## ROOM FOR IMAGINATION

### THE WORLD'S LEADING CERAMIC LIFESTYLE BRAND.

As a ceramics expert,  
we help create icons.  
We help build marvels.

Our expertise ensures that quality is always ideal  
and that integrated solutions and reliable  
advice is always within reach.

That every detail, big or small, is accounted for  
and exceptional is always attainable.

Because iconic spaces  
are not created by honouring the boundaries of  
what is possible.  
They're not designed by restricting imagination.

Iconic spaces  
are born through a passion  
to prove that there is always an exception to  
every rule.

That functions,  
colours,  
shapes and sizes  
do not limit  
but give room for possibilities.  
Indeed, to build remarkable spaces,  
is to defy logic and set inspiration free.

This is what moves us.

We give room to embrace whatever inspiration,  
room to define quality,  
room to create without limitations.

Today,  
and tomorrow.

No matter the ambition,  
no matter the challenge,  
we give **room for imagination**.

DANIEL DEBIASI AND FEDERICO SANDRI  
*Designer*

Daniel Debiasi and Federico Sandri founded their own design studio in 2010 and work within various fields of design, ranging from objects to spaces. Multiple experiments and the relationship between manufacture and craftsmanship form the basis for a much broader thinking, where objects are always considered as part of a bigger picture. They have created work for Antoni Lupi, Lema, Ligne Roset, Normann Copenhagen, Offecct, Rosenthal, Stelton, Villeroy & Boch among others. Many of their projects have received international design awards and are featured in publications worldwide. In addition to their work as designers, they regularly teach, hold workshops and lectures at various institutions including IUAV Venezia and Politecnico di Milano. Together with Rak Ceramics, Daniel Debiasi and Federico Sandri present the project RAK-Variant (2019).

GIUSEPPE MAURIZIO SCUTELLÀ  
*Designer*

Giuseppe Maurizio Scutellà was born in Alcamo, Sicily. His collaboration with RAK Ceramics begins with RAK-Cloud, a project that continues the creative thinking of the Italian designer and that integrates perfectly with his other projects such as the collection of lamps "Pirce" by Artemide (Good\_Design 2008, Red Dot Award 2009, IF Design Award 2010) and the "Metropolis" collection of crystal and ceramic tables by Tonelli Design.

"I like to talk with the soul of all my projects, discover its history and capturing the most hidden hues of its character, respecting its nature and embracing its languages. It is my way of approaching its magical essence and becoming its interpreter."

# RAK-SENSATION TOUCHLESS FLUSHING

The hygienic hands-free flushing experience

## More Easy And Hygienic

Enjoy the same hands free, germ free experience of commercial restrooms. With the new Rak Ceramics Touchless Flushing System, this same ease of use and minimal spreading of germs has finally expanded to the home use toilets. A sensor module mounts underneath the toilet's cistern lid and runs on four AA batteries. It utilizes emerging sensing technology, which projects an electromagnetic field that is both extremely accurate and reliable. This type of sensor detects the user in the projected field and initiates the dual flush: 6 Liters keeping the hand above the spot, or 3 Liters waving the hand.

### DUAL FLUSHING:

-  Still hand above the indicated spot for full flush.
-  Waving hand above the indicated spot for half flush.

### Technical Information:

-  Sensor area is within 40mm~60mm from the surface of the cistern lid; effective diameter of the sensor area is within 100mm.
-  Battery life: around 2 years for family use, and 1 year for commercial using.
-  Override lateral push button in case of failed battery.

# URINALS & PARTITIONS

Waterless

RAK-Venice is a urinal perfectly functioning with no use of water: we call it Waterless.  
 RAK Ceramic's Waterless system is unlike any other dry valve in the market, helping to: eliminate restroom odors, provide the most robust flow rate, make maintenance and clean up easier, and provide a more hygienic solution in the restroom.  
 The maintenance of our Waterless system is easy and fast, the green visual indicator is made of biodegradable ingredients that inform when it's time to change out your cartridge (approx. 7500 uses).

