head. For something striking in your bathroom, this is the perfect choice.

## KENSINGTON

Burlington's Kensington range of tap heads offers opulence and sophistication. Taking inspiration from a bygone era the Kensington brings a traditional style with modern technology.

## KENSINGTON REGENT

Add the regent base to this tap style for an extravagant appearance - particularly suited to the Edwardian basins.

# Introducing *black*

Introducing a black indice option from Burlington, you can now pair nearly all of our brassware options with a black indice instead of the classic white. This allows for a variation between the classic styling and a modern take on the existing options.

The brassware options can be paired with various accessories including radiators, bath wastes and even our showering range.

Look for the BLA codes throughout the brochure.

Available late Spring 2018.

## ORDERING YOUR TAPS

When ordering your black taps add BLA to the end of the code as shown on pages 156, 158, 161, and 164.

# Showering

The Burlington range of showers provides extensive options so you can create a showering solution for your own bespoke setting. Whether you prefer showering over a bath or in an enclosure, Burlington has a solution for your own requirements. Thermostatic valves offer safe and controllable showering for the entire family. Shower valves and brassware features polished chrome, enhanced by timeless white ceramic, to both look fantastic and be ergonomic to use. Designed using the highest quality materials to achieve yesterday's designs with today's technology, you are ensured a great showering experience.

Now introducing the Digital range of showering the Classic 1910 options provide a higher level of showering options for those looking for the latest technology in their classic Burlington bathroom.

**THERMOSTATIC SAFETY / ANTI LIMESCALE** · We use Vernet wax capsules throughout our showering valves, meaning temperature when showering will now vary by more than +/- 1°C. The quality materials minimise potential limescale effects enabling extended lifetimes.

**CERAMIC DISC TECHNOLOGY** · Burlington offers ceramic disc technology across its showering range.

**ONE WAY WATER** · Our non-return valves ensure the flow of water in only one direction, ensuring heating efficiency, preventing siphonage of contaminated water and keeping your shower cartridge in excellent condition for longer.

**AIRBURST** · By combining air and water, the pressure inside the shower head is increased. The power of a traditional shower with up to 33% water saved.

**NEW BLACK LEVERS** · New Black lever and handle options are now available for Burlington showering. Look for the B symbol within the showering pages where there is a black option available.

Available late Spring 2018.

SHOWER HEAD HEIGHT

The standard riser pipe (V21) has a length of 856mm.

To increase the height of your shower head use the extended riser (V22) which has a length of 1814mm increasing the height by 958mm.

To order the extended riser simply add .EXT to the product code. For example BSF1S changes to BSF1S.EXT

Please see the website for details.

OPTIONS FOR TAY & EDEN

ANGLESEY SINGLE VALVE IN WHITE OR BLACK V2 / V2 BLA +£29

BIRKENHEAD SINGLE VALVE IN WHITE OR BLACK V3 / V3 BLA +£29

CLAREMONT SINGLE VALVE IN BLACK V1 BLA +£0

When ordering the optional bath Spout V32 you will also need the extended riser V22, if you wish to retain the handset function you will need to order V24 and V27 products.

# Digital

## Creating the ultimate shower experience

*W*hy should you choose a digital shower? From sophisticated controls to carefully considered design, there are so many reasons.

We strive to create inspiring designs for exquisite bathrooms, and the digital shower is our latest innovation. With precise temperature technology and beautiful high-quality designs, the Bathroom Brands digital shower makes safety, simplicity, and sophistication integral to your everyday routine.

Our selection of premium product options enables you to create a showering experience individual to you and your home. Choose between single and dual shower and bath fill controls with either contemporary or classic trims, then combine with stunning fixtures from our range to achieve your ideal look. Introduce a final touch of elegance with the digital remote, a unique additional control that allows you to smoothly turn on the water and divert the flow before you even enter the shower.

Explore the benefits and key features in more detail over the following pages.

# creative solutions

## intuitive features

Discover the difference modern technology can make. Our digital showers offer total safety and easy installation and maintenance, with simple push button controls both inside and outside the shower.

**PRECISE TEMPERATURE**  
Sophisticated technology gives you accurate control of the water temperature.

**EASY DIVERT**  
Divert the flow quickly and easily with just a few touches. Press the lower control once to divert from the main showerhead to the second, and again to run both at once. On the dual bath and shower, press once to switch to showerhead, and a second time to return to bath flow.

