## Q™ EDITION

Introducing Q™ EDITION, our next generation smart mixer shower that's set to revolutionise the way we shower. We believe it is the world's smartest and most personal shower yet. Q™ EDITION breaks the mould. As well as the high performance and precision temperature control that come with an Aqualisa smart shower, Q™ EDITION offers personalisation capabilities that take the showering experience to a whole new level. Its on/off touch switch has been specifically designed to work in a wet environment and landmark technology includes a proximity sensor that reduces flow to save water when you step away from the shower, to wash or condition your hair or shave your legs.

NOT JUST A  
SHOWER,  
A PERSONAL  
SHOWERING  
EXPERIENCE

## Q™ EDITION

Q™ EDITION is not just a shower, but extraordinary showering. Crafted with high quality materials, it has been designed with individuality and style in mind. From the seamless motion of the multi-functional Q™ lever to the customisable metallic accents in finishes such as Rose Gold or Black Chrome.

Personalisation is at the very heart of Q™ EDITION: MyQ™ gives you the ability to choose from a range of six pre-set experiences that we have created for you to suit your mood and lifestyle, like 'Sport', 'Eco' or 'Comfort', as well as the option to create and save your own shower experiences so that you can repeat that perfect shower every time.

Intuitive and easy to use, with its simple on/off touch switch, Q™ EDITION greets you with a friendly 'Hello' displayed on its screen before it powers on. Its warm up feature will hold the water at your desired temperature until you're ready to start your shower, and the multi-functional Q™ lever adjusts the flow when you move it up and down and takes you to the menu when you press it. As with all our smart showers, it comes with a remote control so that you can power on your shower and have it perfectly pre-warmed before you step in.

Effortless, elegant, intuitive, smart. Q™ EDITION is one extraordinary shower.

Discover more in pages 24 and 25.

THE THINNEST  
AND ONE OF  
OUR MOST  
CUSTOMISABLE  
SMART SHOWERS

## INFINIA™

Engineered by the smart shower experts, Aqualisa Infinia™ delivers all the trusted benefits of a thermostatic valve, with the increased efficiency and sleek design of intelligent smart showering.

With one-touch start/stop; LED temperature indicator; precision temperature control and smart dual outlet – Aqualisa Infinia™ delivers the perfect shower, every time.

No need to be in the shower to start your shower. With dry-side remote control, your shower will warm up before you step in. Plus, with an Eco setting delivering a perfect shower with 33% less water, Aqualisa Infinia™ is a true guilt-free pleasure.

See pages 50 and 51 for configuration details, codes and prices.

## LESS IS MORE

The thinnest shower in its class.

Aqualisa Infinia™ boasts an ultra-thin control plate of just 2.5mm, which sits flush with the wall, for the most seamless look available.

## ENDLESS CHOICE

Aqualisa Infinia™ allows you to express your style and individuality.

First, tailor your hand-polished shower control with your choice of designer dials – Piazza, Tondo or Astratta.

Then, complement the look with your choice of fixed and adjustable shower heads and accessories, from the Aqualisa Premier Collection Options range. The possibilities are endless.

# ILUX™ SHOWER

Driven by Aqualisa's intelligent smart technology, ilux™ allows you to choose the shower to suit your mood at the touch of a button. From the perfect flow to the precise temperature, ilux™ allows you to pre-set your personal preferences and its intelligent lighting display will even tell you when your perfect shower is ready. Then step under a stunning shower head from the Options range to enjoy the perfect shower. Designed by you, delivered by ilux™.

Best of all, ilux™ remembers your pre-set personal showering preferences, no matter who used the shower last. And before you enjoy all that ilux™ has to offer, you can start your shower, without getting wet, with the neat wireless remote control from outside the enclosure.

If you wish to save water there is a thoughtful Pause button to allow you to interrupt the flow to lather hair or shave. An additional eco setting means you can be water efficient while still enjoying a truly sensational shower. And the ilux™ controls are 'cool to touch' so comfort and safety are guaranteed. The ilux™ Shower range includes dual outlet and single outlet shower systems for the ultimate lifestyle choice.

See pages 52 and 53 for configuration details, codes and prices.

See page 54 for configuration details, codes and prices.

## ILUX™ BATH

With an ilux™ smart Bath you can choose exactly how you want your bath to be, right down to the temperature and depth. You can create three personalised bathing experiences and with ilux's™ wireless remote control, you can even fill the bath from the comfort of your bedroom. Simply press one button and ilux will run your perfect bath, so you can enjoy a few more minutes in bed.