## DESIGNERS

Collaboration is the essence of Creation. RAK Ceramics works with renowned designers to create innovative bathroom products that will inspire and enhance your imagination. Aimed to address the evolving design demand of the market, these collaborations bring forth creative ideas and latest trends in the industry resulting in an aesthetic and functional bathroom collection. RAK Ceramics brings the designer's idea to life by creating high quality products which gives the customers the freedom to imagine.

### GIUSEPPE MAURIZIO SCUTELLÀ

Giuseppe Maurizio Scutellà was born in Alcamo, Sicily. His collaboration with RAK Ceramics begins with **RAK-Cloud (2018)**, a project that continues the creative thinking of the Italian designer and that integrates perfectly with his other projects such as the collection of lamps "Pirce" by Artemide (Good\_Design 2008, Red Dot Award 2009, IF Design Award 2010) and the "Metropolis" collection of crystal and ceramic tables by Tonelli Design. **RAK-Petit (2019)** is the second concept developed together with RAK Ceramics.

### DANIEL DEBIASI AND FEDERICO SANDRI

Daniel Debiasi and Federico Sandri founded their own design studio in 2010 and work within various fields of design, ranging from objects to spaces. Multiple experiments and the relationship between manufacture and craftsmanship form the basis for a much broader thinking, where objects are always considered as part of a bigger picture. They have created work for Antoniolupi, Lema, Ligne Roset, Normann Copenhagen, Offecct, Rosenthal, Stelton, Villeroy & Boch among others. Many of their projects have received international design awards and are featured in publications worldwide. In addition to their work as designers, they regularly teach, hold workshops and lectures at various institutions including IUAV Venezia and Politecnico di Milano. Together with Rak Ceramics, Daniel Debiasi and Federico Sandri present the project **RAK-Variant (2019)**.

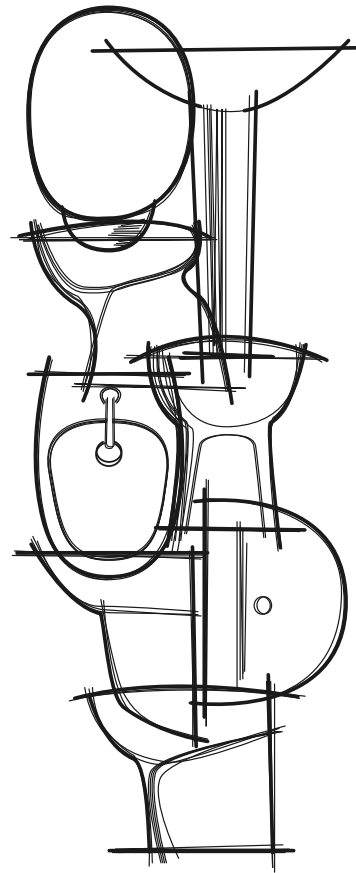

## DESIGN & STYLE

### Innovative and Original Design, 3D Development, Rapid Prototyping

RAK Ceramics product development has created a very wide range of products with carefully finished details and quality design to suit international tastes, incorporating the latest rimless technology.

Carefully designed and engineered with the aid of the latest 3D CAD softwares and prototyped with 5 axis CNC machines, RAK Ceramics Sanitaryware range has the perfect solution for your bathroom, whatever you have imagined.

CERAMICS

# WATER SAVING

## Can we save water in our bathrooms?

One of the easiest ways to save water is to install a toilet with a dual-flush cistern.

Dual-flush cisterns let the user choose how much water to use when flushing the toilet and they are designed for wall-hung, back-to-wall and close coupled water closets.