**INSTALLATION**  
Luxury doesn't have to be complicated. Push-fit isolation valves, a standard electrical plug fitting and easy to set up cable connections make your plumber's job simpler.

**COOL-TOUCH METAL CONTROLS**  
Shower controls are kept completely separate from the water in the valve, which means they always stay cool and safe to touch.

**COLOUR-CHANGING CONTROLS**  
The controls gently pulse white as the water reaches your set temperature, while a subtle, white glow lets you know the shower's ready. When you adjust the temperature the controls flash red or blue as the water heats up or cools down.

**TEMPERATURE OVERRIDE**  
Each digital processor has a pre-set maximum temperature of 41°C, which can be overridden and adjusted to 46°C. As bath temperatures are usually higher, when you divert to the bath outlet the maximum temperature will automatically rise to 44°C.

**FLEXIBLE OPTIONS**  
Choose from single showerhead, multiple showerhead and bath filler options. There is a solution for every bathroom.

**CONSISTENT TEMPERATURE**  
A built-in thermistor checks the temperature 10 times every second so that, even when someone is using water elsewhere in the house, the water temperature will stay exactly the same.

**AUTOMATIC SHUT OFF**  
If there are any problems with your water supply, the shower will shut off immediately. This provides peace of mind that your family is fully protected from hot water scalding, or the discomfort of an unexpected cold shower.

**QUIET PUMP**  
For low-pressure installations the digital shower features an ultra quiet, integrated brushless motor, boosting performance to allow high-pressure showering with minimum noise.

**REMOTE CONTROL (OPTIONAL)**  
Fit an optional remote control anywhere outside of the shower enclosure and within 10 metres of the digital shower. Simply press the button to turn the shower on or off, or press and hold for 1.5 seconds to divert the water flow between showerheads, or bath and shower.

**CLEANING MODE**  
While the shower is off, set the temperature to midway between hot and cold, then press and hold the dial for 5 seconds. The light on the controller will come on to show you it's locked, then after one minute it will automatically unlock.

# radiators

Burlington radiators offer a broad range of various styles, with the recent addition of two black radiators.

There are options here to complement your traditional bathroom beautifully. All Burlington radiators except the Strand (R11 CHR) are designed to work with the extra fitting of an electric summer heating kit, allowing warm towels all year round..

## ELECTRIC SUMMER HEATING KITS

Our radiators contain steel and are therefore only suitable for hot water (closed) central heating systems. During electric heating use the valves must be left open so the radiator is full of water to ensure correct performance.

All Electric heating kits are rated IP44.

# mirrors and lights

The perfect addition to your bathroom, Burlington mirrors add intricate detail and increase the period feel of your bathroom. Choose between the simplistic and pared back rectangular or arched mirrors, or the detailed and beautiful Georgian style mirrors available in polished black or white aluminium. In addition to the classic Edwardian lights either in round or elliptical style, Burlington have increased their range of lighting options, giving you various possibilities. Choose your base style in beautiful chrome and compliment with a fabric shade or a glass cup. These pieces are sure to give that extra finishing touch to your vintage look.

### TECHNICAL INFORMATION

Our Burlington ornate lights are supplied with G9 light bulbs. They are 28 watts, but give 40 watts of light and have an IP rating of IP44.

# A R C A D E

Introducing Arcade's range of exquisitely crafted bathroom pieces, lovingly designed to create a décor that is truly unique.

*E*xpertly finished in both nickel and chrome, the collection brings the archives of bygone design eras to the forefront whilst reflecting the trends seen in bathrooms today. Featuring beautiful ceramic sanitaryware, free-standing baths and stunning brassware masterpieces, Arcade effortlessly completes the luxury concept whilst distinguishing itself as the most acclaimed in bathroom styling.

Set to provide the ultimate in luxury for any traditional or contemporary setting, Arcade rebuffs against the limited lifespan of many of today's offerings whilst remaining classically stylish, guaranteeing a bathroom that will last a lifetime.

## *nickel*

The durable, triple-layer nickel coating creates a long-lasting lustre on all our fixtures and fittings.