Make the most of your long soak with ilux™ smart's Hot Top Up. At the touch of a button you can extend your luxury bathing time. If you choose the dual outlet system you can team your ilux™ Bath with the retractable hand shower from the Options range to complete the luxurious experience. It will slide effortlessly and elegantly out of its housing and smoothly retract back in, making bathtime, 'me time'.

For family peace of mind the ilux™ Child Lock safety feature prevents little hands from filling the bath without permission. And with no taps in sight, your bathroom will look stylish and contemporary.

# HIQU™ SHOWER

The elegance of HiQu's™ contemporary design combines with the intelligence of Aqualisa's award-winning smart technology to deliver an intuitive shower.

Single touch start/stop with precision water-blending and lighting display that intuitively indicates the water temperature and flow. When the lights are red the water is heating up, blue it's cooling down and when they are white and steady, that's HiQu's™ advanced smart valve telling you that your ideal shower is ready. So step in, relax, and enjoy the perfection your HiQu™ smart Shower has to offer.

Whether you choose a HiQu™ Shower or a HiQu™ Smart dual outlet system, with the neat remote control you can enjoy the convenience of setting your shower running from outside the enclosure. The smart dual outlet system offers the added bonus of allowing you to choose between two outlets to commence showering or begin filling a perfect bath. HiQu's™ sophisticated looks are complemented by the comprehensive Premier Options range of shower heads and accessories, allowing you to create your perfect bathroom.

See pages 55, 56 and 57 for configuration details, codes and prices.

## HIQU™ BATH

Indulge yourself in a truly sophisticated bathing experience at the touch of a button, and without a tap in sight.

Select full, half or shallow fill – and HiQu™ Bath will fill your tub to the depth and precise temperature you choose. The intuitive lighting display will tell you when the water is flowing at your specified temperature. And HiQu™ will safely stop filling your bath when your chosen depth has been reached, so you can just ‘fill and forget’.

If you fancy soaking a little longer, go ahead and indulge yourself with HiQu's™ Top Up function. It can add more hot water to bring a cooling bath back to perfection. HiQu™ Bath dual outlet can be accessorised with your choice of stylish hand showers for a totally co-ordinated bathroom.

For family bathrooms, place a HiQu™ Shower dual outlet system over the bath and team with a bath fill, so that at the touch of a button you can effortlessly switch between the bath fill and shower.

See pages 57 and 58 for configuration details, codes and prices.

# HIQUXT™

HiQuXT™ is a thermostatic shower and bath shower mixer range that combines timelessly stylish looks with an exceptional showering experience. From its luxurious all-metal chrome finished controls to its sleek lines and architectural details, HiQuXT™ will have pride of place in any bathroom.

With HiQuXT™ you will enjoy a powerful, invigorating shower every time. Just team it with your choice of Options shower head. For low pressure gravity water systems just add a twin ended booster pump to deliver a satisfying, drench-like showering experience.

But HiQuXT™ delivers more than just high-performance showering with precise temperature control, it also comes with a host of thoughtful features. Like the Eco Flow control for a more sustainable but no less sensational shower and a temperature override button for safety and peace of mind.

The HiQuXT™ bath shower mixer features an integrated diverter that lets you switch seamlessly between bathing and showering, and can be bath or wall mounted, making HiQuXT™ an elegant and ergonomic choice for any bathroom space, large or small, new or refurbished.

See page 58 for configuration details, codes and prices.

## FUTORI™

Don't let the chic, sleek looks of the Futori™ twin-head mixer shower fool you into thinking this is all about sophisticated appearances. There's more than enough practical substance to go with Futori's™ undeniable style, so you'll enjoy nothing less than an impressive showering experience, whichever head you are using.

The discreet, integrated diverter allows you to customise Futori™ with your choice of drencher shower head and hand shower, which you can seamlessly switch between for your own personalised Futori™ shower experience. And when you want to keep your hair dry, Futori's™ drencher head arm swivels aside to make sure it stays that way.

The thermostatic technology at the heart of Futori™ delivers perfect water temperature and flow to your shower head. And for added reassurance, there's a temperature override button to ensure safe family showering.

With its luxurious brass controls, everything about Futori™ exudes quality and superior attention to detail. Of course, as with all our other ranges you're free to tailor Futori™ with your choice of accessories from the Options range to create the cool, classic bathroom style you prefer.

Futori™ is suitable for high pressure, combination boiler, and boosted gravity water systems.