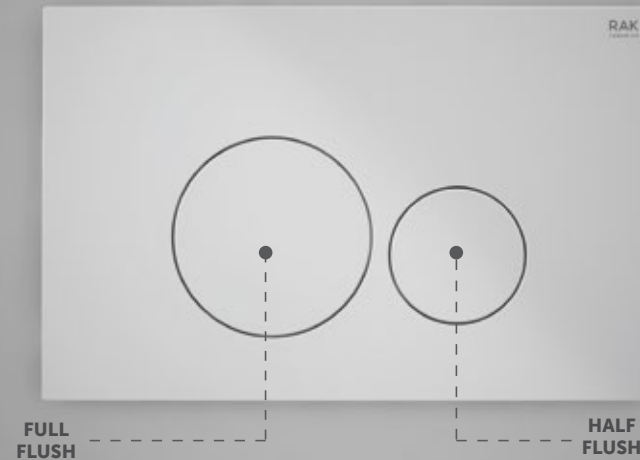

RAK Ceramics flushing systems, allow you to choose using the full flush or the half flush, with different flushing volumes: 6 Liters for the full and 3 Liters for the half flush. The cisterns can also be adjusted to flush with a reduced full flush volume at 4.5 Liters.

For countries with limited water resources, RAK Ceramics has developed innovative water closets perfectly flushing with a reduced 3 Liters single flush.

By using a lower volume of water to flush the toilet you can dramatically reduce your annual water consumption.

# EVOLUTION

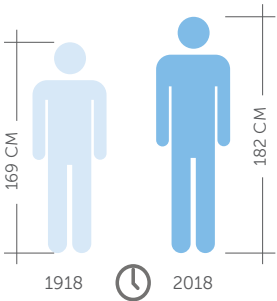

## Comfort height, updated ergonomics

Over the last 100 years, the average height of people in industrialized nations has increased approximately by 10 cm.

To be innovative in design also means meeting the changes in population and their new needs in terms of ergonomics and comfort.

RAK Ceramics design evolves together with human evolution.

NEW STANDARD HEIGHTS

# HIDDEN FIXATIONS

WALL HUNG SANITARYWARE

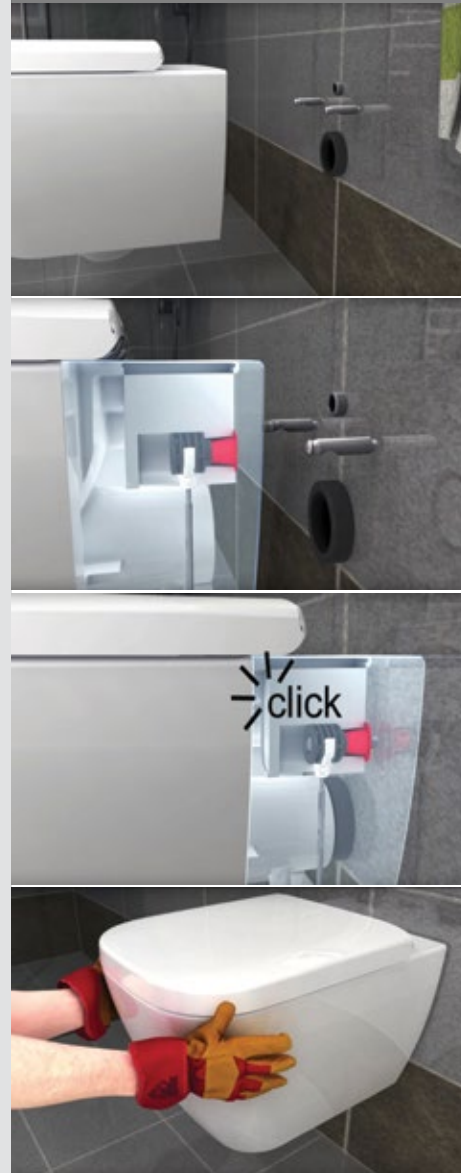

## Hidden Fixation System

It's easy, it's safe.