*O*ur signature finish, used throughout all of our brassware, accessories and fittings, the durable triple-layered nickel coating creates a long-lasting lustre on all of our fixtures, ensuring that your luxury bathroom is truly timeless in both its style and functionality.

The meticulous three-step manufacturing process protects, strengthens and adds extra shine to the brassware, resulting in a truly sophisticated look for the bathroom. Immersed into a nickel-plating tank to add a protective layer to the brassware, each piece is then chrome plated to provide resistance to corrosion before finally another coating of nickel is cascaded over the product to finish the process, adding an extra protective film.

## *chrome*

Blending contemporary finishes with classic design for a beautifully harmonised bathroom setting.

*A*rcade successfully displays how contemporary styles can be blended with classic design through the launch of their new chrome collection. Harmonising beautifully with the range's timeless ceramics, the chrome brassware is lighter in colour than the original nickel finish, offering the option for a delicately styled bathroom décor.

Arcade's chrome collection reflects modern interior trends seen today, whilst demonstrating beautiful design, expert manufacturing techniques and perfect functionality for a bathroom that provides the ultimate in luxury design.

# Iconic

Our iconic products bring the Arcade collection to life offering true decadence in the bathroom. Choose from our Arcade bicycle as an eye catching centrepiece or the opulent Piccadilly shower temple. The Royal showering bath is also available in either left or right handed options for those looking for a truly luxurious bathroom addition.

# pashley bicycle

The Arcade bicycle is inspiring and eye-catching which adds a unique character to the basin. Pair with wall mounted brassware in chrome or nickel to make the most of your centre piece.

# Baths

Choose from five bath options in the Arcade collection. Pair these with beautiful accessories and brassware in either chrome or nickel for the perfect bathing experience. For those looking for an opulent centerpiece choose the Albany or Albermarle to complete the bathroom.

albany

A beautifully crafted matt finish stone bath created for those with a spacious and decadent bathroom. Curved edges mean this bath is comfortable and elegant.

Albany free standing natural stone bath  
W 800 L 1690 H 570

ARC21

£3,999

Tap Hole Options  
Not suitable for rim mounted taps

Overflow  
Integrated overflow (excluding the bath waste)

· ALL · Albany free-standing natural stone bath with overflow and waste, shown with bath shower mixer and stand pipes in nickel.

albermarle

A striking centrepiece bath with nickel surround. Make a statement in your bathroom and pair this with a matching nickel washstand for a stunning Art Deco theme.

· ALL · Albermarle freestanding bath with nickel finish shown with deck mounted bath shower mixer in nickel finish.

# Brassware

The exquisitely crafted brassware within the Arcade collection is designed to create a truly unique addition in your bathroom.

The Chrome option blends a contemporary finish with classic design offering a delicately styled brassware option. The Nickel option is the signature finish and uses a durable triple layered nickel coating creating long lasting lustre on all Nickel taps and valves.

# Showering

**THERMOSTATIC SAFETY / ANTI LIMESCALE** · We use Vernet wax capsules throughout our showering valves, meaning temperature when showering will now vary by more than +/- 1°C. The quality materials minimise potential limescale effects enabling extended lifetimes.

**CERAMIC DISC TECHNOLOGY** · Burlington offers ceramic disc technology across its showering range.

**ONE WAY WATER** · Our non-return valves ensure the flow of water in only one direction, ensuring heating efficiency, preventing siphonage of contaminated water and keeping your shower cartridge in excellent condition for longer.

**AIRBURST** · By combining air and water, the pressure inside the shower head is increased. The power of a traditional shower with up to 33% water saved.

**Radiator British Thermal Units (BTUs)**  
The heat outputs of our radiators connected to your central heating system:

	ΔT=50°C Watts	ΔT=55°C Watts	ΔT=60°C Watts	BTU's
Lansdowne	558	623	688	2346
Bloomsbury	558	623	688	2346
Bruton	387	430	473	1613
Trafalgar	387	430	473	1613
Babble	266	294	323	1101
Cleaver	266	294	323	1101

## ADDITIONAL INFORMATION

All radiator outputs are tested to EN442. Fill the radiator approximately 90% (Bruton 4.5L, Lansdowne 6.5L, Babble 2.0L) with a water mixture. Includes all brackets and fixings. High quality nickel/chrome plated finish. Valves are required - These are not included.