See page 59 for configuration details, codes and prices.

# Q™ EDITION

## Q™ EDITION smart Shower and Q™ EDITION smart Shower Dual Outlet

With its sleek contemporary design, smart features and colour display screen, Q™ EDITION is intuitive and easy to use.

- ① **On/off touch switch** – Touch to start and stop. Water will be set at the standard 38° temperature.
- ② **Proximity sensor** – It activates the power on mode when standing in front of it. If sensor is inactive, it will decrease flow to save water.
- ③ **Temperature bezel** – Hold device bezel and turn clockwise to increase temperature. Hold device bezel and turn anti-clockwise to decrease temperature. Water temperature will be displayed on screen as bezel is turned.
- ④ **Q™ Lever** – Move up and down to increase or decrease water flow. Press in to navigate menu and access pre-set and personalised shower experiences by selecting unique combinations of temperature, flow, outlet and time. Press and hold to select outlet.
- ⑤ **Display** – Colour screen appears when using on/off touch switch or proximity sensor. Screen will change colour to denote different options in the menu.

Q™ EDITION Shower/Bath Dual Outlet controller shown

## Q™ EDITION Remote Control

Q™ EDITION remote control is wireless and has a micro USB charging port.

- ① **On/off** – Touch to turn the shower on.
- ② Press to change outlet.

## Q™ EDITION adjustable shower head

Optimised to deliver the ultimate showering performance, the 130mm Aqualisa Vita™ handset can be customised to match your Q™ EDITION device with a beautiful metallic accent that will enhance the look of your bathroom. You can select from one of five finishes. See below.

## Q™ EDITION fixed shower heads

For Q™ EDITION we have created two luxurious fixed drencher heads to maximise the spa-like experience that Q™ EDITION can offer. Choose from 300mm or 250mm sizes.

## Q™ EDITION metallic accents

With a choice of five metallic accents, you can add a touch of elegance and modernity in your bathroom. Simply select an Accent Pack, which also includes your choice of accent for the Aqualisa Vita™ Handset and the Q™ EDITION bezel.

Colour images used for illustrative purposes. Please request to see physical samples for accuracy.

# INFINIA™

## Infinia™ Shower and Infinia™ Shower Dual Outlet

Aqualisa Infinia™ delivers all the trusted benefits of a thermostatic valve, with the increased efficiency and sleek design of intelligent, smart showering. Plus, tailor the look of the control to suit your bathroom style with your choice of three designer dial shapes and finishes.

- ① **Start/Stop button (Infinia™ Shower)** – Press button to start. Water will dispense at the flow and temperature set by the controls.  
**Start/Stop and Divert button (Infinia™ Shower Dual Outlet)** – Press button to start. Water will dispense to the preferred outlet at the flow and temperature set by the controls. Push and hold and the flow will divert to the alternative outlet.
- ② **Temperature** – For warmer water move lever to the right, cooler to the left.
- ③ **Flow control** – For higher flow move water flow lever to the right, for lower flow to the left.
- ④ **LED Display**
  - Temperature increasing**  
Light is red and spins clockwise.
  - Temperature decreasing**  
Light is blue and spins anti-clockwise.
  - Flow increasing**  
Light is white and spins clockwise.
  - Flow decreasing**  
Light is white and spins anti-clockwise.
  - Flow and Temperature reached**  
Light is static white.
  - Divert selected**  
Light will give one purple flash.

Infinia™ Shower/Bath Dual Outlet controller shown

## Infinia™ Remote Control

- ① **Start/Stop** – Press button to start or stop.  
**Divert button (Dual Outlet systems only)** – Push and hold and the flow will divert to the alternative outlet.
- ② **LED Display**
  - Start/Stop**  
Flashes white until selected flow and temperature have been reached then light remains solid.
  - Divert**  
LED will 'blink' once to confirm divert.

Infinia™ Remote Control

## Infinia™ smart Shower Control Dials

Aqualisa Infinia™ is the ultimate in style statements. Select from three different dial shapes and finishes, to match your style and personality perfectly.

### Piazza

Piazza marries strong designer lines with a crisp chrome finish. Perfect urban chic.

### Tondo

Elegant simplicity. Tondo complements the curved lines of your bathroom design. Couple with a 300mm round drencher head to turn your shower into a personal oasis.

### Astratta

An elegant fusion of function and form. The perfect complement to your custom-made contemporary bathroom.