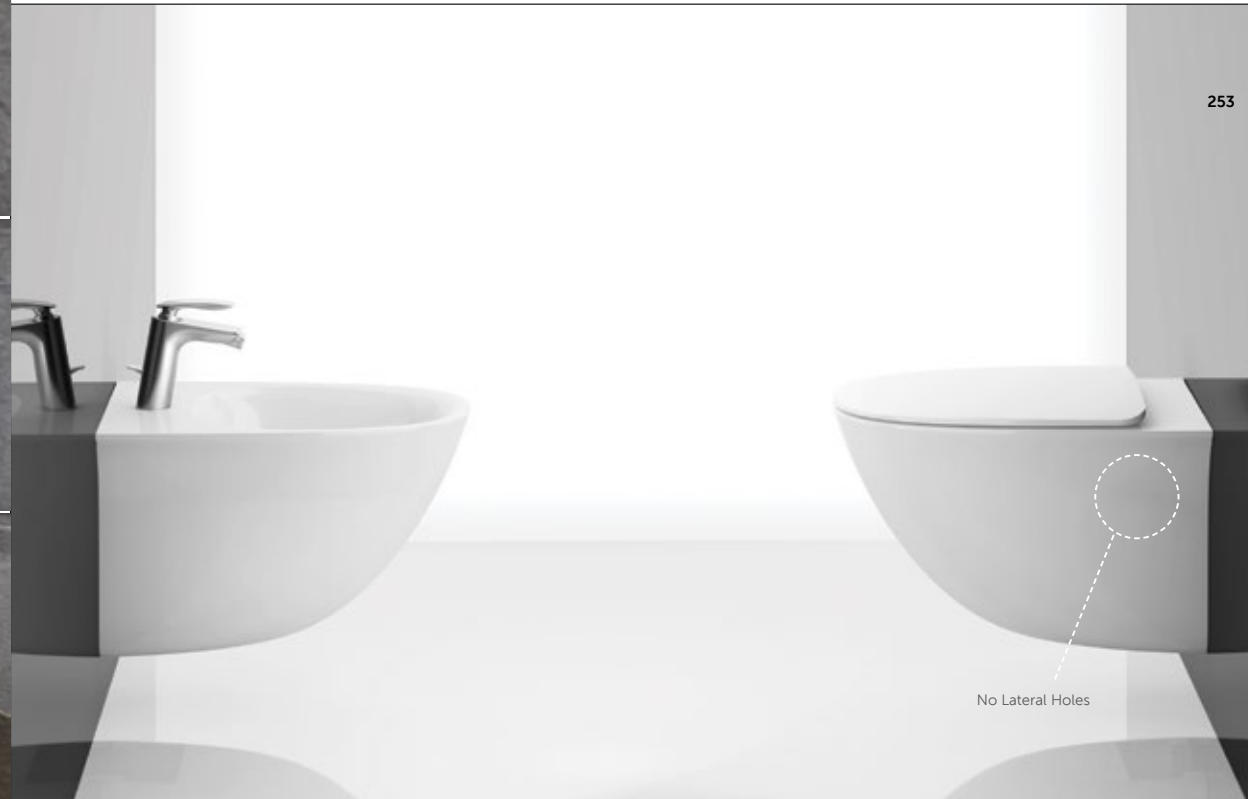

Our products are benefitting of the collaboration with Fischer Group, one of the industry leaders. The use of the most innovative Fischer fixing systems, is allowing us design freedom on the ceramic, better aesthetics and more safety for the installer.

The Hidden Fixation System is comfortable and time saving, in fact one-man installation is made possible by the clip system that keeps the ceramic held up during the installation.

# RIMLESS

## The Ultimate Rimless Technology for your bathroom

RAK Ceramics delivers the ultimate in technology for bathroom suites.

Based on similar design specifications to sanitaryware in hospitals and medical centres, RAK Ceramics Rimless water closets allows you to experience the same high standards of hygiene in your own home.

RAK Ceramics continues to set new standards of hygiene and water efficiency in the sanitaryware industry, with uniquely engineered water flushing systems that effectively remove waste, helping to keep bathrooms fresh and hygienic.

# RAK-ProTeK

Antibacterial and hygienic glaze

## The new standard of hygiene

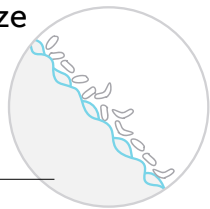

RAK-ProTeK is the innovative ceramic glaze developed to protect wash basins, toilets and urinals, to make them more hygienic and easier to clean. RAK-ProTeK, which is baked into the ceramic during firing, results to a smoother surface, unlike standard ceramic with irregular surface.

This feature allows the particles accumulating on the ceramic to easily slip away making cleaning more efficient and convenient.

**99.9%**  
Antibacterial  
&  
Hygiene Glaze

## An innovative protection against bacteria

The silver ions contained in this revolutionary glaze, kill 99.9% of bacteria in 24 hours and prevent the bacterial growth, in comparison to conventional ceramic glazing. RAK-ProTeK has been tested by Artest laboratory from the Italian Ceramic district in Modena.

# RAK-MAXXFLUSH

Performance and water saving at every flush

It's Maxx in efficiency, thanks to the high performing Fill Valve and Flush Valve. It's Maxx in water saving, thanks to its dual flush system that allows users to choose between a partial flush (3Lt.) and a full flush (6Lt.) It's Maxx in design, thanks to the new push button. It's RAK-MaxxFlush

## DUAL FLUSHING:

-  Large button for full flush.
-  Small button for half flush.

### Can we save water in our bathrooms?

One of the easiest ways to save water is to install a toilet with a dual-flush cistern. Dual-flush cisterns let the user choose how much water to use when flushing the toilet.

RAK Ceramics flushing systems, allow you to choose using the full flush or the half flush, with different flushing volumes: 6 Liters for the full and 3 Liters for the half flush. The cisterns can also be adjusted to flush with a reduced full flush volume at 4.5 Liters.

By using a lower volume of water to flush the toilet you can dramatically reduce your annual water consumption.

WRAS Certified Product

# PRODUCTION & QUALITY

## Raw Materials, Glaze, Latest Technology and Manufacture

RAK Ceramics is internationally recognized for the high quality of its sanitary ceramics. This quality comes from carefully selected premium rawmaterials that ensure a perfect finish of the products.

Better ingredients, better sanitaryware!

12,000  
sanitaryware pieces produced per  
day globally

500 PER HOUR  
sanitaryware produced every hour  
globally

At RAK Ceramics skilled craftsmen work in harmony with the latest robot technology for the sanitaryware manufacturing.

# PRODUCTION & QUALITY

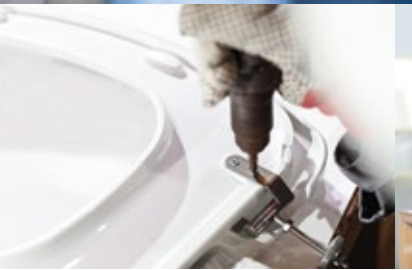

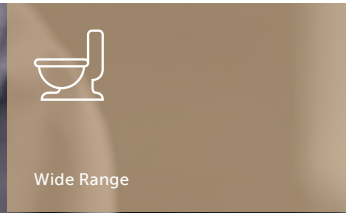

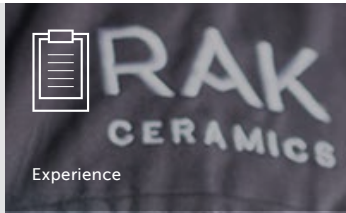

## Quality, Procedures, Organization and Norms

Every phase of the RAK Ceramics sanitaryware production process counts on strict quality control procedures. The leadership in the GCC Region and the strong presence in several other international markets reflect our everyday efforts.

Our internal Norms comply and exceed the international requirements in terms of quality and performance.