Available in Chrome and White/Chrome

## ilux™ Shower and ilux™ Shower Dual Outlet

The ilux™ Shower and ilux™ Shower Dual Outlet controls are intuitive and simple to use. These easy to follow guidelines mean you can have your ilux shower system programmed and up and running in no time at all.

- ① **Start/Stop button (ilux™ Shower)** – Push to start and stop, it will default to the flow and temperature of the last shower taken.  
**Start/Stop and Divert button (ilux™ Shower Dual Outlet)** – Push to start and stop, it will default to the preferred outlet at the flow and temperature of the last shower taken. Push and hold and the flow will divert to the alternative outlet.
- ② **Temperature control** – Turn right or left to adjust temperature. Sophisticated LED lighting display shows water heating up, cooling down and when it has reached temperature.
- ③ **Pre-set buttons** – Push to select desired shower or bath or to programme your shower. The LED light confirms the pre-set has been selected. ilux Dual Outlet will also remember the outlet. Pre-set buttons are numbered 1, 2, 3 and 4.
- ④ **Flow control** – Turn right or left to increase or decrease. LED lights show how high or low the flow is. A green LED will illuminate when 'eco flow' has been reached.
- ⑤ **Pause button** – Push to pause flow during a shower – so you can lather hair or shave.

ilux™ Shower Dual Outlet controller shown

## ilux™ Shower Remote Control

The ilux™ Shower Remote Control is wireless and sits in a neat 'holster' which can be located wherever is convenient. It 'pairs' with the controller it is to be used with and will not work with others. You can carry it with you and it will work up to 10m from the control, so you can start your shower without getting wet.

- ① **Start/Stop button** – Push to start or stop the water flowing. Dual Outlet version will default to the preferred outlet set at installation and will operate at the flow and temperature of the last shower taken. Press and hold to divert to alternative outlet if used with an ilux™ Dual Outlet shower.
- ② **Pre-set buttons** – Push to start with programmed flow and temperature for shower and relevant shower head with ilux™ Shower Dual Outlet. Pre-set buttons are numbered 1, 2, 3 and 4.

ilux™ Shower Remote Control

## ilux™ Shower and ilux™ Shower Dual Outlet – luxury pre-sets

ilux™ smart Shower offers four simple pre-programmable showering options, providing flow and temperature memory to give you the perfect shower every time.

In addition to remembering the pre-set flow and temperature, ilux™ smart Dual Outlet will also remember the preferred shower head or bath fill at the touch of a button.

## ilux™ Bath and ilux™ Bath Dual Outlet

The simplicity of ilux™ Bath and ilux™ Bath Dual Outlet means you can create and enjoy your perfect bath at the touch of a button.

ilux™ Bath Dual Outlet controller shown

- ① **Start/Stop button (ilux™ Bath)** – Push to start and stop, it will default to the flow and temperature of the last bath taken.  
**Start/Stop and Divert button (ilux™ Bath Dual Outlet)** – Push to start and stop, it will default to the preferred outlet at the flow and temperature of the last bath taken. Push and hold and the flow will divert to the alternative outlet.
- ② **Temperature control** – Turn right or left to adjust temperature. Sophisticated LED lighting display shows water heating up, cooling down and when it has reached temperature.
- ③ **Pre-set buttons** – Push to select desired bath or to programme your bath fill. The LED light confirms the pre-set has been selected. ilux™ Dual Outlet will also remember the outlet. Pre-set buttons are numbered 1, 2 and 3.
- ④ **Flow control** – Turn right or left to increase or decrease. LED lights show how high or low the flow is. A green LED will illuminate when 'eco flow' has been reached.
- ⑤ **Safety-lock/Unlock buttons** – ensures that 'little hands' can't adjust the temperature or flow if unsupervised.

## ilux™ Bath Remote Control

Like the ilux™ Shower Remote Control, the ilux™ Bath Remote Control sits in a neat 'holster' which can be located conveniently and once paired with the controller, it will not work with others. You can carry it with you and it will work up to 10m from the control, so you could even start your bath filling from the comfort of your bed. Plus, it is water resistant so it will work in steamy environments. If it accidentally falls into the bath it will float to the surface.

- ① **Start/Stop button** – Push to start or stop the water flowing. Dual Outlet version will default to the preferred outlet set at installation and will operate at the flow and temperature of the last bath taken. Press and hold to divert to alternative outlet if used with an ilux™ Bath Dual Outlet.
- ② **Pre-set buttons** – Push to start with programmed depth and temperature (and preferred outlet with ilux™ Bath Dual Outlet). Pre-set buttons are numbered 1, 2 and 3.
- ③ **Hot Top Up** – Select to run hot water at the highest temperature and lowest flow into a cooling bath for a longer luxurious soak.

ilux™ Bath Remote Control

## ilux™ Bath and ilux™ Bath Dual Outlet – luxury pre-sets

ilux™ smart Bath offers three simple pre-programmable bathing options, providing temperature and bath depth memory, allowing you to just 'fill and forget'.