## Seat Covers, Bathtubs and Shower Trays

At RAK Ceramics we are not just ceramic experts. We manufacture also seatcovers, acrylic bathtubs and showertrays.

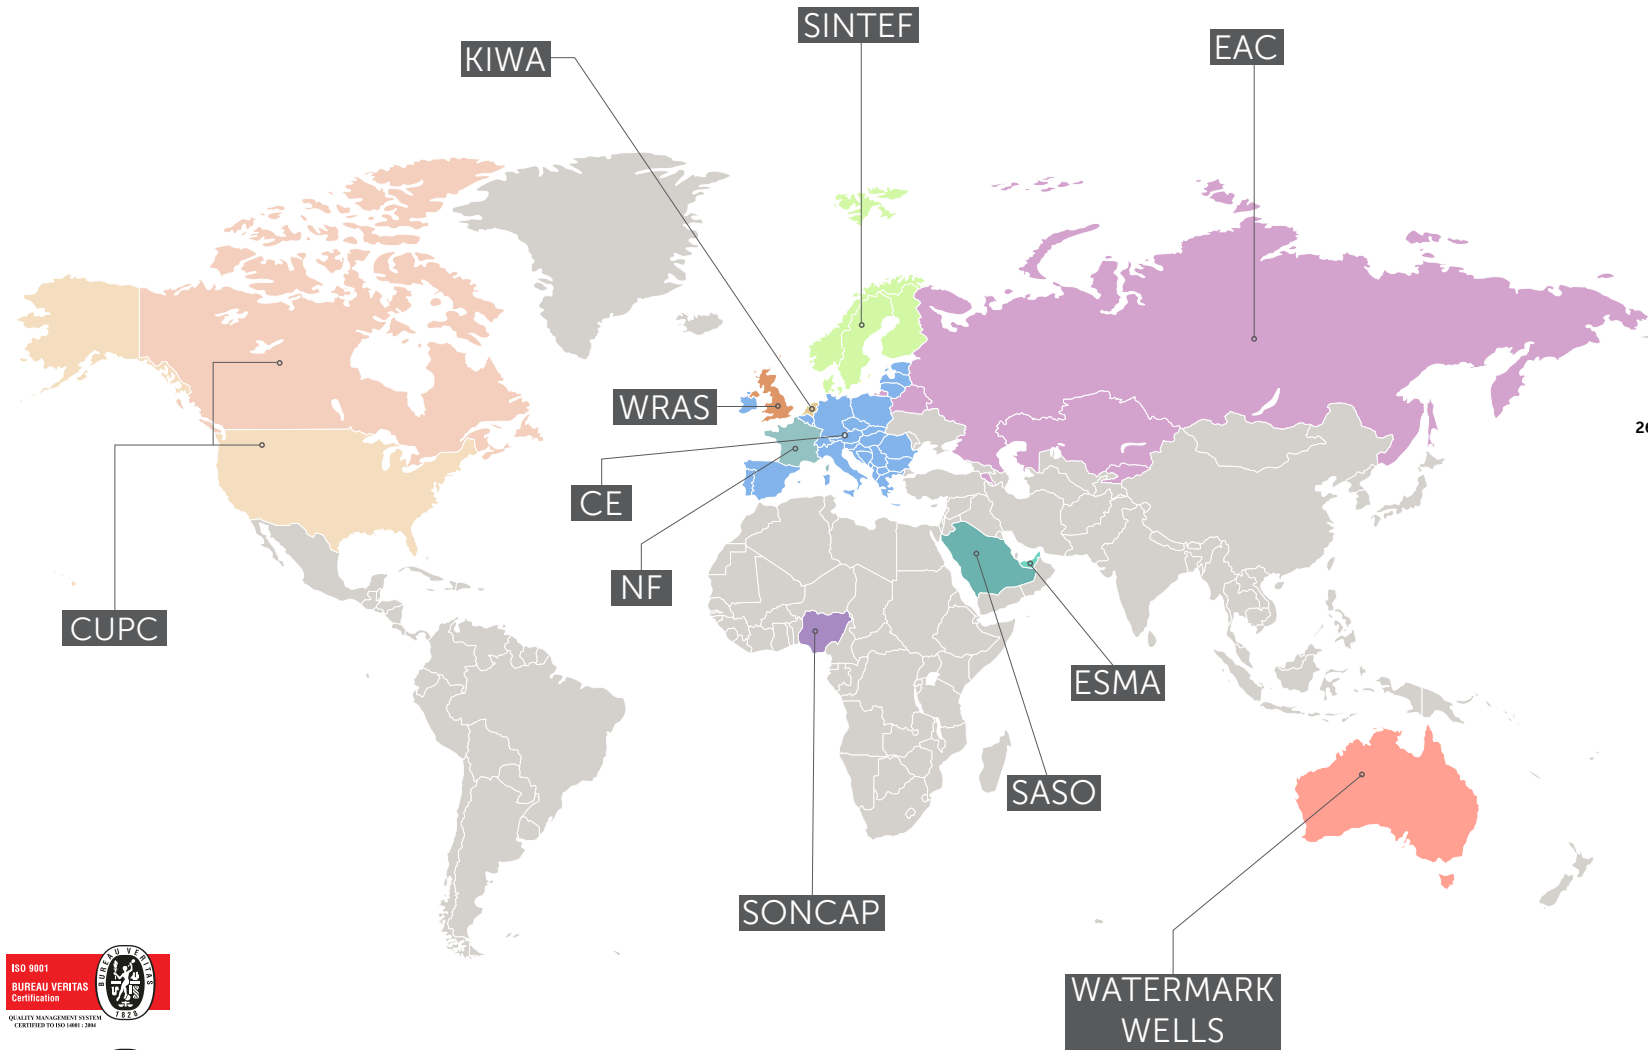

# CERTIFICATIONS & TESTS

## Global Approvals & Standards

RAK Ceramics Sanitaryware production is accredited with the world's most reputable certification entities; with national and international certifications for product and processes, RAK Ceramics not only complies to the requirements, but often exceeds the most stringent international standards. Our own water/air severe product testing is performed on the 100% of WC & Bidet production. Only complying products are labeled with our new QC sticker: a seal of quality and performance!

# CERTIFICATIONS & TESTS

## FROM RESPONSIBLE SOURCES FSC® CERTIFIED

The RAK-Joy wooden furniture collection respects the environment and the life of the furniture itself. All particleboard and MDF used in the construction of this striking furniture collection comes from responsible sources FSC certified, respecting the forests, the people and wildlife who call them home.

For more information: [www.fsc.org](http://www.fsc.org)

Furthermore, all external LAMILAK and TECHWOOD surfaces are made from recyclable PET or PP materials. Polyurethane glue has been used to seal all furniture edges, allowing no water ingress. RAK-Joy has been subjected to the Fira Level 5 water ingress tests, where external panels are subjected to 10 water submersion cycles with no degradation to the panels. The furniture also meets EN 14749 and BS 4875-7 structural and performance standards. Doors and drawers are fitted with lifetime guaranteed Blum hinges and drawer runners – the installers choice to 'fit and forget'. There is also the option to upgrade RAK-Joy with ambient USB re-chargeable lighting and de-misting mirrors. Internal drawer accessories complete the look.

RAK-Joy, the bathroom furniture choice for style and functionality.

The mark of  
responsible forestry

# A TRACK RECORD OF EXPERTISE

RAK Ceramics' products feature in some of the most iconic buildings in the world. From the Burj Al Arab, Atlantis on The Palm and Ferrari World, to Dubai Duty Free, Wembley Stadium, The O2 Arena, Mercedes Benz Showrooms, Airports, Residential Developments and Shopping Malls all over the world. The brands we work with include:

## ENERGY AND INDUSTRIAL