As well as remembering the pre-set temperature and bath depth, ilux™ smart Bath Dual Outlet will remember flow and the preferred outlet allowing you to dedicate a pre-set to the hand shower if required.

## HiQu™ Shower and HiQu™ Shower Dual Outlet

HiQu™ smart is as elegant as it is simple to use, whether you choose a HiQu™ smart Shower or a HiQu™ smart Shower Dual Outlet. Its intuitive, sophisticated lighting and simple controls make it the perfect choice for both classic and contemporary bathrooms.

- ① **Start/Stop button (HiQu™ Shower)** – Press button to start. Water will dispense at the flow and temperature set by the controls.
- Start/Stop and Divert button (HiQu™ Shower Dual Outlet)** – Press button to start. Water will dispense to the preferred outlet at the flow and temperature set by the controls. Push and hold and the flow will divert to the alternative outlet.
- ② **Temperature** – For warmer water move lever to the right, cooler to the left.
- ③ **Flow control** – For higher flow move water flow lever to the right, for lower flow to the left.
- ④ **LED Display**
  - Temperature increasing**  
Light is red and it spins clockwise.
  - Temperature decreasing**  
Light is blue and it spins anti-clockwise.
  - Flow increasing**  
Light is white and spins clockwise.
  - Flow decreasing**  
Light is white and spins anti-clockwise.
  - Flow and Temperature reached**  
Light is static white.
  - Divert selected**  
Light will give one purple flash.

HiQu™ Shower/Bath Dual Outlet controller shown

## HiQu™ Remote Control

- ① **Start/Stop** – Press button to start or stop.
- Divert button (Dual Outlet systems only)** – Push and hold and the flow will divert to the alternative outlet.
- ② **LED Display**
  - Start/Stop**  
Flashes white until selected flow and temperature have been reached then light remains on solid.
  - Divert**  
LED will 'blink' once to confirm divert.

HiQu™ Remote Control

## HiQu™ Bath and HiQu™ Bath Dual Outlet

The stylish design, elegance and simplicity of HiQu™ Bath, whether you choose the bath only or Dual Outlet version, means your perfect bath is always available at the touch of a button.

- ① **Start/Stop button (HiQu™ Bath)** – Press button to start. Water will dispense at the temperature and depth level set by the controls.
- Start/Stop and Divert button (HiQu™ Bath Dual Outlet)** – Press button to start. Water will dispense to the preferred outlet at the flow and temperature set by the controls. Push and hold and the flow will divert to the alternative outlet.
- ② **Temperature** – For warmer water move lever to the right, cooler to the left.
- ③ **Bath depth setting** – Three depth settings: shallow fill, half fill, full fill. Plus Top Up and Set Up modes.
- ④ **LED Display**
  - Temperature increasing**  
Light is red and it spins clockwise.
  - Temperature decreasing**  
Light is blue and it spins anti-clockwise.
  - Divert selected**  
Light will give one purple flash.
  - Bath Set Up/Programming mode**  
Light turns pink while programming in Bath Set Up mode.
  - Pre-set filling mode**  
Light flashes white during bath fill.

HiQu™ Bath Dual Outlet controller shown

## Programming HiQu™ Bath

Press the Start/Stop button to start the water flowing. Select 'Bath Set Up mode', put in the plug and press and hold the Start/Stop button until the LED flashes purple. When the water has reached the depth you desire for a full fill, press Start/Stop again and the controller will remember the depth you have chosen. It will also automatically convert this into shallow fill and half fill depths. All you have to do is decide how hot or cool you want your bath, select the bath depth and press 'Start' for a perfect bathtime.

# HIQUXT™

## HiQuXT™ Shower

Simple and stylishly designed, HiQuXT™ is what you come to expect from Aqualisa. Precise water and temperature control, easy to use controls and thoughtful features like an 'eco-stop' control that reduces water use by up to 50% without compromising performance, a factory set temperature control and a temperature override button, mean that HiQuXT™ offers everything you need to make your modern bathroom complete.

## HiQuXT™ Bath Shower Mixer

Bathing and showering just got more enjoyable thanks to the HiQuXT™ Bath Shower Mixer dual outlet. The dual outlet system allows you to switch between water flowing from the spout to the shower head. No hassle and no fiddling with taps. Just pure, simple enjoyable bathing.

## Using HiQuXT™ Bath Shower Mixer

- ① **Eco-stop button** – reduces flow by 50%.
- ② **Flow control** – twist to increase or decrease flow.
- ③ **Temperature control** – twist to increase or decrease temperature as required.
- ④ **Temperature override button** – set at 38°C for safer showering – can be adjusted to suit local conditions.
- ⑤ **Deck mounted fittings** (wall mounts also available).
- ⑥ **Integrated diverter** – lift and twist to lock and unlock.

# FUTORI™

## Futori™

Combining luxurious styling with functionality and performance, a Futori™ shower never fails to please. A built-in diverter allows you to switch from the fixed shower head to a hand shower, which sits neatly in the adjustable handset holder. Built from solid brass, the temperature control will stop at 38°C for safer family showering. But a temperature override button allows you to choose a hotter shower if necessary.

- ① **Fixed head arm**  
Rotates 180°.
- ② **Luxurious, solid brass control**
- ③ **Built-in diverter**  
Can be used to select fixed head or adjustable hand shower.
- ④ **Adjustable handset holder**  
Glides smoothly to required height with minimum effort.
- ⑤ **Temperature override button**  
Set at 38°C for safer showering.  
Can be adjusted to your preference.
- ⑥ **Temperature control**

# Smart Valves

Powered by Aqualisa's award-winning smart technology, Q™ EDITION, Infinia™, ilux™ and HiQu™ smart are controlled by a compact smart valve. The correct smart valve solution will be determined by the water system in your home. This small but powerful device blends the hot and cold water and controls the flow with smart precision to exactly the flow and temperature selected, regardless of the external temperature or conditions. It can be located up to 10 metres away from the bathing area, in the loft, airing cupboard or under the bath and delivers the perfect bath or shower every time.

Smart Valves also benefit from Aqualisa's 5 year manufacturer's guarantee.

## High Pressure/Combi smart valves

This smart valve, which is no larger than a shoe box, is for use with high pressure water systems which can include a combination boiler or mains fed water. It can also be teamed with a suitable twin ended booster pump for low pressure systems requiring a powerful boost.

## Gravity Pumped smart valve with integral pump

Suitable for homes with low pressure gravity fed water systems. This smart valve integrates a pump to provide extra power.

## Smart Diverter

Approximately half the size of a smart valve, the smart Diverter simply connects to the smart valve and converts a single outlet smart product into a dual outlet smart product.

The ingenious smart Diverter has the ability to enable either outlet to work separately, or simultaneously if required. It can even select your preferred outlet to operate first, every time – ideal when switching your shower on using your remote from outside of your shower area.

Product dimensions are in mm and are for guidance only. Please refer to installation guides for installation requirements.

If fitting a smart Diverter and HP/Combi smart valve complete with a separate booster pump, a suitable universal pump (which works on both positive and negative head conditions) will be required.

# Choose. Explore. Create.

At Aqualisa we believe that the perfect shower experience doesn't come out of a box, because it is unique to each individual. That's why we have designed our range of showers and accessories to encourage you to explore your choices and create your perfect shower.

## Icon key

Simple and easy to use, each of these icons allows you to see at a glance what additional benefits a particular product or accessory comes with.

#### High pressure water systems

Suitable for use with high pressure, combination boiler and boosted gravity systems

#### Low pressure water systems

Suitable for use with gravity water systems

#### All water systems

Suitable for use with all water systems

#### High flow

Enjoy a greater flow rate of water for an uncompromising shower experience

#### Spray patterns

Select from a choice of multiple spray patterns to suit your mood

#### 'Cool to touch' controllers

Thermostatically blended water is mixed remotely at the processor, not the controller

#### Easy to install

Quick and simple installation causing minimal disruption to tiles and décor. Exposed smart Showers can be fitted in as little as 2 hours

#### Eco 33%

Enjoy up to 33% water saving without comprising your showering experience. Feel good about the environment and save money on your water bill too

#### Eco 50%

Enjoy up to 50% water saving without comprising your showering experience. Feel good about the environment and save money on your water bill too

#### 5 year guarantee

All components come with a 5 year parts and labour guarantee

#### Proximity sensor

When the shower is on, if you move away from it, flow will reduce by 10% and full flow will resume when you move back in front of it.
